

TD GoalAssist Commission Schedule and Statement of Disclosure of Rates and Fees

Effective October 1, 2020

Investing Fees

These are the fees and commissions you incur for each buy or sell trade in TD GoalAssist.

	TD Exchange Traded Funds (ETFs)	Canadian Stocks	U.S. Stocks
To buy	FREE	C\$9.99	US\$9.99 + currency conversion costs
To sell	FREE	C\$9.99	US\$9.99 + currency conversion costs

How we charge commissions:

- Trade orders entered will be charged the applicable commission rate per order.
- Multiple trade orders placed on the same day, for the same security, and on the same side of the market, will be subject to multiple commission charges.
- Partial fills executed on more than one day will be charged the applicable TD GoalAssist commissions for each day a partial fill order is executed.

Buying and Selling U.S. Stocks:

- When trading a stock or ETF denominated in U.S. dollars (USD), the price of the security will be displayed in USD and the commission will be charged in USD.
- The full cost of the transaction, including the applicable commission, will be converted to Canadian dollars based on our prevailing exchange rate and currency conversion costs.
- You may be charged a fee by the Securities and Exchange Commission (SEC) when trading U.S. listed equities. This fee is outside of the control of TD. For more information, please visit the U.S. Securities and Exchange Commission website.

Currency Conversion Costs:

- If you make a trade involving a security which is denominated in a currency other than Canadian dollars, or receive a payment to your account in a currency other than Canadian dollars, a conversion of currency may be required.
- In all such transactions and at any time a conversion of currency is made, we will act as principal with you in converting the currency at rates established or determined by us or parties related to us. We and the parties related to us may earn revenue, in addition to the commission applicable to such a trade, based on the difference between the applicable bid and ask rates for the currency and the rate at which the rate is offset either internally, with a related third party, or in the market. The charge to you and the revenue earned by us and parties related to us may be higher when a transaction requires more than one currency conversion or when the currency is not commonly traded.

- Conversion of currency, if required, will take place on the trade or deposit date, as applicable, unless we agree otherwise. When a security is held in an account denominated in a currency other than that specified for payment in a corporate action, we will convert that payment at our then-prevailing exchange rate and make payment to your account in the currency of that account.
