TD Exchange-Traded Funds Annual Management Report of Fund Performance

for the period ended December 31, 2024

This Annual Management Report of Fund Performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, at no cost, by writing to us at TD Asset Management Inc., P.O. Box 100, 66 Wellington Street West, TD Bank Tower, Toronto-Dominion Centre, Toronto, Ontario, M5K 1G8, or by visiting our website at www.td.com/ca/en/asset-management or the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us or visit our website to get a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure at no cost.

Management Discussion of Fund Performance

Investment Objectives & Strategies

The investment objective of TD Global Technology Leaders Index ETF (the "Fund") is to seek to track, to the extent reasonably possible and before the deduction of fees and expenses, the performance of a global equity index which measures the investment return of global issuers related to technology. In seeking to achieve this objective, the Fund currently invests in and holds a proportionate share of securities included in the Solactive Global Technology Leaders Index (CA NTR). The Fund may also invest in other securities including exchange-traded funds, mutual funds or other public investment funds, American Depositary Receipts or derivative instruments, to obtain exposure to such securities in a manner that is consistent with the investment objective of the Fund.

Risk

The risks of investing in the Fund remain as outlined in the prospectus.

Results of Operations

The Fund is an exchange-traded fund listed on the Toronto Stock Exchange ("TSX"). Units of the Fund are traded under TSX ticker symbol "TEC" for Canadian dollar denominated units and "TEC.U" for U.S. dollar denominated units. Units of TEC returned 46.5% for the year ended December 31, 2024 (the "Reporting Period"), versus 47.1% for the Fund's product benchmark and general market index, the Solactive Global Technology Leaders Index (CA NTR). Unlike the product benchmark and general market index, the Fund's return is quoted after the deduction of fees and expenses. Returns for other units of the Fund may vary, largely due to differences in currencies. Refer to the Past Performance section for returns of various units of the Fund.

Market Update

The global economy expanded over the Reporting Period, albeit at a relatively muted pace. Tight financial conditions weighed on consumer demand, hindering trade and business activity. Several major central banks began lowering interest rates in response to softer inflationary pressures and moderating economic conditions. The U.S. economy showed its relative strength, lifted by a resilient U.S. consumer. The U.S. labour market lost some momentum, with the unemployment rate moving higher. With a slower labour market and falling inflation rate, the U.S. Federal Reserve Board lowered its benchmark interest rate by 1.00% to a target range of 4.25%-4.50%. Economic activity in China was relatively stable yet underwhelming, continuing to be negatively impacted by soft domestic demand and a weak property market. China's government provided some fiscal stimulus measures and pledged to provide more in 2025, while the People's Bank of China lowered several interest rates to help support China's economy.

Europe's economy expanded at a relatively modest pace over the Reporting Period. Consumer and business activity continued to be weighed down by tight financial conditions. The European Central Bank lowered interest rates four times, taking its benchmark interest rate to 3.15%. Economic activity in Germany, Europe's largest economy, was weak. Struggles in Germany's key manufacturing sector persisted, which weighed on trade activity and overall economic conditions. In the U.K., the Bank of England lowered its benchmark interest rate from 5.25% to 4.75% in response to falling inflation and relatively weak economic growth. After contracting in the first quarter of 2024, Japan's economy expanded over the second and third quarters, benefiting from higher trade activity. Unlike many other economies, Japan's inflation rate remained elevated, showing little signs of coming down. In response, the Bank of Japan ("BoJ") raised interest rates twice, taking its benchmark interest rate to 0.25%. This was the BoJ's first interest rate increase in 17 years.

Global equity markets posted a strong gain over the Reporting Period. Technology stocks, particularly technology heavyweights in the U.S., drove market performance on strong progress from the development of artificial intelligence capabilities. U.S. equity markets advanced, with 10 of 11 sectors delivering a positive return. Communication services, information technology and consumer discretionary were the strongest-performing sectors, while materials, health care and real estate were the weakest performers.

Chinese equities increased over the Reporting Period, getting a boost from the government's announcement to help support China's economic activity. The financials and information technology sectors drove gains for China's equity markets. European equities posted a relatively solid gain. Financials and industrials were among the top-performing sectors in European equity markets. Among European countries, Italy, Germany and Spain were the top performers. U.K. equities advanced, lifted by gains in the financials and industrials sectors. Japanese equities also gained, benefiting from the strong performance of the financials and energy sectors.

