TD U.S. Large-Cap Value Fund

Management Discussion of Fund Performance

Results of Operations

The Investor Series units of TD U.S. Large-Cap Value Fund (the "Fund") returned 10.4% for the six-month period ended June 30, 2024 (the "Reporting Period"), versus 10.6% for the Fund's product benchmark, the Russell 1000 Value Total Return Index (C\$). Unlike the product benchmark, the Fund's return is quoted after the deduction of fees and expenses. Returns for other series of the Fund may vary, largely due to differences in fees and expenses. Refer to the Past Performance section for returns of various series of the Fund.

Market Update

Within the product benchmark, all sectors rose, with the strongest gains generated by the financials, energy, utilities and industrials sectors. The weakest-performing sectors were real estate, consumer discretionary and health care during the Reporting Period.

Quality growth stocks outperformed value stocks. Large-capitalization stocks outperformed small-capitalization stocks. Concerns remained about the lack of market breadth, given the contribution to market gains made by the "magnificent seven" (a group of mega-capitalization technology stocks with exposure to the artificial intelligence theme) and the difference between the market-cap-weighted and equal-weighted benchmark.

Market sentiment was negatively affected by reduced expectations for interest rate cuts by the U.S. Federal Reserve Board ("Fed") in response to stubborn inflation. The Fed's confidence grew that inflation was moving sustainably towards its 2% target. In the Portfolio Adviser's view, a "soft landing" (whereby inflation is managed without triggering a recession) became more likely at the end of the Reporting Period as disinflation accompanied a gradual economic slowdown. Corporate updates discussed cautious spending behaviour and value-conscious consumers downgrading or postponing bigticket purchases.

Governments were under pressure to rein in spending while absorbing the impact of higher interest rates and keeping new spending commitments in areas such as the green energy transition, reshoring and defence.

Key Contributors/Detractors

Over the Reporting Period, the Fund outperformed its product benchmark before the deduction of fees and expenses.

- The top five individual contributors to performance were Meta Platforms Inc., Alphabet Inc., Broadcom Inc., JPMorgan Chase & Co. and American Express Co.
- Stock selection within the communication services sector contributed to performance.
- Stock selection within information technology contributed to performance. The largest individual contributors included Applied Materials Inc., GoDaddy Inc. and Microsoft Corp.

- Stock selection within the consumer staples sector contributed to performance. The top individual contributors were BJ's Wholesale Club Holdings Inc., Casey's General Stores Inc. and Walmart Inc.
- Stock selection within the industrials sector detracted from performance. The top individual detractors were The Boeing Co., The Middleby Corp., Union Pacific Corp. and Huntington Ingalls Industries Inc.
- Stock selection within the materials sector detracted from performance, led by holdings in Celanese Corp., Berry Global Group Inc. and Eagle Materials Inc.

Recent Developments

The Portfolio Adviser continues to focus on constructing a well-diversified growth portfolio and owning companies across the spectrum of sensitivity to the macroeconomic environment. Current macroeconomic risks include higher inflation, slowing economic growth turning into a potential recession, high interest rates, geopolitical tensions and upcoming elections in 2024.

In the Portfolio Adviser's view, opportunities are expected to include a possible soft economic landing, inflation continuing to moderate, interest rate cuts from the Fed, and pent-up demand for equities with approximately US\$6 trillion of assets in money market funds in the U.S.

Rather than positioning the Fund for any one outcome, the Portfolio Adviser prefers a balanced approach, focusing on owning a diversified portfolio of quality companies that consistently earn returns "and that can generate, sustain and grow free cash flow. Quality and value remain key considerations. In the Portfolio Adviser's view, this investment approach should support performance through various market cycles.

As of June 30, 2024, the Fund's largest sector overweight allocations relative to its product benchmark, were in communication services (3.6%), information technology (3.0%) and consumer discretionary (1.3%). The largest underweight allocations were in utilities (-2.4%), health care (-1.8%), real estate (-1.6%) and consumer staples (-1.5%).

