## TD Mutual Funds Interim Management Report of Fund Performance

for the period ended June 30, 2024

This interim management report of fund performance contains financial highlights, but does not contain either the complete interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, at no cost, by calling 1-800-386-3757, by writing to us at TD Asset Management Inc., P.O. Box 100, 66 Wellington Street West, TD Bank Tower, Toronto-Dominion Centre, Toronto, Ontario, M5K 1G8, or by visiting our website at [www.td.com/ca/en/asset-management](http://www.td.com/ca/en/asset-management) or the SEDAR+ website at [www.sedarplus.ca](http://www.sedarplus.ca).

Securityholders may also contact us or visit our website to get a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure at no cost.

This interim management report of fund performance represents management's view of the significant factors and developments affecting the investment fund's performance and outlook since December 31, 2023, the investment fund's fiscal year-end, until June 30, 2024. This report should be read in conjunction with the 2023 annual management report of fund performance.

### Management Discussion of Fund Performance

#### Results of Operations

The Investor Series units of TD U.S. Equity Pool (the "Fund") returned 17.2% for the six-month period ended June 30, 2024 (the "Reporting Period"), versus 18.7% for the Fund's product benchmark, the S&P Composite 1500 Total Return Index (C\$). Unlike the product benchmark, the Fund's return is quoted after the deduction of fees and expenses. Returns for other series of the Fund may vary, largely due to differences in fees and expenses. Refer to the Past Performance section for returns of various series of the Fund.

#### Market Update

The resiliency of the U.S. consumer supported economic growth in the world's largest economy over the Reporting Period. Despite tight financial conditions, the U.S. economy expanded at a relatively robust pace compared to other economies around the world. Still, the U.S. economy was not without its challenges, particularly its manufacturing sector activity, which was hindered by weak demand and output. Elevated inflationary pressures persisted after coming down from decades-high levels in 2022 and inflation remained well above the U.S. Federal Reserve Board's ("Fed") 2% target. U.S. consumer strength was driven by a strong labour market. The U.S. economy continued to add jobs, which helped to keep the unemployment rate at historically low levels. While the labour market continued to be a beacon of strength for the U.S. economy, it showed signs of cooling, with job and wage growth easing as the Reporting Period progressed. However, economic conditions remained robust, adding to the Fed's willingness to hold interest rates at current levels for longer. The Fed held the target range of its benchmark interest rate steady at 5.25%-5.50%, citing inflationary pressures, a robust labour market and a strong economy as reasons to delay a potential rate cut until later in 2024.

U.S. equities posted robust gains over the Reporting Period, with 10 of 11 sectors generating positive returns. Performance was driven by mega-capitalization technology companies. Resilient economic conditions and expectations that the Fed might begin lowering interest rates in 2024 had boosted investor optimism. Information technology, communication services and financials were the strongest-performing sectors, while real estate, materials, and consumer discretionary were the weakest-performing sectors.

The information technology sector posted the highest return over the Reporting Period, benefiting from positive investor sentiment on the progress and potential capabilities of artificial intelligence ("AI"). Furthermore, expectations of lower interest rates supported the sizable valuations of the sector. Like the information technology sector, the communication services sector benefited from strong investor optimism and the potential of AI. Mega-capitalization technology stocks helped drive the strong performance of the sector. The financials sector posted a gain amid expectations of relatively strong profit growth and the resiliency of the U.S. economy, which

has avoided a recession despite high borrowing costs and elevated inflationary pressures. Furthermore, higher interest rates for longer were viewed as supportive of banks' profit margins.

#### Key Contributors/Detractors

Over the Reporting Period, the Fund generated a positive return but underperformed its product benchmark.

- The Fund's allocation to TD U.S. Quantitative Equity Fund detracted from performance as the underlying fund underperformed its product benchmark, in part owing to its security selection within the financials sector over the Reporting Period.
- The Fund's allocation to TD U.S. Capital Reinvestment Fund detracted from performance as the underlying fund underperformed its product benchmark, in part owing to its security selection in the industrials sector.
- The Fund's allocation to TD U.S. Dividend Growth Fund contributed to performance as the underlying fund outperformed its product benchmark, in part owing to its security selection within the information technology sector.

