

Investor Presentation

TD Bank Group – Q1 2026

Caution Regarding Forward-Looking Statements

From time to time, the Bank (as defined in this document) makes written and/or oral forward-looking statements, including in this document, in other filings with Canadian regulators or the United States (U.S.) Securities and Exchange Commission (SEC), and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media, and others. All such statements are made pursuant to the “safe harbour” provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements made in this document and/or on the conference call, the Management’s Discussion and Analysis (2025 MD&A) in the Bank’s 2025 Annual Report under the heading “Economic Summary and Outlook”, under the headings “Key Priorities for 2026” and “Operating Environment and Outlook” for the Canadian Personal and Commercial Banking, U.S. Banking, Wealth Management and Insurance, and Wholesale Banking segments, and in other statements regarding the Bank’s objectives and priorities for 2026 and beyond and strategies to achieve them, the regulatory environment in which the Bank operates, targets and commitments, the Bank’s anticipated financial performance and the outlook for the Bank’s operations or the Canadian, U.S. and global economies.

Forward-looking statements are typically identified by words such as “will”, “would”, “should”, “suggest”, “seek”, “believe”, “expect”, “anticipate”, “intend”, “ambition”, “strive”, “confident”, “estimate”, “forecast”, “outlook”, “plan”, “goal”, “commit”, “target”, “objective”, “timeline”, “possible”, “potential”, “predict”, “project”, “foresee”, “may”, and “could” and similar expressions or variations thereof, or the negative thereof, but these terms are not the exclusive means of identifying such statements. By their very nature, these forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the physical, financial, economic, political, and regulatory environments, such risks and uncertainties – many of which are beyond the Bank’s control and the effects of which can be difficult to predict – may cause actual results to differ materially from the expectations, predictions, forecasts, projections, estimates, targets, or intentions expressed in the forward-looking statements. Examples of such risk factors include: general business and economic conditions in the regions in which the Bank operates; geopolitical risk (including policy, trade and tax-related risks and the potential impact of any new or elevated tariffs or any retaliatory tariffs); inflation, interest rates and recession uncertainty; risks associated with the remediation of the Bank’s U.S. Bank Secrecy Act (BSA)/anti-money laundering (AML) program and Enterprise AML program; regulatory oversight and compliance risk; the ability of the Bank to execute on long-term strategies, shorter-term key strategic priorities, including the successful completion of acquisitions and dispositions and integration of acquisitions, the ability of the Bank to achieve its financial or strategic objectives with respect to its investments, business retention plans, and other strategic plans; risks associated with the insured deposit account agreement between the Bank and The Charles Schwab Corporation; technology and cyber security risk (including cyber-attacks, data security breaches or technology failures) on the Bank’s technologies, systems and networks, those of the Bank’s customers (including their own devices), and third parties providing services to the Bank; data risk; model risk; external fraud activity; insider risk; conduct risk; the failure of third parties to comply with their obligations to the Bank or its affiliates, including relating to the care and control of information, and other risks arising from the Bank’s use of third-parties; the impact of new and changes to, or application of, current laws, rules and regulations, including consumer protection laws and regulations, tax laws, capital guidelines and liquidity regulatory guidance; environmental and social risk (including climate-related risk); exposure related to litigation and regulatory matters; increased competition from incumbents and new entrants (including Fintechs and big technology competitors); shifts in consumer attitudes and disruptive technology; ability of the Bank to attract, develop, and retain key talent; changes in foreign exchange rates, interest rates, credit spreads, equity prices and commodity prices; downgrade, suspension or withdrawal of ratings assigned by any rating agency, the value and market price of the Bank’s common shares and other securities may be impacted by market conditions and other factors; the interconnectivity of financial institutions, including existing and potential international debt crises; increased funding costs and market volatility due to market illiquidity and competition for funding; and critical accounting estimates and changes to accounting standards, policies, and methods used by the Bank; and the occurrence of natural and unnatural catastrophic events and claims resulting from such events. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank’s results. For more detailed information, please refer to the “Risk Factors that May Affect Future Results” section of the 2025 MD&A, and the sections related to strategic, credit, market (including equity, commodity, foreign exchange, interest rate, and credit spreads), operational (including technology, cyber security, process, systems, data, third-party, fraud, infrastructure, insider and conduct), model, insurance, liquidity, capital adequacy, compliance, financial crime, reputational, environmental and social risk in the “Managing Risk” section of the 2025 MD&A, as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable) related to any events or transactions discussed under the headings “Significant Events” or “Update on the Remediation of the U.S. Bank Secrecy Act (BSA)/Anti-Money Laundering (AML) Program and Enterprise AML Program” in the relevant MD&A, which applicable releases may be found on www.td.com. All such factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements, should be considered carefully when making decisions with respect to the Bank. The Bank cautions readers not to place undue reliance on the Bank’s forward-looking statements.

Material economic assumptions underlying the forward-looking statements contained in this document and/or on the conference call are set out in the 2025 MD&A under the headings “Economic Summary and Outlook” and “Significant Events”, under the headings “Key Priorities for 2026” and “Operating Environment and Outlook” for the Canadian Personal and Commercial Banking, U.S. Banking, Wealth Management and Insurance, and Wholesale Banking segments, each as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable).

Any forward-looking statements contained in this document and/or on the conference call represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank’s shareholders and analysts in understanding the Bank’s financial position, objectives and priorities and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.

Scaled, Diversified North American Bank

Four key business lines

Canadian Personal & Commercial Banking

- The Personal Bank is a premier retail banking franchise delivering personalized solutions through a full suite of products and services across deposits, investing, payments and lending.
- Business Banking is a premier, client-centric franchise that delivers deep sector expertise, valuable advice, and a broad range of products and services to meet the needs of business owners.

U.S. Banking

- Includes the Bank's personal, business banking and wealth management operations in the U.S.

