TD Mutual Funds Annual Management Report of Fund Performance

for the period ended December 31, 2024

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, at no cost, by calling 1-800-386-3757, by writing to us at TD Asset Management Inc., P.O. Box 100, 66 Wellington Street West, TD Bank Tower, Toronto-Dominion Centre, Toronto, Ontario, M5K 1G8, or by visiting our website at www.td.com/ca/en/asset-management or the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us or visit our website to get a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure at no cost.

TD Dividend Growth Fund

Management Discussion of Fund Performance

Investment Objectives and Strategies

The investment objective of TD Dividend Growth Fund (the "Fund") is to seek to provide a high level of after-tax income and steady growth by investing primarily in high-quality, high-yield equity securities and other income-producing instruments of Canadian issuers. In seeking to achieve this objective, the Fund invests predominantly in large-capitalization common equities that have either an above-average yield or the prospect of an attractive low risk total return. Equity investments will tend to be concentrated in the financial services, pipeline, and utility sectors of the market, but will also include large capitalization special situations. The Fund may also invest in real estate investment trusts, bonds, preferred shares and exchange-traded funds.

Risk

The risks of investing in the Fund remain as outlined in the simplified prospectus.

Results of Operations

The Investor Series units of the Fund returned 18.2% for the year ended December 31, 2024 (the "Reporting Period"), versus 20.8% for the Fund's product benchmark and 21.6% for the Fund's general market index. The Fund's product benchmark is comprised of 60% S&P/TSX Sector Indices (financials, real estate, utilities, communication services, industrials, consumer staples, consumer discretionary, and the oil and gas storage & transportation sub industry) and 40% S&P/TSX 60 Total Return Index. The Fund's general market index is the S&P/TSX Composite Total Return Index. Unlike the product benchmark and general market index, the Fund's return is quoted after the deduction of fees and expenses. Returns for other series of the Fund may vary, largely due to differences in fees and expenses. Refer to the Past Performance section for returns of various series of the Fund.

Market Update

Canada's economy came under pressure over the Reporting Period, largely as a result of tight financial conditions. Consumer spending, real estate activity and the labour market weakened. At the same time, inflationary pressures softened, moving closer to the Bank of Canada's ("BoC") 2% target. In response, the BoC began lowering interest rates in June 2024 and continued to lower rates over the remainder of the year. Overall, the BoC lowered its benchmark overnight interest rate by 1.75% to 3.25%. The BoC also suggested it would gradually lower interest rates further in 2025, hoping that looser financial conditions could ease the burden on Canadian households and help reignite consumer spending. There was also some expectation that rising demand could kickstart business activity, potentially resulting in improved job growth.

The Canadian equity market rose over the Reporting Period, with 10 of 11 sectors posting positive returns. The information technology, financials and materials sectors were the strongest performers, while communication services, real estate and health care were the weakest-performing sectors.

Lower interest rates, developments in artificial intelligence and positive investor sentiment helped push information technology stocks higher over the Reporting Period. Expectations that economic activity in Canada could pick up after multiple interest rate cuts from the BoC helped lift the financials sector higher. Additionally, the dividends of financials sector stocks became more attractive as interest rates declined. The materials sector benefited from higher gold prices amid economic uncertainty and ongoing geopolitical tensions. Supply concerns pushed up the prices of many commodities.

Key Contributors/Detractors Relative to the Product Benchmark
The Fund generated a positive return over the Reporting Period but
underperformed its product benchmark.

- The Fund's stock selection within the energy sector detracted from performance owing to its bias toward oil and gas producers relative to pipeline companies.
- The Fund's security selection within the industrials sector detracted from performance owing to an underweight position in a waste collection company that returned 25%, and its position in Canadian National Railway Co., which was down over 10%.
- The Fund's security selection within the materials sector detracted from performance owing to its lack of exposure to two large gold mining companies that returned over 50% and its position in a specialty chemicals company that was down nearly 20%.
- The Fund's underweight exposure to the industrials sector contributed to performance as the sector underperformed the product benchmark.
- The Fund's tilt toward the energy sector contributed to performance as this was one of the top-performing sectors during the Reporting Period.

Key Contributors/Detractors Relative to the General Market Index
The Fund underperformed its general market index over the Reporting
Period owing to its security selection in the industrials sector and its
underweight allocation to the information technology sector, which
was the top-performing sector during the Reporting Period.

