TD International Index Currency Neutral Fund

Management Discussion of Fund Performance

Results of Operations

The Investor Series units of TD International Index Currency Neutral Fund (the "Fund") returned 7.4% for the six-month period ended June 30, 2025 (the "Reporting Period"), versus 8.2% for the Fund's product benchmark, the Solactive GBS Developed Markets ex North America Large & Mid Cap Hedged to CAD Index (CA NTR). Unlike the product benchmark, the Fund's return is quoted after the deduction of fees and expenses. Returns for other series of the Fund may vary, largely due to differences in fees and expenses. Refer to the Past Performance section for returns of various series of the Fund. During the Reporting Period, the Fund invested its assets primarily in the O-Series units of TD International Index Fund (the underlying fund or "UF"). The performance of the UF is similar to that of the Fund except for differences arising from currency hedging activities, fees and expenses, and purchase and/or redemption activities. These Results of Operations and Recent Developments commentaries reflect the views of the UF's Portfolio Adviser for the same period as they directly impact the Fund.

Market Update

The international economy expanded modestly over the Reporting Period, with trade and geopolitical tensions weighing on business activity and consumer demand. In China, economic activity was subdued amid weak domestic demand, trade tensions and a troubled property market. The People's Bank of China cut interest rates and lowered deposit-rate ceilings. Europe's economy expanded and the European Central Bank lowered its benchmark interest rate four times and emphasized cautious, data-dependent policy. Germany's manufacturing sector remained weak, dampening regional growth. In the U.K., the Bank of England lowered its benchmark interest rate to 4.25%, citing tariff-related risks and slowing economic activity. Japan diverged from the easing trend as inflation stayed elevated. The Bank of Japan raised its benchmark interest rate by 0.25% to 0.50%. Japan's economy faced pressure amid global trade tensions.

International equity markets gained over the Reporting Period in response to a U.S.-China trade deal and the pause on higher reciprocal tariffs, which raised hopes the global economy may avoid a recession. Chinese equities posted a small gain, getting a slight boost from government and central bank stimulus measures. The health care and information technology sectors delivered strong gains for China's equity markets. European equities advanced, led by the financials and utilities sectors. Among European countries, Spain, Germany and Italy delivered relatively strong returns. U.K. equities advanced, benefiting from gains in the industrials and financials sectors. Japanese equities also gained, benefiting from the strong performance of the communication services and real estate sectors.

Key Contributors/Detractors

The UF continues to be managed with the objective of seeking to track the performance of its product benchmark. The UF's returns are influenced by the same factors that affect the international equity market.

Recent Developments

The UF's Portfolio Adviser believes global trade tensions could weigh on consumer and business confidence, which could hinder global economic growth. However, this may be offset by easing of financial conditions as the UF's Portfolio Adviser believes central banks may continue to lower interest rates to help support their respective economies through this challenging environment. The UF's Portfolio Adviser continues to monitor all the factors that could influence the UF's investment portfolio.

Effective June 30, 2025, the independent review committee for the Fund appointed Hari Panday as a member and Paul Moore ceased to be chair and a member of the committee. Effective July 1, 2025, the independent review committee appointed Frances Kordyback as chair of the committee.

Related Party Transactions

Affiliates of TD Asset Management Inc. ("TDAM") may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as in connection with banking (including deposit taking), custody, securityholder account maintenance and reporting, brokerage and derivatives transactions.

Manager, Trustee and Portfolio Adviser:

TDAM, a wholly-owned subsidiary of The Toronto-Dominion Bank ("TD"), is the manager, trustee and portfolio adviser of the Fund. The Fund pays TDAM an annual management fee, which may vary for each series of the Fund. The Fund also pays TDAM an annual administration fee of 0.03%, calculated and accrued as a percentage of the net asset value, with respect to the Private Series units of the Fund. The Fund may hold underlying fund(s) managed by TDAM for which TDAM may be paid a fee. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.

Distributor:

Certain series of units of the Fund are distributed through brokers and dealers including TD Waterhouse Canada Inc. ("TDWCI"), a wholly-owned subsidiary of TD. TDWCI, like other dealers, is paid a trailer commission by TDAM for distributing certain series of units of the Fund. Trailer commissions are paid by TDAM out of the management fees it receives from the Fund and are based on the average value of assets held by each dealer.

Registrar and Transfer Agent:

TD is the registrar and transfer agent of the Fund, and as such maintains all unitholder records, processes purchase, switch, conversion and redemption orders, issues investor statements and prepares annual tax reporting information on behalf of the Fund.

TD earns a foreign exchange spread when unitholders switch between units of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with TD for which TD earns a fee.