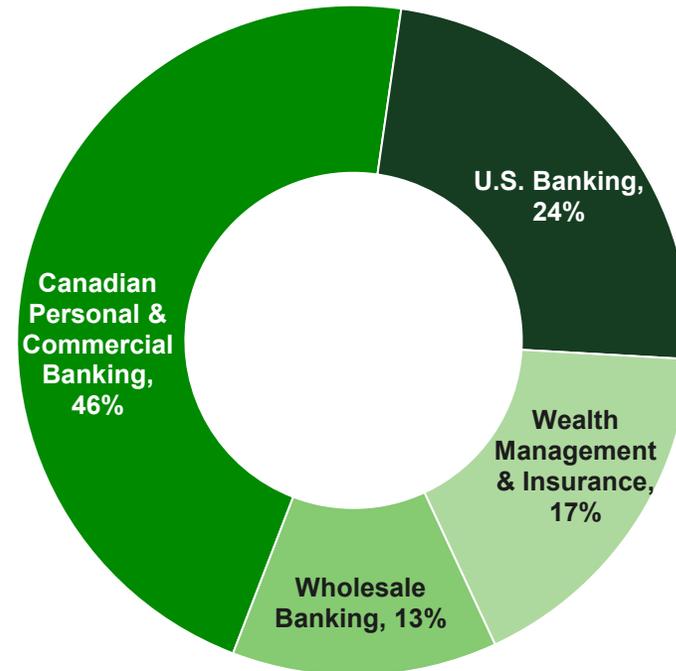

Wealth Management & Insurance

- Wealth Management offers wealth solutions to retail clients in Canada through the self-directed brokerage, advice-based, and asset management businesses.
- Insurance offers property and casualty insurance through direct channels and to members of affinity groups, as well as life and health insurance products to customers across Canada.

Wholesale Banking

- Operating under the brand names TD Securities and TD Cowen, Wholesale Banking offers global markets and corporate and investment banking services to its corporate, government, and institutional clients.

Q1 2026 Reported Earnings Mix¹

Deeper, Faster, Disciplined

Deeper Relationships

In Canada, record penetration rates for consumer & small business credit cards

U.S. Bankcard penetration +192 bps YoY

In Wholesale Banking, scaled prime services, launching synthetic prime offering in U.S. & Europe

Simpler & Faster

Rolled out Gen AI Virtual Assistant across 1000+ branches in Canada

Launched initial scaling of Agentic AI in RESL in Canada

Disciplined Execution

Driving strong cost management & deeper understanding of unit costs

ROE¹ +860 bps (Adj² +210 bps) YoY in U.S. Banking & +530 bps (Adj² +430 bps) YoY in Wholesale Banking

Medium-term (F'29) Targets³

Canadian P&C Banking – F'26 Strategic Priorities

Deeper Relationships

Outgrow Canadian population growth in net new clients and lead in core banking and primacy

Deepen client relationships across CPB, CBB, and Wealth Management

Transform RESL homebuying and retention through specialization and speed while delivering strong returns

Accelerate Credit Card growth by streamlining processes, and modernizing policies and technology

Expand CBB distribution by investing in frontline bankers and focusing on relationship banking

Simpler & Faster

Modernize and automate processes and platforms, and leverage AI to deliver efficient, seamless, and personalized experiences

Deliver simpler and faster client experiences for onboarding and mobile first experiences

Leverage AI and automation to enhance auto-adjudication rates in TD Auto Finance and Small Business Banking, while streamlining CBB credit processes

Disciplined Execution

Leverage automation, digital tools and AI-at-scale to drive cost savings and improve efficiency

Redesign key business processes and streamline operations to realize cost reduction

Deliver disciplined expense management through resource optimization and third-party spend reduction

Drive distribution transformation to meet clients' evolving needs and create reinvestment opportunities

U.S. Banking – F'26 Strategic Priorities

Deeper Relationships

Reimagine retail, providing capacity to deliver advice enabled by digital capabilities

Scale Bankcard franchise and expand Nordstrom partnership

Deepen mass-affluent penetration by scaling advisors, improving referrals, and tailoring investment products and services

Accelerate Commercial Bank profitability with profitable relationships, expanded lead agent roles through TD Securities partnership

Simpler & Faster

Continue balance sheet restructuring efforts that simplify the business

Deploy AI to automate operational processes and improve productivity and insights for front-line colleagues

Transform data and technology architecture to deliver a scalable, cloud-native, modular environment

Disciplined Execution

Continue remediating the U.S. BSA/AML program and strengthening the governance and control environment

Improve efficiency by meeting the cost takeout target

Optimize store network, drive unit cost improvement and re-engineer processes and reduce third party spend

Wealth Management & Insurance – F'26 Strategic Priorities

Deeper Relationships

Deepen client relationships with CPB, CBB and TD Insurance, and drive referrals from Direct Invest to Advice businesses within Wealth

Expand advisor base in Wealth by leveraging talent development and acquisition programs

Accelerate Direct Investing client acquisition through the launch of the new TD Easy Trade app and enhancements to the Long-Term and Active Trader platforms

Drive mutual funds and ETF asset growth in Canada and drive Institutional asset management growth globally

Drive growth in profitable segments and regions in Insurance through digital marketing excellence and execution of new client acquisition strategies

Simpler & Faster

Simplify client experiences in Wealth by deploying new self-serve, digital onboarding and account funding capabilities

Increase advisor capacity in Wealth by reinventing businesses process and launching new digital capabilities, leveraging AI

Complete the unification of Private Wealth Management's discretionary offerings and realize \$40MM of run-rate platform savings

Introduce new client-facing AI capabilities in Insurance to drive increased adoption of digital self-service tools and increase digital share of transactions

