What does the fund invest in?

The fund seeks to earn income with the potential for capital appreciation by investing primarily in, or gaining exposure to, a mix of income-producing securities of Canadian issuers, which may include, government and corporate debt obligations, common shares and preferred shares, exchange-traded funds, as well as real estate investment trusts, other evidences of indebtedness (including investments in loans) and other similar income-producing instruments. It may shift its investments between these asset classes at any time. In addition, the fund may invest in foreign securities to an extent that will vary from time to time but is not typically expected to exceed 49% of the total value of the assets of the fund at the time that foreign securities are purchased. While foreign securities are typically expected to consist of securities of U.S. issuers, the fund may also invest in, or gain exposure to, securities of issuers located outside of the U.S.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

TDAM has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	**Low to Medium**	Medium	Medium to High	High

For more information about the risk rating and specific risks that can affect the fund's returns, see the section entitled "What are the risks of investing in the Fund?" in the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund is not guaranteed or insured. You may not get back the amount of money you invest.

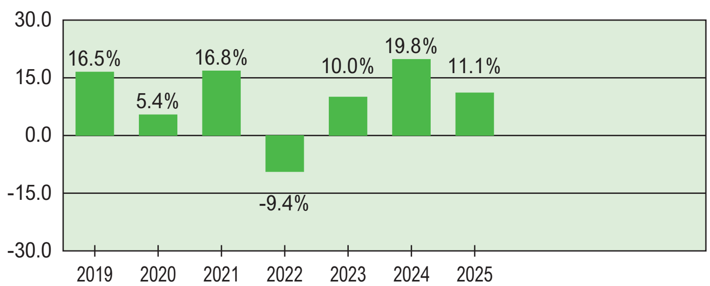
How has the fund performed?

This section tells you how FT5 Series units of the fund performed over the past 7 years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

This chart shows how FT5 Series units of the fund performed in each of the past 7 completed calendar years. The fund dropped in value in 1 of the 7 years.

The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.



Best and worst 3-month returns

This table shows the best and worst returns for FT5 Series units of the fund in a 3-month period over the past 7 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested $1,000 at the beginning of the period
Best return	9.6%	January 31, 2024	Your investment would rise to $1,096.
Worst return	-11.6%	March 31, 2020	Your investment would drop to $884.

Average return

As of May 31, 2026, the annual compounded return of FT5 Series units of the fund was 8.9% since inception. If you had invested $1,000 in FT5 Series units of the fund since inception, your investment would now be worth $1,941.

Who is this fund for?

This fund may be suitable for investors who:

- are investing for the medium to long-term
- are seeking a regular monthly distribution that may include a return of capital
- want a moderate degree of capital growth
- are seeking exposure to mainly Canadian investments
- can handle changes in the value of their investment

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay and/or when you pay depends on the tax laws where you live, the type of distributions made by the fund and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, you must include taxable fund distributions in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell FT5 Series units of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.
