

TD Greystone Private Balanced Plus Fund¹

as of March 31, 2021

¹Exclusive to Private Giving Foundation available through TD Wealth

Investment Objective

The TD Greystone Private Balanced Plus Fund (the "Fund") seeks long-term total returns—current income and capital appreciation—by investing in a balanced portfolio of equity, fixed income, and alternative asset classes. The Fund also seeks to be more income focused than typical balanced funds while providing lower volatility through diversification and lower correlation among asset classes.

Inception Date February 5, 2020

² The Fund's benchmark is an asset class index weighted composite updated monthly. The asset class weights are based on the long-term strategic asset mix of the Fund. The weighted composite benchmark will be a reflection of the investments achieved in the underlying funds and their respective underlying benchmarks.

³ 25.7% FTSE Canada Universe Bond Index; 18.7% S&P/TSX Composite Index; 12.1% MSCI World Index (Net); 12.1% S&P 500 Index (Net); 12.1% MSCI EAFE Index (Net); 4.8% MSCI/REALPAC Canada Annual Property Index – All Assets; 4.0% (60% FTSE Canada Short Term Bond Index + 40% FTSE Canada Mid Term Bond Index + 0.5% per annum); 3% FTSE Canada 91 Day T-Bill Index; 7.5% (8% USD return over a rolling four-year period plus currency effect)

Why Invest?

The Fund offers:

- A balanced solution that integrates private alternative investments such as real estate, infrastructure, and commercial mortgages along with traditional public investments in equity and fixed income
- Access to private alternative investments not typically available in the market, which are also less correlated with traditional market risks
- Combination of growth and low volatility equity strategies with income-oriented private alternatives and defensive fixed income can help enhance risk-adjusted returns and provide a more consistent investment experience

Investment Approach

The Fund invests in a combination of managed pool funds that may include: short-term, fixed income securities, bonds, debentures, real estate, infrastructure, commercial mortgages, and common/preferred shares of Canadian, U.S. and non-North American companies. The Fund utilizes TD Asset Management's (TDAM) strategic asset allocation model, in concert with investment strategies specific to each asset class. It is expected that permitted investments will evolve and tactical shifts will occur at the discretion of TDAM's asset allocation team.

Alternative Investments

The Fund utilizes private asset classes that are not typically available through public markets or to retail investors. These private asset classes may include real assets (such as real estate or infrastructure) and private fixed income such as commercial mortgages. These private asset classes tend to have low-to-limited correlation to traditional asset classes (such as stocks and bonds) and broad market indices. Private asset classes also tend to be less liquid and may take longer to invest or redeem but investors tend to be compensated for this through a private market premium⁶. As such, investment professionals will often include private asset classes in a portfolio to increase diversification, lower portfolio volatility, and to protect the portfolio from investment and market related risks.

Focus on Environmental, Social and Governance (ESG)

We are one of the first Canadian bank-owned asset managers to sign on to the United Nations Principles for Responsible Investing, committing to their Six Principles for Responsible Investments⁷.

⁶Private market premium is a compensation to investors for investing in securities that cannot be readily sold at its fair market value.