Disciplined Execution

Reduce structural costs in Wealth through productivity initiatives, distribution transformation and leveraging automation and AI

Strengthen risk and control environment by modernizing infrastructure and enhancing governance

Sustainably lower expense base in Insurance by re-envisioning business processes with AI and increasing automation

Mitigate losses from climate change in Insurance by managing geographic footprint and supporting clients with risk-reduction advice

Wholesale Banking – F'26 Strategic Priorities

Deeper Relationships

Strengthen client relationships by aligning resources to priority sectors

Continue to streamline and enhance the global transaction banking platform

Expand fixed income product suite and advance e-trading capabilities across Global Markets

Scale Prime Services by building a globally integrated platform with new capabilities

Simpler & Faster

Continue to simplify organizational structure and hire top talent

Upgrade core systems to simplify processes and modernize infrastructure

Move to an agile, product-led delivery model to build smarter tools that streamline workflows

Invest in AI tools and training to support productivity

Disciplined Execution

Strengthen risk management and compliance by increasing agility, automating processes, and enhancing controls

Reduce costs through process simplification, technology modernization, real estate and vendor optimization, and AI-driven efficiencies

Advance disciplined approach to capital deployment through client level returns focus and strategic balance sheet deployment

Q1 2026 Performance

Q1 2026 Updates

Strong trading and fee income in markets-driven businesses, volume growth in Canadian P&C Banking, and margin expansion

Positive operating leverage

Impaired PCLs increased QoQ reflecting small number of borrowers across various industries. No change to F'26 PCL guidance

CET1 ratio of 14.5%, with strong adjusted organic capital accretion & repurchase of 19MM shares in Q1 (including 4MM under new NCIB)

F'26 Targets³

~13% Adj ¹ ROE	6-8% Adj ¹ EPS Growth	3-4% Adj ¹ Expense Growth ⁴	Positive Adj ¹ Operating Leverage	40-50bps PCL Ratio ^{5,6}	13%+ CET1 Ratio
-------------------------------------	--	---	--	---	---------------------------

Driving structural cost reduction across TD

Completed Restructuring Program

Program size

- \$200MM pre-tax / \$148MM after-tax restructuring charges in Q1'26
- Total restructuring program charges of \$886MM pre-tax

Impact on expenses

- Expect F'26 savings of ~\$500MM pre-tax¹
- Expect fully realized annual cost savings of ~\$775MM pre-tax¹ (87% savings yield)
- Creates capacity to invest to evolve the Bank and accelerate capabilities

Savings drivers

- Employee severance and other personnel-related costs, real estate optimization, asset impairment and other rationalization, including certain business wind-downs
- ~3% FTE reduction including attrition and talent redeployment

Disciplined Cost Management

- Targeting ~\$2-2.5B in annualized cost savings over the medium-term, delivered across 6 key cost initiatives: (1) Distribution Transformation, (2) Automation & AI, (3) Technology & Data Modernization, (4) Procurement, (5) Global Delivery Workforce, & (6) Cost Moderation²
 - Expect F'26 savings of ~\$900MM pre-tax (~\$400MM savings in addition to ~\$500MM restructuring savings)²

U.S. BSA / AML Remediation¹

Management remediation actions, including demonstrated sustainability, will continue through 2026 and 2027

2024

2025

2026

2027

2028

Internal Audit Validation and Monitor and Regulatory Engagement
Following Monitor and Regulatory Review, additional management remediation actions may be required that would take place after 2027

Examples of Completed Actions:

- Deployed first phase of **new KYC platform** to certain business users, enabling single Know Your Customer profile
- Adopted new **data driven** financial crime risk assessment methodology & processes
- Enhanced customer screening procedures, including new **automated system capabilities** for customer onboarding

Examples of what is in flight

- Additional deployment of new **Know Your Customer** strategic platform
- Further deployments of **machine learning and specialized AI**
- Continued focus on **lookback reviews** as required under the OCC and FinCEN consent orders
- Roll-out of **dedicated financial crime risk management data environments** in support of advanced detection capabilities
- Continued **training and development** of colleagues

The U.S. BSA/AML remediation program remains subject to risks and uncertainties, including the review by the Monitor, and approval by our Regulators, FinCEN and the DOJ

