TD Mutual Funds Annual Management Report of Fund Performance

for the period ended December 31, 2024

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, at no cost, by calling 1-800-386-3757, by writing to us at TD Asset Management Inc., P.O. Box 100, 66 Wellington Street West, TD Bank Tower, Toronto-Dominion Centre, Toronto, Ontario, M5K 1G8, or by visiting our website at www.td.com/ca/en/asset-management or the SEDAR+ website at www.sedarplus.ca.

Securityholders may also contact us or visit our website to get a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure at no cost.

Management Discussion of Fund Performance

Investment Objectives and Strategies

The investment objective of TD U.S. Dividend Growth Fund (the "Fund") is to seek to earn income and moderate capital growth by investing primarily in income-producing securities of issuers in the United States. In seeking to achieve this objective, the Fund invests in a diversified portfolio of income-producing securities in the United States which may include, but are not limited to, dividend-paying common and preferred shares and real estate investment trusts. Common share investments will focus on companies that are expected to pay out increasing dividends over time and/or companies that have above-average dividend yields. The Fund may also invest in exchange-traded funds.

Risk

The risks of investing in the Fund remain as outlined in the simplified prospectus.

Results of Operations

The Investor Series units of the Fund returned 39.0% for the year ended December 31, 2024 (the "Reporting Period"), versus 35.8% for the Fund's product benchmark and general market index, the S&P 500 Total Return Index (Net Dividend, C\$). Unlike the product benchmark and general market index, the Fund's return is quoted after the deduction of fees and expenses. Returns for other series of the Fund may vary, largely due to differences in fees and expenses. Refer to the Past Performance section for returns of various series of the Fund.

Market Update

The U.S. economy continued to expand over the Reporting Period, demonstrating its relative strength despite tight financial conditions and softer economic activity elsewhere around the world. Consumer spending was the key driver of growth as U.S. households proved their resiliency amid high borrowing costs and elevated inflation. However, small cracks began to emerge as the Reporting Period progressed. Relatively strong manufacturing activity began to fade in response to slower demand. Real estate market activity waned with high mortgage rates weighing on demand. A slowing U.S. labour market raised concerns about the health of the overall economy. The U.S. unemployment rate rose to its highest level since 2021. In response to the slowing labour market and easing inflationary pressures, the U.S. Federal Reserve Board ("Fed") lowered the target range of its benchmark interest rate by 1.00% to 4.25%-4.50%. At its final meeting of the Reporting Period, the Fed lowered its expectations for the number of interest rate cuts in 2025 given inflation was still above its 2% target and economic conditions were relatively stable.

U.S. equities delivered a strong gain over the Reporting Period, with 10 of 11 sectors generating positive returns. Communication services, information technology and consumer discretionary were the strongest-performing sectors, while materials, health care and real estate were the weakest-performing sectors.

The communication services and information technology sectors were key drivers of U.S. equity market gains over the Reporting Period. Both benefited from the progress and expected capabilities of artificial intelligence ("AI"). Investors also raised the valuations of stocks in both sectors in response to lower interest rates. U.S. consumer spending remained resilient despite tight financial conditions, which benefited the consumer discretionary sector.

Key Contributors/Detractors

The Fund posted positive returns and outperformed its product benchmark during the Reporting Period.

- Security selection within the information technology sector was a source of strength as the Fund owned both NVIDIA Corp. and Broadcom Inc., semiconductor giants that continued to exhibit strong business momentum.
- Stock selection within the financials sector contributed to performance owing to the Fund's exposures to an alternative investment management company, a global card issuer and payments network, an independent investment bank, and a property and casualty insurance leader specializing in motor insurance, all of which returned more than 50%.
- Stock selection within the industrials sector added to returns owing to the Fund's positions in multiple aerospace and defense companies, a global power management company, and a company that provides heating, ventilation and air conditioning solutions, all of which strongly outperformed their sector peers.
- Security selection within the consumer discretionary sector detracted from performance owing to a lack of exposure to Tesla Inc, which returned over 70% during the Reporting Period. Owning a global fast-food chain, which underperformed the sector, also weighed on performance.
- An underweight allocation to the communication services sector detracted from performance as it was the top-performing sector during the Reporting Period.

Recent Developments

The Portfolio Adviser expects consumer and business activity to pick up after several central banks began to ease monetary policy and loosen financial conditions. Still, several risks to the outlook persist, such as geopolitical tensions, the potential for inflationary pressures to reemerge and the impact of potential tariffs on global trade activity. Many central banks are expected to keep lowering interest rates, which could further boost global economic activity in 2025 and help the global economy avoid a recession.

