What does the fund invest in?

The fund seeks to generate long-term capital growth with the added potential for earning a modest level of interest and dividend income by investing primarily in units of TD Mutual Funds, with an emphasis on mutual funds which focus on equities for greater potential capital growth. The fund may also invest directly in guaranteed investment certificates, bonds issued by the Canadian or provincial governments and strip bonds. The fund's neutral asset mix will generally provide exposure to 25% fixed income and 75% equities. The asset allocation will generally be maintained within ranges of 15% to 35% for fixed income and 65% to 85% for equities. In addition, the fund may have exposure to foreign securities to an extent that will vary from time to time and may be up to 100% of the total value of assets of the fund at the time that such exposure to foreign securities is obtained.

How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

TDAM has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High
-----	---------------	---------------	----------------	------

For more information about the risk rating and specific risks that can affect the fund's returns, see the sections entitled "What are the risks of investing in the Fund?" and "Who should invest in the Fund?" in the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund is not guaranteed or insured. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Advisor Series securities of the fund performed over the past 10 years. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

**TD Managed Aggressive Growth Portfolio – Advisor Series****Year-by-year returns**

This chart shows how Advisor Series securities of the fund performed in each of the past 10 completed calendar years. The fund dropped in value in 2 of the 10 years.

The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

**Best and worst 3-month returns**

This table shows the best and worst returns for Advisor Series securities of the fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	11.5%	June 30, 2020	Your investment would rise to \$1,115.
Worst return	-14.2%	March 31, 2020	Your investment would drop to \$858.

Average return

As of August 31, 2024, the annual compounded return of Advisor Series securities of the fund was 5.8% over the past 10 years. If you had invested \$1,000 in Advisor Series securities of the fund 10 years ago, your investment would now be worth \$1,761.

Who is this fund for?

This fund may be suitable for investors who:

- are investing for the medium to long-term
- want long-term growth of capital with only a modest level of income
- can handle the ups and downs of the stock markets
- prefer to have professional managers determine the selection and composition of their investments, as well as provide ongoing monitoring services
- are seeking some exposure to foreign markets

This fund may not be suitable for investors seeking a steady source of income.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay and/or when you pay depends on the tax laws where you live, the type of distributions made by the fund and whether or not you hold the fund in a registered plan such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, you must include taxable fund distributions in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series securities of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

**TD Managed Aggressive Growth Portfolio – Advisor Series****More about the trailing commission**

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and advice that your representative and their firm provide to you.

TDAM pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales charge option	Amount of trailing commission	
	In percent (%)	In dollars (\$)
Front-end load option (ISC)	0.00% to 1.00% of the value of your investment each year.	\$0.00 to \$10.00 each year for every \$1,000 invested.
Back-end load option (DSC)	0.00% to 0.50% of the value of your investment each year.	\$0.00 to \$5.00 each year for every \$1,000 invested.
Low-load option (LSC)	0.00% to 1.00% of the value of your investment each year.	\$0.00 to \$10.00 each year for every \$1,000 invested.
Low-load-2 option (LSC2)	0.00% to 0.50% of the value of your investment each year. After four years, the maximum rate may increase to 1.00%.	\$0.00 to \$5.00 each year for every \$1,000 invested. After four years, the maximum amount may increase to \$10.00.

3 Other fees

You may have to pay other fees when you buy, hold, sell or switch securities of the fund.

Other fees	What you pay
Short-term trading fee	Up to 2% of the purchase cost of the securities if you redeem them or switch them to another fund within 7 days of purchasing them. This fee goes to the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or fund facts document, or
- cancel your purchase within 48 hours after you receive confirmation of your purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, fund facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