Executing AI-at-scale and innovating for our Clients

AI

Aim to deliver \$1B in value¹

Medium-term target value¹

~\$500MM & ~\$500MM
Annualized Revenue Uplift Annualized Cost Savings

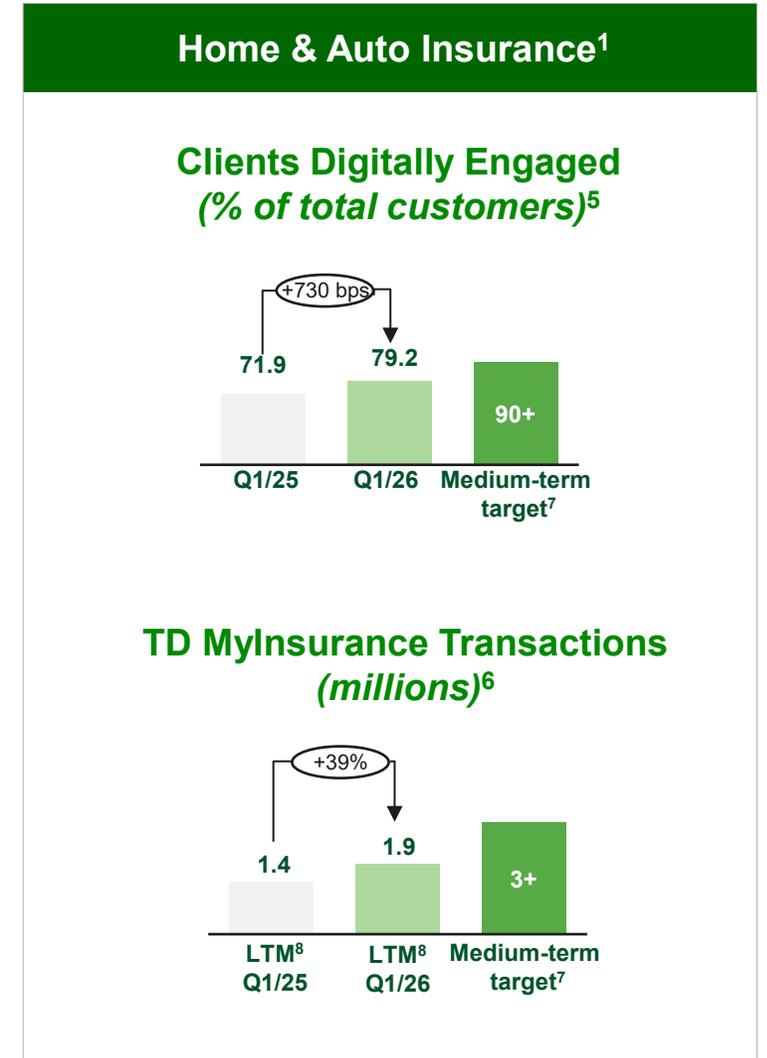

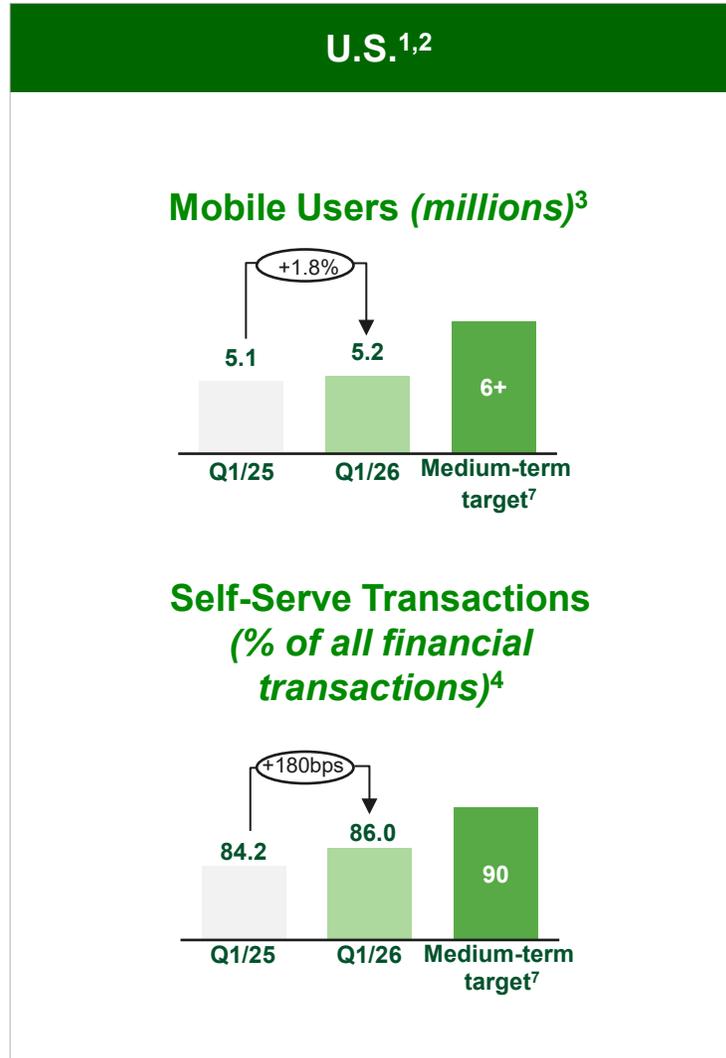

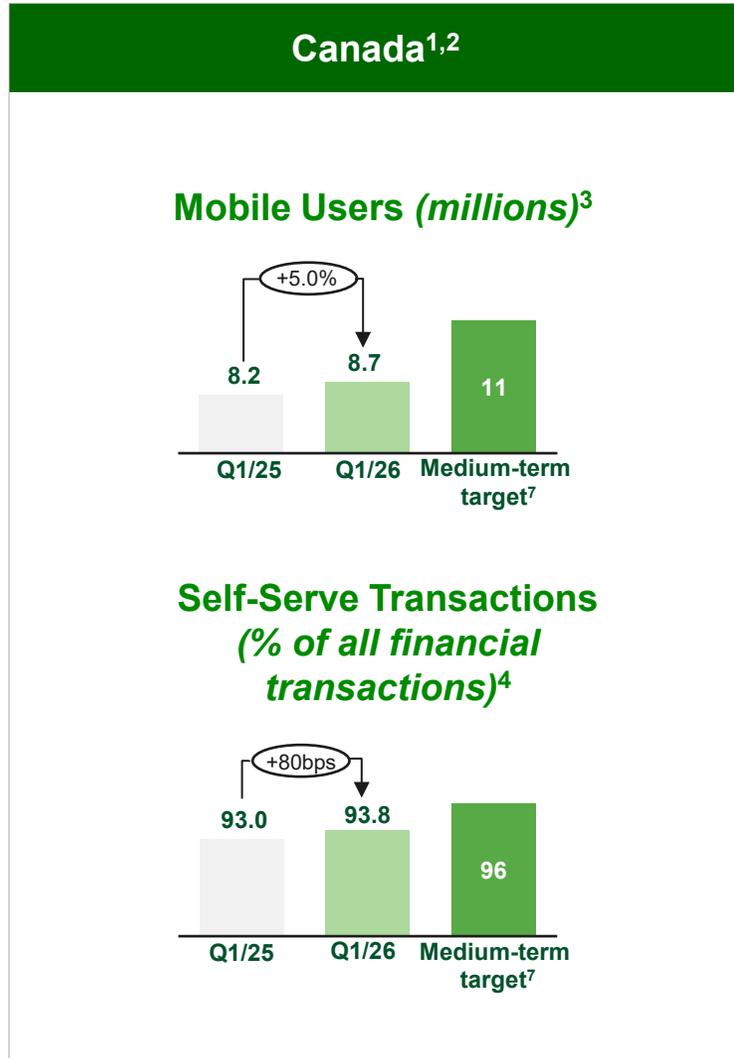

TD Invent

Our strategic, bank-wide umbrella effort to power innovation

TD Invent

- U.S. Banking now offers **Shop with Points at Amazon** in the U.S. for eligible TD credit cardholders to instantly redeem their points at checkout on Amazon.com.
- TD's **patent portfolio** now includes 3,600 assets, reflecting a 20-year commitment to disciplined, long-term innovation.