Global technology stocks advanced over the Reporting Period and outperformed the broader global equity market. The largest technology companies, particularly those in the U.S., drove gains on optimism of strong future growth and the development of artificial intelligence. Lower interest rates also lifted investors' valuations for technology stocks.

Key Contributors/Detractors

The Fund continues to be managed with the objective of seeking to track the performance of its product benchmark. The Fund's returns are influenced by the same factors that affect the global information technology market.

Recent Developments

The Portfolio Adviser expects consumer and business activity to pick up after several central banks began to ease monetary policy and loosen financial conditions. Still, several risks to the outlook persist, such as geopolitical tensions, the potential for inflationary pressures to reemerge and the impact of potential tariffs on global trade activity. Many central banks are expected to keep lowering interest rates, which could further boost global economic activity in 2025 and help the global economy avoid a recession. The Portfolio Adviser continues to monitor all the factors that could influence the Fund's investment portfolio.

Related Party Transactions

Affiliates of TD Asset Management Inc. ("TDAM") may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as in connection with banking, deposit-taking, custody, brokerage and derivatives transactions, subject to approval or review by the Fund's independent review committee ("IRC") and/or compliance with applicable internal policies and procedures.

Manager, Trustee and Portfolio Adviser:

TDAM, a wholly-owned subsidiary of The Toronto-Dominion Bank ("TD"), is the manager, trustee, portfolio adviser and promoter of the Fund. Each class of the Fund pays TDAM an annual management fee.

Designated Broker and Dealer:

TDAM has entered into an agreement with TD Securities Inc. ("TDS"), an affiliate of TDAM, to act as designated broker and dealer to perform certain duties for the Fund. The designated broker arrangements entered into with TDS are consistent with market terms and conditions.

Custodian:

TD is the sub-custodian of the Fund and may hold a portion of cash of the Fund.

Buying and Selling Securities:

TDAM has established the IRC to act as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting any conflict of interest matters referred to it by TDAM. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available on the TDAM website at www.td.com/ca/en/asset-management or at the securityholder's request at no cost by contacting TDAM (see front cover).

The Fund relied on standing instructions from the IRC in respect of one or more of the following transactions:

- (a) trades in securities of TD or any affiliate or associate thereof;
- (b) investments in the securities of an issuer where TDS, TD Waterhouse Canada Inc., or any other affiliate of TDAM (a "Related Dealer") acted as an underwriter during the distribution of such securities and the 60-day period following the completion of the distribution of the underwritten securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund or discretionary managed account managed by TDAM; and
- (d) purchases of securities from or sales of securities to a Related Dealer, where it acted as principal.

The relevant standing instructions require that securities transactions with related parties conducted by TDAM (i) are free from any influence by an entity related to TDAM and without taking into account any consideration relevant to an entity related to TDAM; (ii) represent the business judgment of TDAM uninfluenced by considerations other than the best interests of the Fund; (iii) comply with the applicable policies and procedures of TDAM; and (iv) achieve a fair and reasonable result for the Fund.

Brokerage Arrangements (000s):

From time to time, the Fund may enter into portfolio securities transactions with Related Dealers who may earn commissions or spreads provided that such trades are made on terms and conditions that are comparable to non-affiliated brokerages. During the Reporting Period, the Fund paid commissions to related parties amounting to \$1 or 1.0% of total commissions paid by the Fund for portfolio transactions in total.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five fiscal years, as applicable. For units of the Fund that commenced operations during any of the periods presented, the data reported for that period represents results from the commencement of operations (as disclosed in the Past Performance section) to the end of that reporting period.

Net Assets per Unit (\$)¹

Net Assets at December 31	45.95	31.41	20.67	30.52	24.44	31.95	23.82	15.25	N/A	N/A

¹ This information is derived from the Fund's audited annual financial statements prepared in accordance with International Financial Reporting Standards. The Fund measures fair values of its investments based on close market prices, where the close market price falls within the bid-ask spread or based on quotations from recognized dealers. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are substantively consistent with those used in measuring the net asset value ("NAV") for transactions with unitholders.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of the net assets per unit.