Administration and Securityholder Services:

TDWCI, in addition to acting as a dealer, also provides administration and securityholder services to the Private Series units of the Fund for which such costs are reflected in the operating expenses for the Private Series units of the Fund. These services include securityholder account maintenance and reporting.

Custodian:

TD is the sub-custodian of the Fund and may hold a portion of the assets (including cash and investments) of the Fund.

Buying and Selling Securities:

TDAM has established an independent review committee ("IRC") which acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting any conflict of interest matters referred to it by TDAM. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available on the TDAM website at www.td.com/ca/en/asset-management or at the securityholder's request at no cost by contacting TDAM (see front cover).

The Fund did not engage in any portfolio transactions requiring IRC approval during the Reporting Period.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial periods. These tables are not intended to be a reconciliation of the net assets per unit.

3 Distributions were paid in cash or reinvested in additional units of the Fund, or both.

- This information is provided as at June 30, 2024 and December 31 of the past five fiscal years, as applicable.
- ² Management Expense Ratio ("MER") is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) net of any waivers or absorptions for the stated period, including the Fund's proportionate share of the MER, if any, of the underlying fund(s) in which the Fund has invested in, and is expressed as an annualized percentage of daily average NAV during the period. Management Expense Ratio Before Waivers or Absorptions is based on total expenses and excludes the management fees on the portion of the NAV the Fund invests in the underlying funds that are managed by TDAM or its affiliates. Any waivers or absorptions may be discontinued at any time by TDAM at its discretion without notice.
- ³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the stated period. Where a Fund invests in units of any underlying fund, the TER presented for the Fund includes the portion of TERs, if available, of the underlying fund(s) attributable to this investment.
- ⁴ The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio adviser manages its investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the stated period. The higher a fund's PTR, the greater the trading costs payable, directly or indirectly, by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the fiscal year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
- ⁵ The Fund does not pay any management fees or operating expenses with respect to the O-Series units of the Fund, but may have a MER as a result of its holdings in underlying fund(s), representing the weighted average MER of those underlying fund(s) for the reporting period.

Management Fees

As manager and trustee of the Fund, TDAM is responsible for the overall business and affairs of the Fund, including activities related to making units of the Fund available to investors, and providing, or arranging for the provision of, investment advisory services and marketing services to the Fund. In consideration for the provision of such services, each series of the Fund, other than Private Series units and O-Series units, pays TDAM a management fee.

Management fees are calculated and accrued on a daily basis for each applicable series based on the net asset value of that series and paid monthly to TDAM.

The simplified prospectus discloses a specified annual management fee rate that TDAM can charge for each series of the Fund. Where TDAM chooses to charge a management fee rate below the specified annual management fee rate, the difference represents a waiver of management fees. TDAM may waive all or a portion of the management fees being charged to the Fund, which may be discontinued at any time by TDAM at its discretion without notice to unitholders.

The annual management fees and a breakdown of the major services rendered for each series, as a percentage of the management fees paid, are as follows:

(expressed as a %)	Annual Mgmt. Fees*	Dealer Compensation	Waived Operating Expenses	Other [‡]
Investor Series	1.80	55.31	0.00	44.69
Institutional Series	0.80	0.00	0.00	100.00
Advisor Series	1.80	53.33	0.00	46.67
F-Series	0.80	0.00	0.00	100.00

Private Series	0.00	N/A	N/A	N/A
O-Series	0.00	N/A	N/A	N/A

There are no management fees paid by the Fund in respect of Private Series and O-Series units of the Fund. Unitholders in the Private Series pay a negotiated fee directly to TDAM, their dealer or TD Waterhouse Private Investment Counsel Inc. Unitholders in the O-Series pay a negotiated fee directly to TDAM.

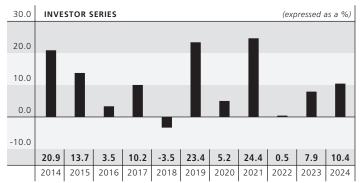

- Includes management fees paid by the Fund and the proportionate management fees, if any,
 of the underlying fund(s) managed by TDAM held by the Fund. However, no management
 fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by
 the underlying fund(s) for the same services.
- [‡] Investment advisory, trustee, marketing services and other.
