Community

Making a Difference Together

In 2009, we gave more than \$50 million to support not-for-profit groups in Canada and the U.S. We were pleased to be in a position to increase our financial donations, sponsorships and community partnerships in a year when the need was very acute.

Our Approach

We believe that effective community involvement is about more than dollars and cents. We aim to increase the impact of our donations by encouraging employee and customer involvement, collaborating with community groups to help them achieve their goals and championing causes that matter to our stakeholders.

As TD grows as a North American bank, we are looking to better align our Canadian and U.S. programs by building on the strengths of our respective activities.
