Securityholders may also contact us or visit our website to get a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure at no cost.

Management Discussion of Fund Performance

Investment Objectives & Strategies

The investment objective of TD U.S. Equity CAD Hedged Index ETF (the "Fund") is to seek to track, to the extent reasonably possible and before the deduction of fees and expenses, the performance of a broad U.S. equity market index that measures the investment return of large-capitalization U.S. stocks, hedged to the Canadian dollar. In seeking to achieve this objective, the Fund currently invests in and holds units of TD U.S. Equity Index ETF. The Fund may also invest in units of other TD Exchange-Traded Funds, and/or other securities including exchange-traded funds, mutual funds or other public investment funds, American Depositary Receipts or derivative instruments, to obtain exposure to such securities in a manner that is consistent with the investment objective of the Fund.

Risk

The risks of investing in the Fund remain as outlined in the prospectus.

Results of Operations

The Fund is an exchange-traded fund listed on the Toronto Stock Exchange ("TSX"). Units of the Fund are traded under TSX ticker symbol "THU". The Fund returned 23.9% for the year ended December 31, 2024 (the "Reporting Period"), versus 24.1% for the Fund's product benchmark and general market index, the Solactive US Large Cap Hedged to CAD Index (CA NTR). Unlike the product benchmark and general market index, the Fund's return is quoted after the deduction of fees and expenses. During the Reporting Period, the Fund invested its assets primarily in units of TD U.S. Equity Index ETF (the underlying fund or "UF"). The performance of the UF is similar to that of the Fund except for differences arising from currency hedging activities, fees and expenses, and purchase and/or redemption activities. These Results of Operations and Recent Developments commentaries reflect the views of the UF's Portfolio Adviser for the same period as they directly impact the Fund.

Market Update

The U.S. economy continued to expand over the Reporting Period, demonstrating its relative strength despite tight financial conditions and softer economic activity elsewhere around the world. Consumer spending was the key driver of growth as U.S. households proved their resiliency amid high borrowing costs and elevated inflation. However, small cracks began to emerge as the Reporting Period progressed. Relatively strong manufacturing activity began to fade in response to slower demand. Real estate market activity waned with high mortgage rates weighing on demand. A slowing U.S. labour market raised concerns about the health of the overall economy. The U.S. unemployment rate rose to its highest level since 2021. In response to the slowing labour market and easing inflationary pressures, the U.S. Federal Reserve Board ("Fed") lowered the target range of its benchmark interest rate by 1.00% to 4.25%-4.50%. At its final meeting of the Reporting Period, the Fed lowered its expectations for the number of interest rate cuts in 2025 given inflation was still above its 2% target and economic conditions were relatively stable.

U.S. equities delivered a strong gain over the Reporting Period, with 10 of 11 sectors generating positive returns. Communication services, information technology and consumer discretionary were the strongest-performing sectors, while materials, health care and real estate were the weakest-performing sectors.

The communication services and information technology sectors were key drivers of U.S. equity market gains over the Reporting Period. Both benefited from the progress and expected capabilities of artificial intelligence. Investors also raised the valuations of stocks in both sectors in response to lower interest rates. U.S. consumer spending remained resilient despite tight financial conditions, which benefited the consumer discretionary sector.

Key Contributors/Detractors

The UF continues to be managed with the objective of seeking to track the performance of its product benchmark. The UF's returns are influenced by the same factors that affect the U.S. equity market.

Recent Developments

The UF's Portfolio Adviser expects consumer and business activity to pick up after several central banks began to ease monetary policy and loosen financial conditions. Still, several risks to the outlook persist, such as geopolitical tensions, the potential for inflationary pressures to reemerge and the impact of potential tariffs on global trade activity. Many central banks are expected to keep lowering interest rates, which could further boost global economic activity in 2025 and help the global economy avoid a recession. The UF's Portfolio Adviser continues to monitor all the factors that could influence the UF's investment portfolio.

Related Party Transactions

Affiliates of TD Asset Management Inc. ("TDAM") may earn fees and spreads in connection with various services provided to, or transactions with, the Fund, such as in connection with banking, deposit-taking, custody, brokerage and derivatives transactions, subject to approval or review by the Fund's independent review committee ("IRC") and/or compliance with applicable internal policies and procedures.

Manager, Trustee and Portfolio Adviser:

TDAM, a wholly-owned subsidiary of The Toronto-Dominion Bank ("TD"), is the manager, trustee, portfolio adviser and promoter of the Fund. The Fund pays TDAM an annual management fee. The Fund may also hold underlying fund(s) managed by TDAM for which TDAM may be paid a fee. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.

Designated Broker and Dealer:

TDAM has entered into an agreement with TD Securities Inc. ("TDS"), an affiliate of TDAM, to act as designated broker and dealer to perform certain duties for the Fund. The designated broker arrangements entered into with TDS are consistent with market terms and conditions.

Custodian:

TD is the sub-custodian of the Fund and may hold a portion of cash of the Fund.

Buying and Selling Securities:

TDAM has established the IRC to act as an impartial and independent committee to review and provide recommendations or, if appropriate, approvals respecting any conflict of interest matters referred to it by TDAM. The IRC prepares, at least annually, a report of its activities for securityholders of the Fund. The report is available on the TDAM website at www.td.com/ca/en/asset-management or at the securityholder's request at no cost by contacting TDAM (see front cover).

