### What does the fund invest in?

The fund seeks to preserve capital and maintain liquidity by primarily providing exposure to high-quality debt securities such as money market and short-term fixed income securities issued by Canadian federal and provincial governments and corporations. The fund may also use derivatives to gain exposure to such securities. Currently, the fund invests mainly in units of TD *Emerald* Canadian Short Term Investment Fund (the underlying fund). In addition, the fund may have exposure to foreign securities to an extent that will vary from time to time but is not typically expected to exceed 30% of the total value of the assets of the fund at the time that foreign securities are purchased.

The charts below give you a snapshot of the underlying fund's investments on May 31, 2025. The underlying fund's investments will change.

#### Investment mix (May 31, 2025)

TD Short Term Investment Class – Investor Series

How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility". In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

TDAM has rated the volatility of this fund as low. This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the section entitled "What are the risks of investing in the Fund?" in the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund is not guaranteed or insured. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Investor Series securities of the fund performed over the past 10 years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

This chart shows how Investor Series securities of the fund performed in each of the past 10 completed calendar years. The fund dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Investor Series securities of the fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

Table with 4 columns: Return, 3 months ending, and If you invested \$1,000 at the beginning of the period. Rows for Best return and Worst return.

Average return

As of May 31, 2025, the annual compounded return of Investor Series securities of the fund was 1.2% over the past 10 years. If you had invested \$1,000 in Investor Series securities of the fund 10 years ago, your investment would now be worth \$1,129.

Who is this fund for?

This fund may be suitable for investors who: are investing for the short to medium-term, are looking for conservative investment exposure similar to that of a fund holding high-quality Canadian debt securities that generally mature in no more than one year, can handle small changes in the value of their investment. This fund may not be suitable for investors seeking a steady source of income.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay and/or when you pay depends on the tax laws where you live, the type of distributions made by the fund and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account. Keep in mind that if you hold your fund in a non-registered account, you must include taxable fund distributions in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Investor Series securities of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

TD Short Term Investment Class – Investor Series

1 Sales charges

Effective August 1, 2023, the fund was closed to all purchases by investors. If you are an existing investor in this fund, you may convert to this series of the fund on a no-load basis.

2 Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of November 30, 2024, the fund's expenses were 0.95% of its average value. This equals \$9.50 for every \$1,000 invested.

Annual rate (as a % of the fund's value)

Management expense ratio (MER)

This is the total of the fund's management fee (which includes the trailing commission) and any expenses, costs or fees incurred by the fund which are not paid for by the manager. TDAM waived some of the fund's expenses. If it had not done so, the MER would have been higher.

0.95%

Trading expense ratio (TER)

These are the fund's trading costs.

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you.

TDAM pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate is 0.00% to 0.25% of the value of your investment each year. This equals \$0.00 to \$2.50 each year for every \$1,000 invested.

3 Other fees

There are no other fees associated with buying, holding, selling or switching securities of this series of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or fund facts document, or
• cancel your purchase within 48 hours after you receive confirmation of your purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, fund facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact TDAM or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the fund facts make up the fund's legal documents.