The Portfolio Adviser believes the U.S. economy is well positioned for continued growth supported by anticipated regulatory reduction, which should unlock additional business activity, a shift toward a more business-friendly policy environment, and a long-term productivity boost from AI. The corporate environment remains positive, with the incoming U.S. Administration likely to focus on extending and modifying the Tax Cuts & Jobs Act, measures providing tax breaks for households and increasing deregulation to boost productivity. The macroeconomic environment still suggests a period of moderate inflation, all of which bodes well for the earnings outlook next year. However, Donald Trump's proposed policies also bring risks, as his proposed universal tariff policy and plans to deport undocumented immigrants could be inflationary. Universal tariffs may bring the risk of retaliatory tariffs from other countries, which could negatively impact U.S. exporters.

Looking ahead, the Portfolio Adviser will be monitoring several factors that influence market performance, including earnings momentum, policy announcements and geopolitics. Although a strong U.S. dollar has created some concerns for the global economy, the Portfolio Adviser believes this also presents an opportunity within the Fund's current investment framework, which seeks out companies that will outperform in dynamic market conditions. The U.S. continues to exhibit resilience as it potentially enters the mid-cycle stage of a sustained economic cycle. Consumer sentiment has also lifted in recent months and the generally lower interest rates should allow greater discretionary spending if optimism is sustained.

The Fund remains invested in the big-picture themes like AI, data centres, travel and consumer resilience, and in high-conviction ideas that will likely see faster acceleration of free cash flows in the current environment. The Portfolio Adviser added exposures and reduced the Fund's defensive exposures. During the Reporting Period, 93% of portfolio companies increased dividends at an average of 15%. The Fund is invested in high-quality companies that the Portfolio Adviser believes can continue to grow and compound their income streams.

Related Party Transactions

Affiliates of TD Asset Management Inc. ("TDAM") may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as in connection with banking (including deposit taking), custody, securityholder account maintenance and reporting, brokerage and derivatives transactions.

Manager, Trustee and Portfolio Adviser:

TDAM, a wholly-owned subsidiary of The Toronto-Dominion Bank ("TD"), is the manager, trustee and portfolio adviser of the Fund. The Fund pays TDAM an annual management fee, which may vary for each series of the Fund. The Fund also pays TDAM an annual administration fee of 0.20% per simplified prospectus, calculated and accrued as a percentage of the net asset value, with respect to the Investor Series, Advisor Series, H8 Series, T8 Series and D-Series units of the Fund.

Distributor:

Certain series of units of the Fund are distributed through brokers and dealers including TD Waterhouse Canada Inc. ("TDWCI"), a wholly-owned subsidiary of TD. TDWCI, like other dealers, is paid a trailer commission by TDAM for distributing certain series of units of the Fund. Trailer commissions are paid by TDAM out of the management fees it receives from the Fund and are based on the average value of assets held by each dealer.

Registrar and Transfer Agent:

TD is the registrar and transfer agent of the Fund, and as such maintains all unitholder records, processes purchase, switch, conversion and redemption orders, issues investor statements and prepares annual tax reporting information on behalf of the Fund.

TD earns a foreign exchange spread when unitholders switch between units of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with TD for which TD earns a fee.

Administration and Securityholder Services:

TDWCI, in addition to acting as a dealer, also provides administration and securityholder services to the Private Series units of the Fund for which such costs are reflected in the operating expenses for the Private Series units of the Fund. These services include securityholder account maintenance and reporting.

Custodian:

TD is the sub-custodian of the Fund and may hold a portion of the assets (including cash and investments) of the Fund.

Buying and Selling Securities:

TDAM has established an independent review committee ("IRC") which acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting any conflict of interest matters referred to it by TDAM. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available on the TDAM website at www.td.com/ca/en/asset-management or at the securityholder's request at no cost by contacting TDAM (see front cover).

The Fund relied on standing instructions from the IRC in respect of one or more of the following transactions:

- (a) trades in securities of TD or any affiliate or associate thereof;
- (b) investments in the securities of an issuer where TD Securities Inc., TDWCI, or any other affiliate of TDAM (a "Related Dealer") acted as an underwriter during the distribution of such securities and the 60-day period following the completion of the distribution of the underwritten securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund or discretionary managed account managed by TDAM; and
- (d) purchases of securities from or sales of securities to a Related Dealer, where it acted as principal.

The relevant standing instructions require that securities transactions with related parties conducted by TDAM (i) are free from any influence by an entity related to TDAM and without taking into account any consideration relevant to an entity related to TDAM; (ii) represent the business judgment of TDAM uninfluenced by considerations other than the best interests of the Fund; (iii) comply with the applicable policies and procedures of TDAM; and (iv) achieve a fair and reasonable result for the Fund.

