Caution Regarding Forward-Looking Statements

From time to time, the Bank makes written and/or oral forward-looking statements, including in this presentation, in other filings with Canadian regulators or the U.S. Securities and Exchange Commission, and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media and others. All such statements are made pursuant to the “safe harbour” provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements regarding the Bank’s objectives and priorities for 2011 and beyond and strategies to achieve them, and the Bank’s anticipated financial performance. Forward-looking statements are typically identified by words such as “will”, “should”, “believe”, “expect”, “anticipate”, “intend”, “estimate”, “plan”, “may”, and “could”.

By their very nature, these statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the financial, economic and regulatory environments, such risks and uncertainties – many of which are beyond the Bank’s control and the effects of which can be difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause such differences include: credit, market (including equity, commodity, foreign exchange, and interest rate), liquidity, operational, reputational, insurance, strategic, regulatory, legal, environmental, and other risks, all of which are discussed in the Management’s Discussion and Analysis (“MD&A”) in the Bank’s 2010 Annual Report. Additional risk factors include the impact of recent U.S. legislative developments, as discussed under “Significant Events in 2010” in the “How We Performed” section of the 2010 MD&A; changes to and new interpretations of capital and liquidity guidelines and reporting instructions; increased funding costs for credit due to market illiquidity and competition for funding; and the failure of third parties to comply with their obligations to the Bank or its affiliates relating to the care and control of information. We caution that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank’s results. For more detailed information, please see the “Risk Factors and Management” section of the 2010 MD&A. All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements, when making decisions with respect to the Bank and we caution readers not to place undue reliance on the Bank’s forward-looking statements.

Material economic assumptions underlying the forward-looking statements contained in this presentation are set out in the Bank’s 2010 Annual Report under the headings “Economic Summary and Outlook”, as updated in the Third Quarter 2011 Report to Shareholders; for each business segment, “Business Outlook and Focus for 2011”, as updated in the Third Quarter 2011 Report to Shareholders under the headings “Business Outlook”; and for the Corporate segment in the report under the heading “Outlook”.

Any forward-looking statements contained in this presentation represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank’s investors and analysts in understanding the Bank’s financial position, objectives and priorities and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.