#### Recent Developments

The Portfolio Adviser expects global economic activity to remain relatively modest in 2024, as a result of tight financial conditions, geopolitical tensions, and softer demand from consumers and businesses. Given relatively weak economic conditions and moderating inflation, global central banks are expected to begin lowering interest rates. This could help reignite economic growth over the second half of 2024 and help the global economy avoid a recession.

Over the Reporting Period, the Portfolio Adviser positioned the Fund in preparation for an economic environment with muted growth. The Portfolio Adviser favours exposure to companies that offer dividend and cash flow growth, and avoids companies with high financial leverage.

Looking ahead, the Portfolio Adviser expects the U.S. economy to outperform other global economies for the remainder of 2024.

U.S. equity markets are likely to remain volatile as investors wait for interest rate reductions and anticipate the results of the upcoming U.S. presidential election, which could affect corporate tax rates and tariffs. Despite the uncertain environment, the Portfolio Adviser believes U.S. equities should still be able to provide solid results this year.

## Related Party Transactions

Affiliates of TD Asset Management Inc. ("TDAM") may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as in connection with banking (including deposit taking), custody, securityholder account maintenance and reporting, brokerage and derivatives transactions.

### *Manager, Trustee and Portfolio Adviser:*

TDAM, a wholly-owned subsidiary of The Toronto-Dominion Bank ("TD"), is the manager, trustee and portfolio adviser of the Fund. The Fund pays TDAM an annual management fee, which may vary for each series of the Fund. The Fund also pays TDAM an annual administration fee of 0.08%, calculated and accrued as a percentage of the net asset value, with respect to the Investor Series and D-Series units of the Fund. The Fund may hold underlying fund(s) managed by TDAM for which TDAM may be paid a fee. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.

### *Distributor:*

Certain series of units of the Fund are distributed through brokers and dealers including TD Waterhouse Canada Inc. ("TDWCI"), a wholly-owned subsidiary of TD. TDWCI, like other dealers, is paid a trailer commission by TDAM for distributing certain series of units of the Fund. Trailer commissions are paid by TDAM out of the management fees it receives from the Fund and are based on the average value of assets held by each dealer.

### *Registrar and Transfer Agent:*

TD is the registrar and transfer agent of the Fund, and as such maintains all unitholder records, processes purchase, switch, conversion and redemption orders, issues investor statements and prepares annual tax reporting information on behalf of the Fund.

TD earns a foreign exchange spread when unitholders switch between units of funds denominated in different currencies. The Fund also maintains bank accounts and overdraft provisions with TD for which TD earns a fee.

### *Administration and Securityholder Services:*

TDWCI, in addition to acting as a dealer, also provides administration and securityholder services to the Advisor Series units of the Fund for which such costs are reflected in the operating expenses for the Advisor Series units of the Fund. These services include securityholder account maintenance and reporting.

### *Custodian:*

TD is the sub-custodian of the Fund and may hold a portion of the assets (including cash and investments) of the Fund.

### *Buying and Selling Securities:*

TDAM has established an independent review committee ("IRC") which acts as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting any conflict of interest matters referred to it by TDAM. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available on the TDAM website at [www.td.com/ca/en/asset-management](http://www.td.com/ca/en/asset-management) or at the securityholder's request at no cost by contacting TDAM (see front cover).

The Fund and/or underlying fund(s) in which the Fund invests relied on standing instructions from the IRC in respect of one or more of the following transactions:

- (a) trades in securities of TD or any affiliate or associate thereof;
- (b) investments in the securities of an issuer where TD Securities Inc., TDWCI, or any other affiliate of TDAM (a "Related Dealer") acted as an underwriter during the distribution of such securities and the 60-day period following the completion of the distribution of the underwritten securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund or discretionary managed account managed by TDAM; and
- (d) purchases of securities from or sales of securities to a Related Dealer, where it acted as principal.

The relevant standing instructions require that securities transactions with related parties conducted by TDAM (i) are free from any influence by an entity related to TDAM and without taking into account any consideration relevant to an entity related to TDAM; (ii) represent the business judgment of TDAM uninfluenced by considerations other than the best interests of the Fund and/or underlying fund(s); (iii) comply with the applicable policies and procedures of TDAM; and (iv) achieve a fair and reasonable result for the Fund and/or underlying fund(s).