Digital leadership enables deeper engagement and growth

Q1 2026 Brand and Sustainability Highlights

Announced multi-year agreement with Charm to purchase carbon removal credits

Purchased ~US\$23MM MassDevelopment bond to support affordable housing in Massachusetts

Announced expansion of low-cost and no-cost banking options for Indigenous Peoples from Canada

Wholesale Portfolio	93.3	103.4
Total²	962.0	967.5

Allowance for Credit Losses (ACL)

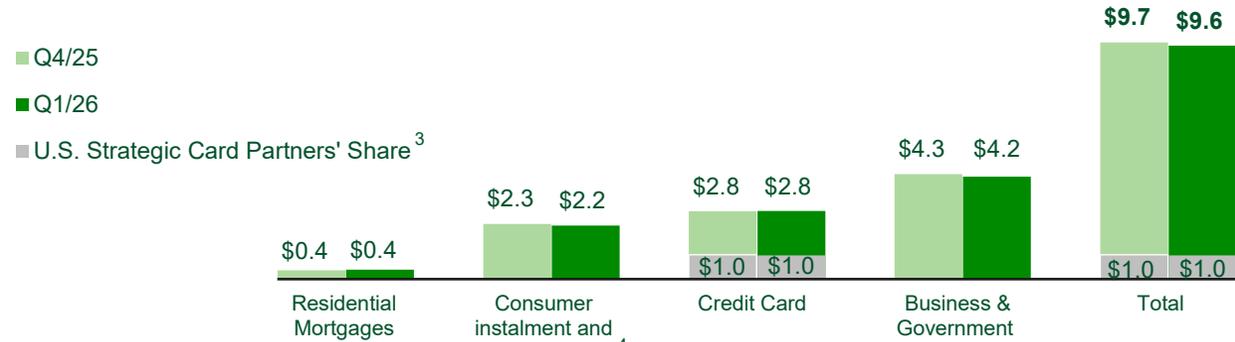

Highlights

- ACL decreased \$144 million quarter-over-quarter, reflecting:
 - A \$156 million impact of foreign exchange
 - Improvement in the macroeconomic forecasts
 - Partially offset by higher impaired allowance in the Wholesale Banking and U.S. commercial lending portfolios
- While there are many potential scenarios that may impact the economic trajectory and credit performance, the Bank's fiscal 2026 PCLs are expected to be in the range of 40 to 50 basis points, consistent with prior guidance⁵

ACL¹: \$B and Coverage Ratios²

ACL by Asset Type: \$B

TD Bank Group

Key Themes

> Overview of TD Bank Group

> Credit Update

> **Strong Balance Sheet & Capital Position**

Capital¹

Disciplined capital and liquidity management

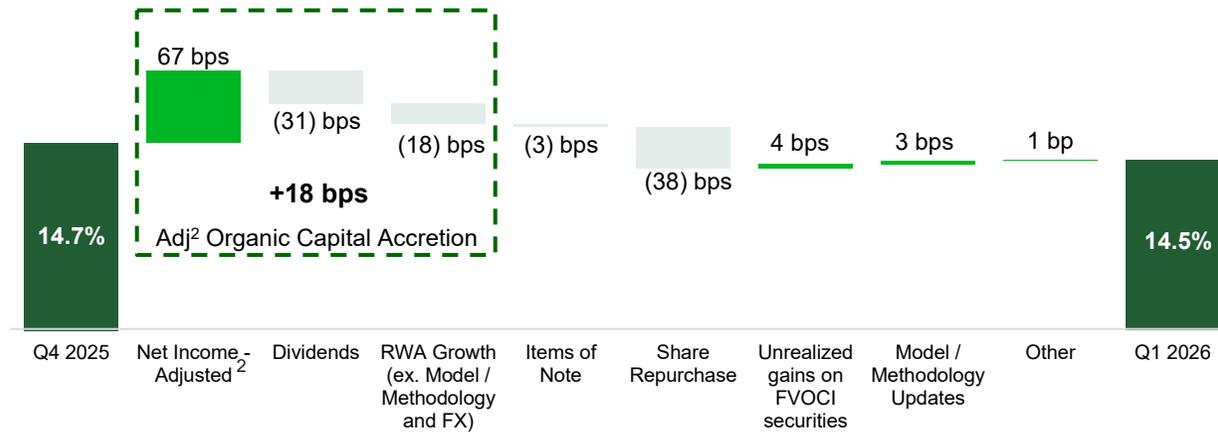

CET1 ratio 14.5%, down 15 bps QoQ

- Strong adjusted² earnings net of dividends, partially offset by RWA growth (excl. model / methodology updates and FX), delivering strong adjusted² organic capital accretion
- Share buyback programs decreased CET1 by 38 bps
- Favourable impacts from unrealized gains on fair value through other comprehensive income (FVOCI) securities, as well as credit risk model and methodology updates