Recent Developments

Although the Canadian economy slowed and the unemployment rate climbed throughout 2024, Canadian equities had a strong year. On balance, the Portfolio Adviser believes that in 2025 the Canadian equity market should be supported by strong earnings growth expectations and reasonable valuation levels, particularly when compared to the U.S. equity market. The Portfolio Adviser believes that the previous and expected BoC interest rate cuts are supporting consumers and businesses, which should allow economic growth to reaccelerate.

Given the prospect of more reductions in interest rates, the Portfolio Adviser still holds a favourable view of Canadian banks. Any additional interest rate cuts should support Canadian bank earnings as the Portfolio Adviser expects that provisions for credit losses should be at or near peak levels, and should decline as interest rate cuts start to take effect.

In the Portfolio Adviser's view, companies with strong cash flows and histories of growing dividends are attractive in this market environment, and may protect the real value of investors' savings. The Portfolio Adviser anticipates that investors should benefit not only from dividend income but also from a growing stream of income that is unlikely to be substituted by fixed income alone, as well as from long-term capital appreciation. The Portfolio Adviser continues to favour high-quality companies with sustainable competitive advantages, strong balance sheets and solid free cash flows.

Related Party Transactions

Affiliates of TD Asset Management Inc. ("TDAM") may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as in connection with banking (including deposit taking), custody, securityholder account maintenance and reporting, brokerage and derivatives transactions.

Manager, Trustee and Portfolio Adviser:

TDAM, a wholly-owned subsidiary of The Toronto-Dominion Bank ("TD"), is the manager, trustee and portfolio adviser of the Fund. The Fund pays TDAM an annual management fee, which may vary for each series of the Fund. The Fund also pays TDAM an annual administration fee of 0.08%, calculated and accrued as a percentage of the net asset value, with respect to the Investor Series, Premium Series, Advisor Series, H8 Series, T8 Series and D-Series units of the Fund.

Distributor:

TD Investment Services Inc. is the principal distributor of the Investor Series units of the Fund, for which it is paid a trailer commission by TDAM. Units of the Fund are also distributed through brokers and dealers including TD Waterhouse Canada Inc. ("TDWCI"), a whollyowned subsidiary of TD. TDWCI, like other dealers, is paid a trailer commission by TDAM for distributing certain series of units of the Fund. Trailer commissions are paid by TDAM out of the management fees it receives from the Fund and are based on the average value of assets held by each dealer.

Registrar and Transfer Agent:

TD is the registrar and transfer agent of the Fund, and as such maintains all unitholder records, processes purchase, switch, conversion and redemption orders, issues investor statements and prepares annual tax reporting information on behalf of the Fund.

TD earns a foreign exchange spread when unitholders switch between units of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with TD for which TD earns a fee.

Fund-Linked Deposit Notes:

From time to time, notes (the "Notes") may be issued by TD or others, the returns of which are linked, in whole or in part, to the performance of a notional investment portfolio which includes the Fund. TDAM and its affiliates may each receive fees and/or other benefits in connection with the Notes and in connection with the hedging of any obligation under the Notes.

Custodian:

TD is the sub-custodian of the Fund and may hold a portion of the assets (including cash and investments) of the Fund.

Buying and Selling Securities:

TDAM has established an independent review committee ("IRC") which acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting any conflict of interest matters referred to it by TDAM. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available on the TDAM website at www.td.com/ca/en/asset-management or at the securityholder's request at no cost by contacting TDAM (see front cover).

The Fund relied on standing instructions from the IRC in respect of one or more of the following transactions:

- (a) trades in securities of TD or any affiliate or associate thereof;
- (b) investments in the securities of an issuer where TD Securities Inc., TDWCI, or any other affiliate of TDAM (a "Related Dealer") acted as an underwriter during the distribution of such securities and the 60-day period following the completion of the distribution of the underwritten securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund or discretionary managed account managed by TDAM; and
- (d) purchases of securities from or sales of securities to a Related Dealer, where it acted as principal.

The relevant standing instructions require that securities transactions with related parties conducted by TDAM (i) are free from any influence by an entity related to TDAM and without taking into account any consideration relevant to an entity related to TDAM; (ii) represent the business judgment of TDAM uninfluenced by considerations other than the best interests of the Fund; (iii) comply with the applicable policies and procedures of TDAM; and (iv) achieve a fair and reasonable result for the Fund.