Custodian:

TD is the sub-custodian of the Fund and may hold a portion of the assets (including cash and investments) of the Fund.

Buying and Selling Securities:

TDAM has established an independent review committee ("IRC") which acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting any conflict of interest matters referred to it by TDAM. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available on the TDAM website at www.td.com/ca/en/asset-management or at the securityholder's request at no cost by contacting TDAM (see front cover).

The Fund and/or underlying fund(s) in which the Fund invests relied on standing instructions from the IRC in respect of one or more of the following transactions:

- (a) trades in securities of TD or any affiliate or associate thereof;
- (b) investments in the securities of an issuer where TD Securities Inc., TDWCI, or any other affiliate of TDAM (a "Related Dealer") acted as an underwriter during the distribution of such securities and the 60-day period following the completion of the distribution of the underwritten securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund or discretionary managed account managed by TDAM; and
- (d) purchases of securities from or sales of securities to a Related Dealer, where it acted as principal.

The relevant standing instructions require that securities transactions with related parties conducted by TDAM (i) are free from any influence by an entity related to TDAM and without taking into account any consideration relevant to an entity related to TDAM; (ii) represent the business judgment of TDAM uninfluenced by considerations other than the best interests of the Fund and/or underlying fund(s); (iii) comply with the applicable policies and procedures of TDAM; and (iv) achieve a fair and reasonable result for the Fund and/or underlying fund(s).

¹ This information is derived from the Fund's interim and audited annual financial statements prepared in accordance with International Financial Reporting Standards. The Fund measures fair value of its investments based on close market prices, where the close market price falls within the bid-ask spread or based on quotations from recognized dealers. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are substantively consistent with those used in measuring the net asset value ("NAV") for transactions with unitholders.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial periods. These tables are not intended to be a reconciliation of the net assets per unit.

³ Distributions were paid in cash or reinvested in additional units of the Fund, or both.

¹ This information is provided as at June 30, 2025 and December 31 of the past five fiscal years, as applicable.
² Management Expense Ratio ("MER") is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) net of any waivers or absorptions for the stated period, including the Fund's proportionate share of the MER, if any, of the underlying fund(s) in which the Fund has invested in, and is expressed as an annualized percentage of daily average NAV during the period. Management Expense Ratio Before Waivers or Absorptions is based on total expenses and excludes the management fees on the portion of the NAV the Fund invests in the underlying funds that are managed by TDAM or its affiliates. There will be no duplication of management fees paid to TDAM or its affiliates. Any waivers or absorptions may be discontinued at any time by TDAM at its discretion without notice.
³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the stated period. Where a Fund invests in units of any underlying fund, the TER presented for the Fund includes the portion of TERs, if available, of the underlying fund(s) attributable to this investment.
⁴ The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio adviser manages its investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the stated period. The higher a fund's PTR, the greater the trading costs payable, directly or indirectly, by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the fiscal year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

As manager and trustee of the Fund, TDAM is responsible for the overall business and affairs of the Fund, including activities related to making units of the Fund available to investors, and providing, or arranging for the provision of, investment advisory services and marketing services to the Fund. In consideration for the provision of such services, each series of the Fund, other than Private Series units, pays TDAM a management fee.

Management fees are calculated and accrued on a daily basis for each applicable series based on the net asset value of that series and paid monthly to TDAM.

The simplified prospectus discloses a specified annual management fee rate that TDAM can charge for each series of the Fund. Where TDAM chooses to charge a management fee rate below the specified annual management fee rate, the difference represents a waiver of management fees. TDAM may waive all or a portion of the management fees being charged to the Fund, which may be discontinued at any time by TDAM at its discretion without notice to unitholders.

The annual management fees and a breakdown of the major services rendered for each series, as a percentage of the management fees paid, are as follows:

(expressed as a %)	Annual Mgmt. Fees*	Dealer Compensation	Waived Operating Expenses	Other†
Investor Series	0.55	17.49	0.14	82.37
e-Series	0.40	0.00	0.23	99.77
F-Series	0.25	0.00	0.31	99.69
Private Series	0.00	N/A	N/A	N/A

There are no management fees paid by the Fund in respect of Private Series units of the Fund. Unitholders in the Private Series pay a negotiated fee directly to TDAM, their dealer or TD Waterhouse Private Investment Counsel Inc.

* Includes management fees paid by the Fund and the proportionate management fees, if any, of the underlying fund(s) managed by TDAM held by the Fund. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.

The following charts show how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions. They do not include deduction of sales, switch, redemption, or other optional charges (which dealers may charge) or income taxes payable, and these returns would be lower if they did. The Fund's past performance does not necessarily indicate how it will perform in the future.

Year-by-year returns