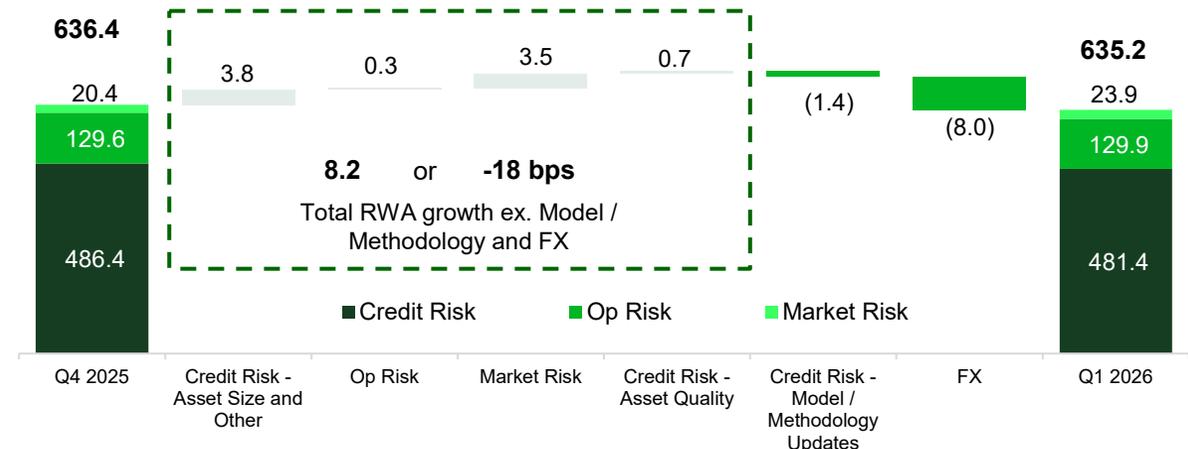

RWA decline of \$1.2B QoQ

- Modest increases across all risk types, including some migration
- Model updates, partially offset by methodology impacts, reduced RWA
- Favourable FX translation, which is hedged for CET1 ratio