Brokerage Arrangements (000s):

From time to time, the Fund may enter into portfolio securities transactions with Related Dealers who may earn commissions or spreads provided that such trades are made on terms and conditions that are comparable to non-affiliated brokerages. During the Reporting Period, the Fund paid commissions to related parties amounting to \$3 or 0.1% of total commissions paid by the Fund for portfolio transactions in total.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five fiscal years, as applicable. For series that commenced operations during any of the periods presented, the data reported for that period represents results from the commencement of operations (as disclosed in the Past Performance section) to the end of that reporting period.

¹ This information is derived from the Fund's audited annual financial statements prepared in accordance with International Financial Reporting Standards. The Fund measures fair value of its investments based on close market prices, where the close market price falls within the bid-ask spread or based on quotations from recognized dealers. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are substantively consistent with those used in measuring the net asset value ("NAV") for transactions with unitholders.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial periods. These tables are not intended to be a reconciliation of the net assets per unit.

³ Distributions were paid in cash or reinvested in additional units of the Fund, or both.

¹ This information is provided as at December 31 of the past five fiscal years, as applicable.

² Management Expense Ratio ("MER") is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) net of any waivers or absorptions for the stated period, including the Fund's proportionate share of the MER, if any, of the underlying fund(s) in which the Fund has invested in, and is expressed as an annualized percentage of daily average NAV during the period. Management Expense Ratio Before Waivers or Absorptions is based on total expenses and excludes the management fees on the portion of the NAV the Fund invests in the underlying funds that are managed by TDAM or its affiliates. There will be no duplication of management fees paid to TDAM or its affiliates. Any waivers or absorptions may be discontinued at any time by TDAM at its discretion without notice.

³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the stated period. Where a Fund invests in units of any underlying fund, the TER presented for the Fund includes the portion of TERs, if available, of the underlying fund(s) attributable to this investment.

⁴ The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio adviser manages its investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the stated period. The higher a fund's PTR, the greater the trading costs payable, directly or indirectly, by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the fiscal year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

⁵ The Fund does not pay any management fees or operating expenses with respect to the O-Series units of the Fund, but may have a MER as a result of its holdings in underlying fund(s), representing the weighted average MER of those underlying fund(s) for the reporting period.

Management Fees

As manager and trustee of the Fund, TDAM is responsible for the overall business and affairs of the Fund, including activities related to making units of the Fund available to investors, and providing, or arranging for the provision of, investment advisory services and marketing services to the Fund. In consideration for the provision of such services, each series of the Fund, other than Private Series units and O-Series units, pays TDAM a management fee.

Management fees are calculated and accrued on a daily basis for each applicable series based on the net asset value of that series and paid monthly to TDAM.

The simplified prospectus discloses a specified annual management fee rate that TDAM can charge for each series of the Fund. Where TDAM chooses to charge a management fee rate below the specified annual management fee rate, the difference represents a waiver of management fees. TDAM may waive all or a portion of the management fees being charged to the Fund, which may be discontinued at any time by TDAM at its discretion without notice to unitholders.

The annual management fees and a breakdown of the major services rendered for each series, as a percentage of the management fees paid, are as follows:

(expressed as a %)	Annual Mgmt. Fees*	Dealer Compensation	Waived Operating Expenses	Other†
Investor Series	1.70	59.28	0.00	40.72
Advisor Series	1.70	57.75	0.00	42.25
F-Series	0.80	0.00	0.00	100.00
H8 Series	1.70	59.30	0.00	40.70
FT5 Series	0.80	0.00	0.00	100.00
FT8 Series	0.80	0.00	0.00	100.00
T8 Series	1.70	56.67	0.00	43.33
D-Series	0.80	0.00	0.00	100.00
Private Series	0.00	N/A	N/A	N/A
O-Series	0.00	N/A	N/A	N/A

There are no management fees paid by the Fund in respect of Private Series and O-Series units of the Fund. Unitholders in the Private Series pay a negotiated fee directly to TDAM, their dealer or TD Waterhouse Private Investment Counsel Inc. Unitholders in the O-Series pay a negotiated fee directly to TDAM.

- Includes management fees paid by the Fund and the proportionate management fees, if any, of the underlying fund(s) managed by TDAM held by the Fund. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.

† Investment advisory, trustee, marketing services and other.

Past Performance

The following charts show how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions. They do not include deduction of sales, switch, redemption, or other optional charges (which dealers may charge) or income taxes payable, and these returns would be lower if they did. The Fund's past performance does not necessarily indicate how it will perform in the future.

Year-by-year returns

The bar charts show how the Fund's performance has varied from year to year for each of the years shown. They show in percentage terms how an investment made on January 1 would have increased or decreased by December 31.

Caution regarding forward-looking statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events.

The above mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing any undue reliance on forward-looking statements. Further, there is no specific intention of updating any forward-looking statements contained herein whether as a result of new information, future events or otherwise.