³ Distributions were paid in cash or reinvested in additional units of the Fund, or both. The Fund may make notional distributions from time to time and the units issued on reinvestments are immediately consolidated with the units held prior to the notional distribution. As a result, the total number of units held after the notional distribution is identical to the number of units held before the notional distribution. The following table shows the notional distributions for the periods presented, as applicable.

	TEC (C\$)					TEC.U (US\$)

Portfolio Turnover Rate (%)⁴	10.57	21.41	24.45	27.06	188.80	10.57	21.41	24.45	N/A	N/A
Net Asset Value per Unit (\$)	45.95	31.41	20.67	30.52	24.44	31.95	23.82	15.25	N/A	N/A
Closing Market Price (\$)⁵	45.98	31.54	20.68	30.59	24.45	32.16	24.01	15.33	N/A	N/A

¹ This information is provided as at December 31 of the past five fiscal years, as applicable.

² Management Expense Ratio ("MER") is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) net of any waivers or absorptions for the stated period and is expressed as an annualized percentage of daily average NAV during the period. Any waivers or absorptions may be discontinued at any time by TDAM at its discretion without notice.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the stated period.

⁴ The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio adviser manages its investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the stated period. The higher a fund's PTR, the greater the trading costs payable by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the fiscal year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

⁵ Mid price would be used if no transaction took place on the last business day of the financial period.

Management Fees

As manager of the Fund, TDAM is responsible for the overall business and affairs of the Fund, including activities related to providing, or arranging for the provision of, certain administrative services and marketing services to the Fund. In consideration for the provision of such services, the Fund pays TDAM a management fee.

Management fees, plus applicable taxes, are calculated and accrued on a daily basis based on the net asset value of the Fund and are paid monthly to TDAM.

The prospectus discloses a specified annual management fee rate that TDAM can charge to the Fund. TDAM may waive all or a portion of the management fees being charged to the Fund, which may be discontinued at any time by TDAM at its discretion without notice to unitholders.

The annual management fees and a breakdown of the major services rendered, as a percentage of the management fees paid, are as follows:

(expressed as a %)	Annual Mgmt. Fees*	Dealer Compensation	Waived Operating Expenses	Other†
TEC	0.35	N/A	0.01	99.99
TEC.U	0.35	N/A	0.01	99.99

* Includes management fees paid by the Fund and the proportionate management fees, if any, of the underlying fund(s) managed by TDAM held by the Fund. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.

† Trustee, marketing services and other.

Past Performance

The following charts show how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions during the period in additional units at the net asset value per unit of the Fund at the time of distribution. They do not take into account sales, redemption, distribution or other optional charges or income taxes payable by any unitholder, and these returns would be lower if they did. The Fund's past performance does not necessarily indicate how it will perform in the future.

Year-by-year returns

The bar charts show how the Fund's performance has varied from year to year for each of the years shown. It shows in percentage terms how an investment made on January 1 would have increased or decreased by December 31.

* From May 7, 2019 (commencement of operations) to December 31, 2019

* From March 29, 2022 (commencement of operations) to December 31, 2022

Annual Compound Returns

The following table shows the annual compound total returns of the Fund for each of the periods indicated ended on December 31, 2024, compared with the following benchmarks:

- Product Benchmark:
 - Solactive Global Technology Leaders Index (CA NTR) – This index intends to track the performance of a portfolio of global mid- and large-capitalization issuers that include traditional technology companies as well as companies that relate to disruptive technologies, net of withholding taxes.
- General Market Index:
 - Solactive Global Technology Leaders Index (CA NTR).

(expressed as a %)	Past year	Past 3 years	Past 5 years	Past 10 years	Since inception
TEC (C\$) (May 7, 2019)	46.5	14.9	22.9	N/A	22.2
Product Benchmark (C\$)	47.1	15.3	23.3	N/A	22.7
General Market Index (C\$)	47.1	15.3	23.3	N/A	22.7
TEC.U (US\$) (Mar. 29, 2022)	34.3	N/A	N/A	N/A	14.4
Product Benchmark (US\$)	34.9	N/A	N/A	N/A	14.8
General Market Index (US\$)	34.9	N/A	N/A	N/A	14.8

A discussion of the Fund's performance compared to the product benchmark and general market index can be found in the Results of Operations section.

Caution regarding forward-looking statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events.

The above mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing any undue reliance on forward-looking statements. Further, there is no specific intention of updating any forward-looking statements contained herein whether as a result of new information, future events or otherwise.