QoQ CET1 ratio

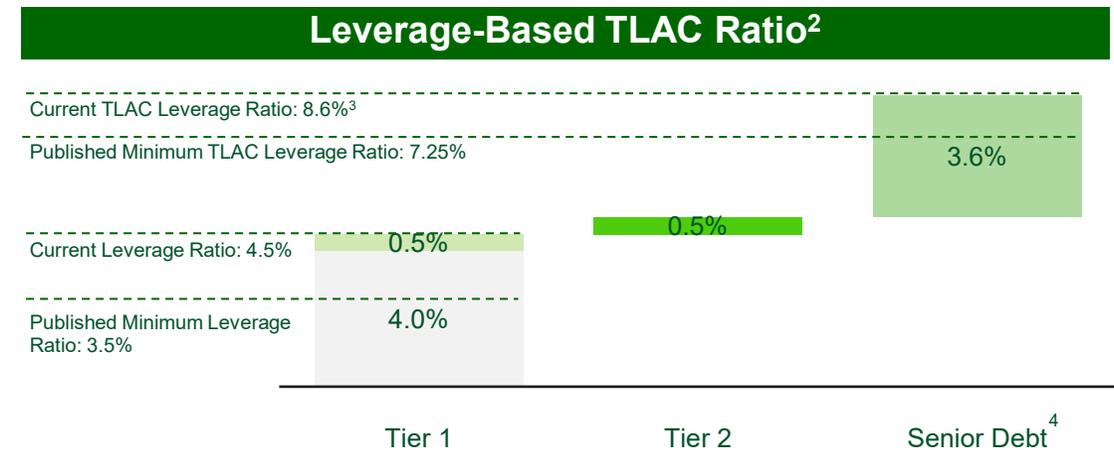

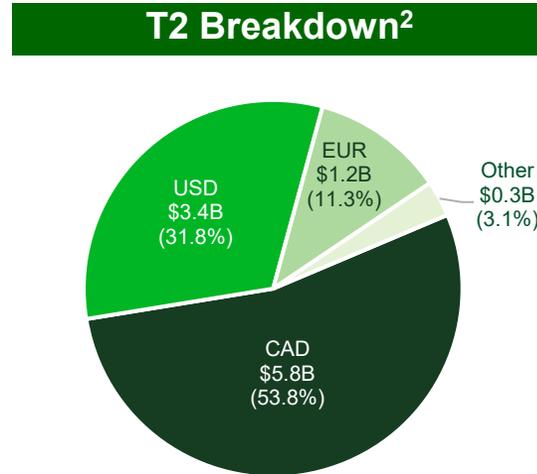

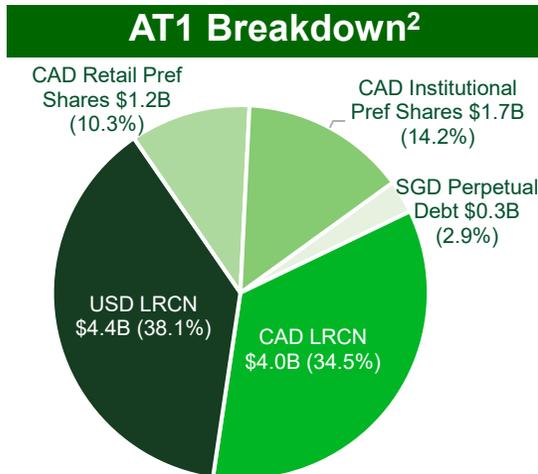

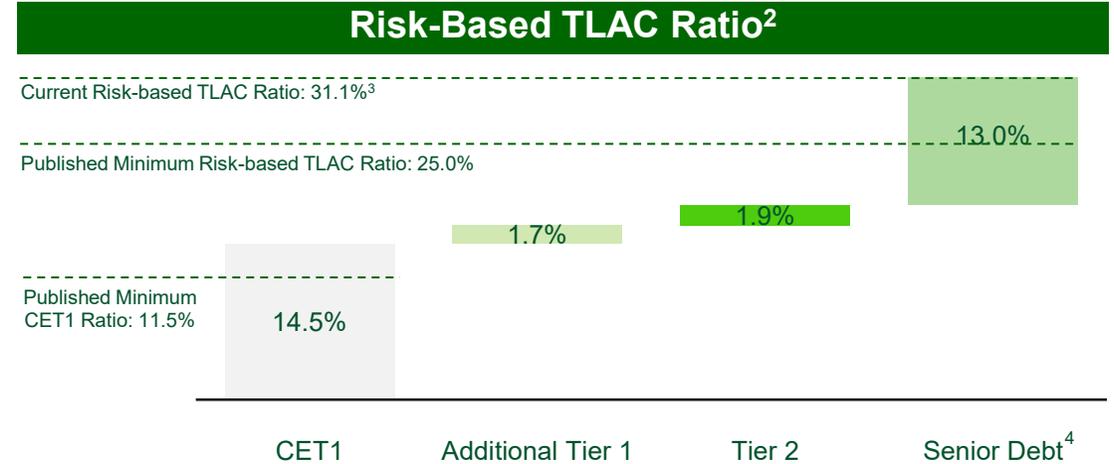

QoQ RWA (\$B)³

Capital¹

Non-CET1 Capital Management

- TD's capital instruments are diversified by structure, market, and currency, contributing to the resilience and stability of its capital position.
- Canadian D-SIBs were required to meet their regulatory TLAC requirements by November 1, 2021.
- As of Q1 2026, TD's risk-based and leverage-based TLAC ratios both exceed the regulatory minimum.

Disciplined Liquidity Management

Large base of personal and business deposits¹ that make up 70% of the Bank's total funding

- TD Canada Trust ranked #1 in Core Deposits² – more than 80% of clients onboard with a chequing or savings account, powering our leading core deposit franchise
- U.S. Banking is a top 10 bank³ in the U.S. with >10MM customers⁴, operating retail stores in 15 states and the District of Columbia

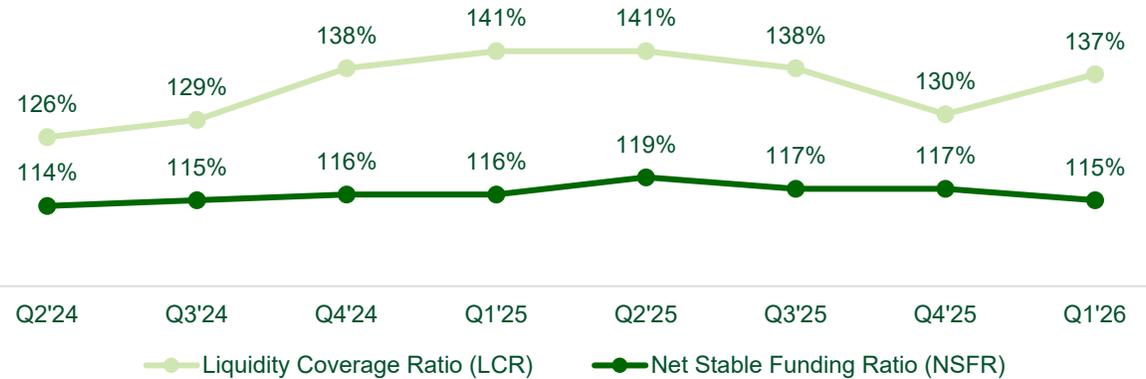

Retail deposits remain the primary source of long-term funding for the Bank's non-trading assets

- Deposits provide the Bank with a strong base of funding at low cost and the Bank is able to manage the balance of its funding requirements through wholesale funding markets in various channels, currencies and tenors

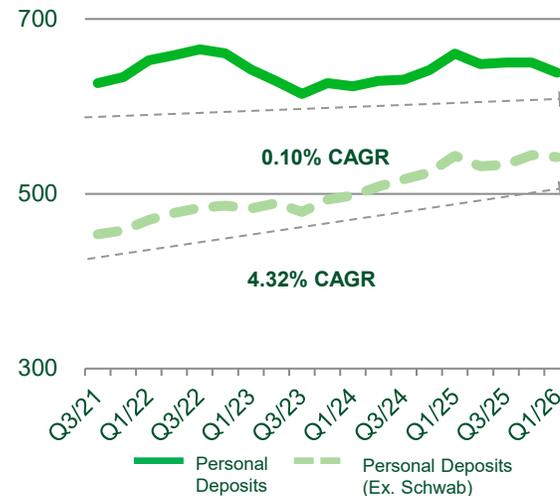

Q1 Average Liquidity coverage ratio of 137%

- Target a 90-day liquidity survival horizon under a combined Bank-specific and market-wide stress scenario, and a minimum buffer over regulatory requirements

Low Risk, Deposit Rich Balance Sheet

Large base of stable retail and commercial deposits

- Personal and business deposits are TD's primary sources of funds
 - Customer service business model delivers stable base of “sticky” and franchise deposits
- Wholesale funding profile reflects a balanced secured and unsecured funding mix
- Maturity profile is well balanced

Maturity Profile^{1,2} (C\$B) (To first par redemption date)

