- (2) Percentages are calculated by dividing the sum of (i) the outstanding principal Receivables of delinquent Accounts and (ii) unpaid interest on the Accounts, by the month-end Receivables balance.

*Revenue Experience*

The revenue experience for the Accounts is dependent upon the prime rate of interest established by TD from time to time because these Accounts are generally subject to an annual variable rate of interest that is a rate based on the TD "prime rate" of interest. The borrower may choose to convert all or part of a non-amortizing account into one or more amortizing portions at rates comparable to conventional mortgages. The Sellers may permit the credit limit to be exceeded, in which event any principal amount owing over the credit limit is unsecured. The following table sets forth the historical revenue experience for the Accounts for the periods indicated.