The Fund and/or underlying fund(s) in which the Fund invests relied on standing instructions from the IRC in respect of one or more of the following transactions:

- (a) trades in securities of TD or any affiliate or associate thereof;
- (b) investments in the securities of an issuer where TDS, TD Waterhouse Canada Inc., or any other affiliate of TDAM (a "Related Dealer") acted as an underwriter during the distribution of such securities and the 60-day period following the completion of the distribution of the underwritten securities;
- (c) purchases or sales of securities of an issuer from or to another investment fund or discretionary managed account managed by TDAM; and
- (d) purchases of securities from or sales of securities to a Related Dealer, where it acted as principal.

The relevant standing instructions require that securities transactions with related parties conducted by TDAM (i) are free from any influence by an entity related to TDAM and without taking into account any consideration relevant to an entity related to TDAM; (ii) represent the business judgment of TDAM uninfluenced by considerations other than the best interests of the Fund and/or underlying fund(s); (iii) comply with the applicable policies and procedures of TDAM; and (iv) achieve a fair and reasonable result for the Fund and/or underlying fund(s).

Brokerage Arrangements (000s):

From time to time, the Fund may enter into portfolio securities transactions with Related Dealers who may earn commissions or spreads provided that such trades are made on terms and conditions that are comparable to non-affiliated brokerages. During the Reporting Period, the Fund paid commissions to related parties amounting to \$6 or 81.9% of total commissions paid by the Fund for portfolio transactions in total.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past five fiscal years, as applicable. For units of the Fund that commenced operations during any of the periods presented, the data reported for that period represents results from the commencement of operations (as disclosed in the Past Performance section) to the end of that reporting period.

¹ This information is derived from the Fund's audited annual financial statements prepared in accordance with International Financial Reporting Standards. The Fund measures fair values of its investments based on close market prices, where the close market price falls within the bid-ask spread or based on quotations from recognized dealers. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are substantively consistent with those used in measuring the net asset value ("NAV") for transactions with unitholders.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of the net assets per unit.

³ Distributions were paid in cash or reinvested in additional units of the Fund, or both. The Fund may make notional distributions from time to time and the units issued on reinvestments are immediately consolidated with the units held prior to the notional distribution. As a result, the total number of units held after the notional distribution is identical to the number of units held before the notional distribution. The following table shows the notional distributions for the periods presented, as applicable.

	2024	2023	2022	2021	2020

Closing Market Price (\$)⁵	39.07	31.89	25.55	33.06	26.46

¹ This information is provided as at December 31 of the past five fiscal years, as applicable.

² Management Expense Ratio ("MER") is based on total expenses (excluding distributions, commissions and other portfolio transaction costs) net of any waivers or absorptions for the stated period, including the Fund's proportionate share of the MER, if any, of the underlying fund(s) in which the Fund has invested in, and is expressed as an annualized percentage of daily average NAV during the period. Management Expense Ratio Before Waivers or Absorptions is based on total expenses and excludes the management fees on the portion of the NAV the Fund invests in the underlying funds that are managed by TDAM or its affiliates. There will be no duplication of management fees paid to TDAM or its affiliates. Any waivers or absorptions may be discontinued at any time by TDAM at its discretion without notice.

³ The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average NAV during the stated period. Where a Fund invests in securities of any underlying fund, the TER presented for the Fund includes the portion of TERs, if available, of the underlying fund(s) attributable to this investment.

⁴ The Fund's portfolio turnover rate ("PTR") indicates how actively the Fund's portfolio adviser manages its investments. A PTR of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the stated period. The higher a fund's PTR, the greater the trading costs payable, directly or indirectly, by the fund in the period, and the greater the chance of an investor receiving taxable capital gains in the fiscal year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

⁵ Mid price would be used if no transaction took place on the last business day of the financial period.

Management Fees

As manager of the Fund, TDAM is responsible for the overall business and affairs of the Fund, including activities related to providing, or arranging for the provision of, certain administrative services and marketing services to the Fund. In consideration for the provision of such services, the Fund pays TDAM a management fee.

Management fees, plus applicable taxes, are calculated and accrued on a daily basis based on the net asset value of the Fund and are paid monthly to TDAM.

The prospectus discloses a specified annual management fee rate that TDAM can charge to the Fund. TDAM may waive all or a portion of the management fees being charged to the Fund, which may be discontinued at any time by TDAM at its discretion without notice to unitholders.

The annual management fees and a breakdown of the major services rendered, as a percentage of the management fees paid, are as follows:

(expressed as a %)	Annual Mgmt. Fees*	Dealer Compensation	Waived Operating Expenses	Other†
Fund	0.06	N/A	>100.00°	0.00°

° TDAM's expenses for servicing the Fund exceeded the management fees paid by the Fund.
• Includes management fees paid by the Fund and the proportionate management fees, if any, of the underlying fund(s) managed by TDAM held by the Fund. However, no management fees are payable by the Fund that, to a reasonable person, would duplicate a fee payable by the underlying fund(s) for the same services.
† Trustee, marketing services and other.

Past Performance

The following chart shows how the Fund has performed in the past, and can help you understand the risks of investing in the Fund. These returns include the reinvestment of all distributions during the period in additional units at the net asset value per unit of the Fund at the time of distribution. They do not take into account sales, redemption, distribution or other optional charges or income taxes payable by any unitholder, and these returns would be lower if they did. The Fund's past performance does not necessarily indicate how it will perform in the future.

Year-by-year returns

The bar chart shows how the Fund's performance has varied from year to year for each of the years shown. It shows in percentage terms how an investment made on January 1 would have increased or decreased by December 31.

Caution regarding forward-looking statements

Certain portions of this report, including, but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks and uncertainties, some of which may be unforeseeable. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events.

The above mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing any undue reliance on forward-looking statements. Further, there is no specific intention of updating any forward-looking statements contained herein whether as a result of new information, future events or otherwise.