Brokerage Arrangements (000s):

From time to time, the Fund may enter into portfolio securities transactions with Related Dealers who may earn commissions or spreads provided that such trades are made on terms and conditions that are comparable to non-affiliated brokerages. During the Reporting Period, the Fund paid commissions to related parties amounting to \$17 or 5.2% of total commissions paid by the Fund for portfolio transactions in total.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five fiscal years, as applicable. For series that commenced operations during any of the periods presented, the data reported for that period represents results from the commencement of operations (as disclosed in the Past Performance section) to the end of that reporting period.

¹ This information is derived from the Fund's audited annual financial statements prepared in accordance with International Financial Reporting Standards. The Fund measures fair value of its investments based on close market prices, where the close market price falls within the bid-ask spread or based on quotations from recognized dealers.

As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are substantively consistent with those used in measuring the net asset value ("NAV") for transactions with unitholders.

2 Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial periods. These tables are not intended to be a reconciliation of the net assets per unit.

³ Distributions were paid in cash or reinvested in additional units of the Fund, or both.

- 1 This information is provided as at December 31 of the past five fiscal years, as applicable.
- ² Management Expense Ratio ("MER") is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) net of any waivers or absorptions for the stated period, including the Fund's proportionate share of the MER, if any, of the underlying fund(s) in which the Fund has invested in, and is expressed as an annualized percentage of daily average NAV during the period. Management Expense Ratio Before Waivers or Absorptions is based on total expenses and excludes the management fees on the portion of the NAV the Fund invests in the underlying funds that are managed by TDAM or its affiliates. Any waivers or absorptions may be discontinued at any time by TDAM at its discretion without notice.
- ³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the stated period. Where a Fund invests in units of any underlying fund, the TER presented for the Fund includes the portion of TERs, if available, of the underlying fund(s) attributable to this investment.
- ⁴ The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio adviser manages its investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the stated period. The higher a fund's PTR, the greater the trading costs payable, directly or indirectly, by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the fiscal year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
- ⁵ The Fund does not pay any management fees or operating expenses with respect to the O-Series units of the Fund, but may have a MER as a result of its holdings in underlying fund(s), representing the weighted average MER of those underlying fund(s) for the reporting period.

Management Fees

As manager and trustee of the Fund, TDAM is responsible for the overall business and affairs of the Fund, including activities related to making units of the Fund available to investors, and providing, or arranging for the provision of, investment advisory services and marketing services to the Fund. In consideration for the provision of such services, each series of the Fund, other than O-Series units, pays TDAM a management fee.

Management fees are calculated and accrued on a daily basis for each applicable series based on the net asset value of that series and paid monthly to TDAM.

The simplified prospectus discloses a specified annual management fee rate that TDAM can charge for each series of the Fund. Where TDAM chooses to charge a management fee rate below the specified annual management fee rate, the difference represents a waiver of management fees. TDAM may waive all or a portion of the management fees being charged to the Fund, which may be discontinued at any time by TDAM at its discretion without notice to unitholders.

The annual management fees and a breakdown of the major services rendered for each series, as a percentage of the management fees paid, are as follows:

(expressed as a %)	Annual Mgmt. Fees*	Dealer Compensation	Waived Operating Expenses	Other
Investor Series	1.75	56.65	0.00	43.35
Institutional Series	0.50	0.00	0.00	100.00
Premium Series	1.70	58.68	0.00	41.32
Advisor Series	1.75	53.45	0.00	46.55

There are no management fees paid by the Fund in respect of O-Series units of the Fund. Unitholders in the O-Series pay a negotiated fee directly to TDAM.

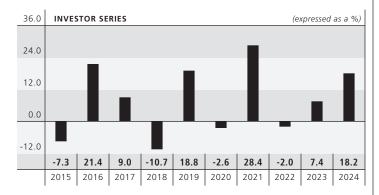

- Includes management fees paid by the Fund and the proportionate management fees, if any,
 of the underlying fund(s) managed by TDAM held by the Fund. However, no management
 fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by
 the underlying fund(s) for the same services.
- [†] The management fee rate disclosed represents the maximum annual rate per the simplified prospectus dated July 28, 2016. The series is no longer being offered under the most recent simplified prospectus.
- ‡ Investment advisory, trustee, marketing services and other.