### *Brokerage Arrangements (000s):*

From time to time, the Fund may enter into portfolio securities transactions with Related Dealers who may earn commissions or spreads provided that such trades are made on terms and conditions that are comparable to non-affiliated brokerages. During the Reporting Period, the Fund paid commissions to related parties amounting to \$10 or 40.1% of total commissions paid by the Fund for portfolio transactions in total.

## Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the six-month period ended June 30, 2024 and the past five fiscal years, as applicable. For series that commenced operations during any of the periods presented, the data reported for that period represents results from the commencement of operations (as disclosed in the Past Performance section) to the end of that reporting period.

<sup>1</sup> This information is derived from the Fund's interim and audited annual financial statements prepared in accordance with International Financial Reporting Standards. The Fund measures fair value of its investments based on close market prices, where the close market price falls within the bid-ask spread or based on quotations from recognized dealers. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are substantively consistent with those used in measuring the net asset value ("NAV") for transactions with unitholders.

<sup>2</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial periods. These tables are not intended to be a reconciliation of the net assets per unit.

<sup>3</sup> Distributions were paid in cash or reinvested in additional units of the Fund, or both.

Net Asset Value per Unit (\$)	60.61	51.42	42.47	52.23	44.57	40.61	23.67	20.11	16.67	20.51	17.68	16.25

<sup>1</sup> This information is provided as at June 30, 2024 and December 31 of the past five fiscal years, as applicable.

<sup>2</sup> Management Expense Ratio ("MER") is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) net of any waivers or absorptions for the stated period, including the Fund's proportionate share of the MER, if any, of the underlying fund(s) in which the Fund has invested in, and is expressed as an annualized percentage of daily average NAV during the period. Management Expense Ratio Before Waivers or Absorptions is based on total expenses and excludes the management fees on the portion of the NAV the Fund invests in the underlying funds that are managed by TDAM or its affiliates. There will be no duplication of management fees paid to TDAM or its affiliates. Any waivers or absorptions may be discontinued at any time by TDAM at its discretion without notice.

<sup>3</sup> The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the stated period. Where a Fund invests in units of any underlying fund, the TER presented for the Fund includes the portion of TERs, if available, of the underlying fund(s) attributable to this investment.

<sup>4</sup> The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio adviser manages its investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the stated period. The higher a fund's PTR, the greater the trading costs payable, directly or indirectly, by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the fiscal year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

As manager and trustee of the Fund, TDAM is responsible for the overall business and affairs of the Fund, including activities related to making units of the Fund available to investors, and providing, or arranging for the provision of, investment advisory services and marketing services to the Fund. In consideration for the provision of such services, each series of the Fund pays TDAM a management fee.

Management fees are calculated and accrued on a daily basis for each applicable series based on the net asset value of that series and paid monthly to TDAM.

The simplified prospectus discloses a specified annual management fee rate that TDAM can charge for each series of the Fund. Where TDAM chooses to charge a management fee rate below the specified annual management fee rate, the difference represents a waiver of management fees. TDAM may waive all or a portion of the management fees being charged to the Fund, which may be discontinued at any time by TDAM at its discretion without notice to unitholders.

The annual management fees and a breakdown of the major services rendered for each series, as a percentage of the management fees paid, are as follows:

(expressed as a %)	Annual Mgmt. Fees*	Dealer Compensation	Waived Operating Expenses	Other†
Investor Series	1.85	55.28	0.00	44.72
Advisor Series	1.85	52.80	0.00	47.20
F-Series	0.85	0.00	0.00	100.00
D-Series	1.00	0.00	0.00	100.00

\* Includes management fees paid by the Fund and the proportionate management fees, if any, of the underlying fund(s) managed by TDAM held by the Fund. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.

† Investment advisory, trustee, marketing services and other.

Past Performance

The following charts show how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions. They do not include deduction of sales, switch, redemption, or other optional charges (which dealers may charge) or income taxes payable, and these returns would be lower if they did. The Fund’s past performance does not necessarily indicate how it will perform in the future.

Year-by-year returns

The bar charts show how the Fund’s performance has varied from year to year for each of the years shown. They show in percentage terms how an investment made on January 1 would have increased or decreased by December 31 for each year and for the six-month period ended June 30, 2024.

## Caution regarding forward-looking statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events.

The above mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing any undue reliance on forward-looking statements. Further, there is no specific intention of updating any forward-looking statements contained herein whether as a result of new information, future events or otherwise.