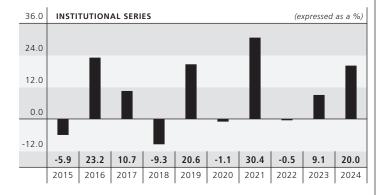

Past Performance

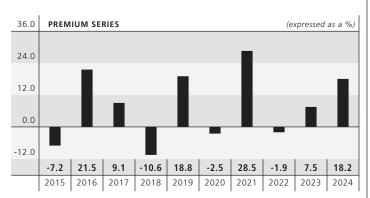

The following charts show how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions. They do not include deduction of sales, switch, redemption, or other optional charges (which dealers may charge) or income taxes payable, and these returns would be lower if they did. The Fund's past performance does not necessarily indicate how it will perform in the future.

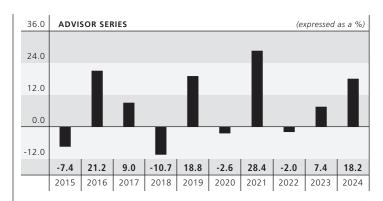

Year-by-year returns

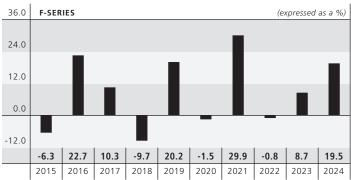

The bar charts show how the Fund's performance has varied from year to year for each of the years shown. They show in percentage terms how an investment made on January 1 would have increased or decreased by December 31.

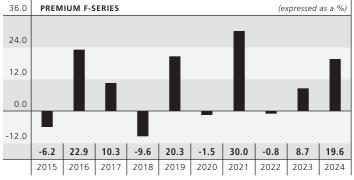

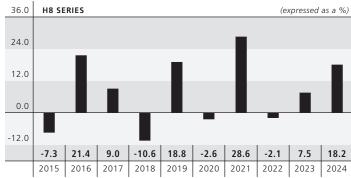

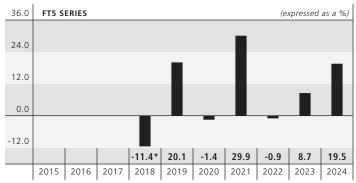

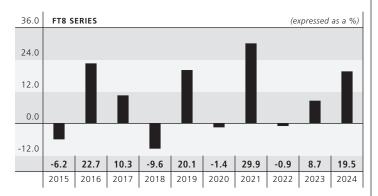

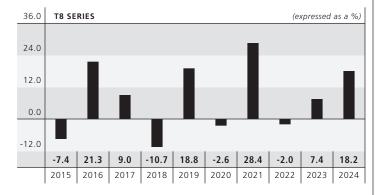

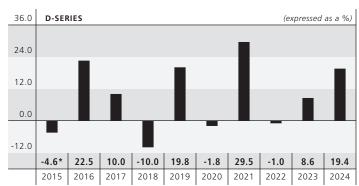

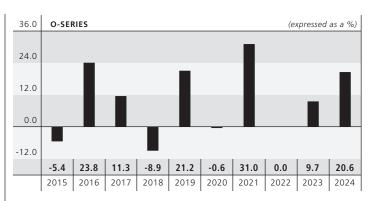

* From August 16, 2018 (commencement of operations) to December 31, 2018

* From October 20, 2015 (commencement of operations) to December 31, 2015

Annual Compound Returns

The following table shows the annual compound total returns for each series of units of the Fund for each of the periods indicated ended on December 31, 2024, compared with the following benchmarks:

- The Product Benchmark is comprised of:
 - 60% S&P/TSX Sector Indices This is comprised of financials, real estate, utilities, communication services, industrials, consumer staples, consumer discretionary, and the oil and gas storage & transportation sub-industry within the S&P/TSX Composite Index; and
 - 40% S&P/TSX 60 Total Return Index This index is comprised of the largest 60 companies on the S&P/TSX Composite Index, by market capitalization.
- General Market Index:
 - S&P/TSX Composite Total Return Index This index is comprised of Canadian issuers traded on the Toronto Stock Exchange.

(expressed as a %)	Past year	Past 3 years	Past 5 years	Past 10 years	Since inception

Caution regarding forward-looking statements

Certain portions of this report, including, but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events.

The above mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing any undue reliance on forward-looking statements. Further, there is no specific intention of updating any forward-looking statements contained herein whether as a result of new information, future events or otherwise.