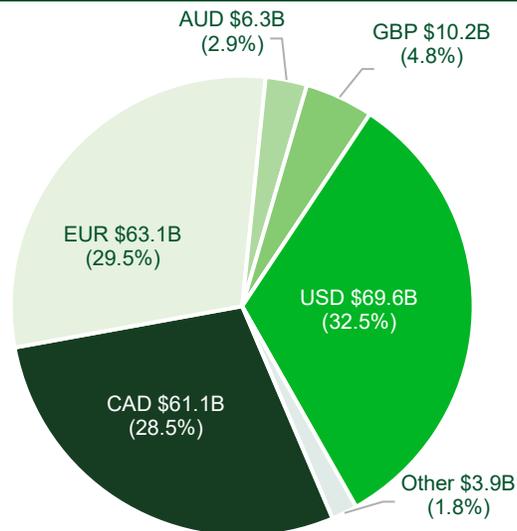

Wholesale Term Debt Composition

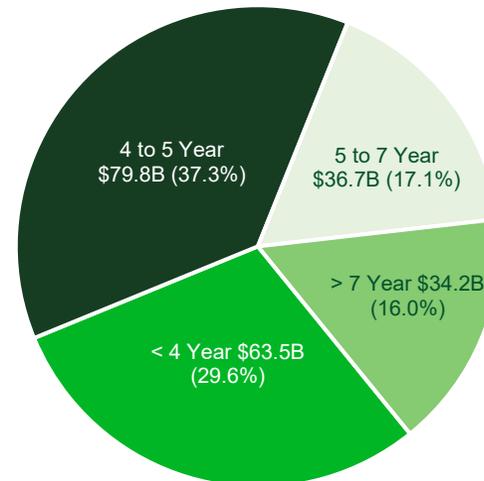

Funding Strategy

- Wholesale term funding through diversified sources across domestic and international markets
- Manage to a stable funding profile that emphasizes funding assets and contingencies to the appropriate term
- Well-established C\$100B Legislative Covered Bond Program is an important pillar in global funding strategy
- Programmatic issuance in the U.S. market for the established ABS program backed by Canadian credit card receivables
- Broadening of investor base through currency, tenor and structure diversification
- Recent transactions:
 - GBP 1.25B 5Y Float Covered Bond
 - CAD 3.00B 5Y Fixed Senior MTN
 - USD 1.60B 2Y Fixed/Float Senior MTN
 - USD 0.90B 5Y Fixed Senior MTN

TD Global Legislative Covered Bond Program

Highlights

- Pool comprises 100% uninsured 1st lien Canadian Residential Mortgages originated by TD
- All loans have original LTVs of 80% or lower. Current weighted average LTV is 56.55%¹
- The weighted average of non-zero credit scores is 781
- C\$100B program; C\$73B aggregate principal outstanding²; total pool C\$109B
- TD's Covered Bond Ratio is 3.64% (5.5% limit)
- Strong credit ratings; Aaa/ AAA / AAA by Moody's / DBRS / Fitch respectively³
- Covered Bond Label affiliate⁴ reporting using the Harmonized Transparency Template; complies with minimum disclosure/transparency standards per Article 14 of the EU Covered Bond Directive

Credit Score

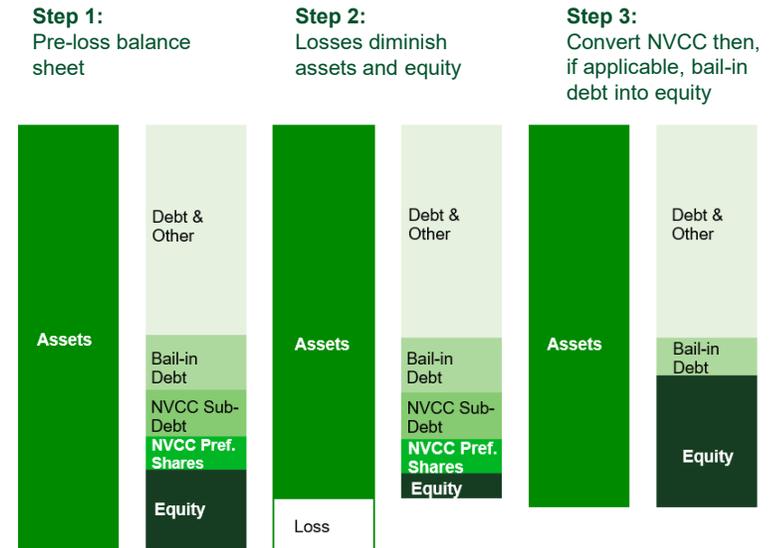

Bail-in Overview

Scope of Bail-in

- **In Scope Liabilities.** Senior unsecured long-term debt (original term to maturity of 400 or more days) that is tradable and transferable (has a CUSIP, ISIN or other similar identification) and issued on or after September 23, 2018¹. Unlike other jurisdictions, Canadian D-SIBs cannot elect to issue non bail-in unsecured senior debt
- **Excluded Liabilities.** Bank customers' deposits including chequing accounts, savings accounts and term deposits such as guaranteed investment certificates ("GICs"), secured liabilities (e.g., covered bonds), ABS or most structured notes
- All in scope liabilities, including those governed by foreign law, are subject to conversion and must indicate in their contractual terms that the holder of the liability is bound by the application of the CDIC Act

Bail-in Conversion Terms

- **Flexible Conversion Terms.** CDIC has discretion in determining the proportion of bail-in debt that is converted, as well as an appropriate conversion multiplier² which respects the creditor hierarchy and that is more favourable than the multiplier provided to NVCC capital investors
- **No Contractual Trigger.** Bail-in conversion is subject to regulatory determination of non-viability, not a fixed trigger
- **Full NVCC Conversion.** There must be a full conversion of NVCC capital instruments before bail-in debt can be converted. Through other resolution tools, holders of legacy non-NVCC capital instruments could also be subject to losses, resulting in bail-in note holders being better off than such junior-ranking instruments
- **No Creditor Worse Off.** CDIC will compensate investors if they incur greater losses under bail-in than under a liquidation scenario. Bail-in debt holders rank pari passu with other senior unsecured obligations, including deposits, for the purposes of the liquidation calculation
- **Equity Conversion.** Unlike some other jurisdictions, bail-in is affected through equity conversion only, with no write-down option

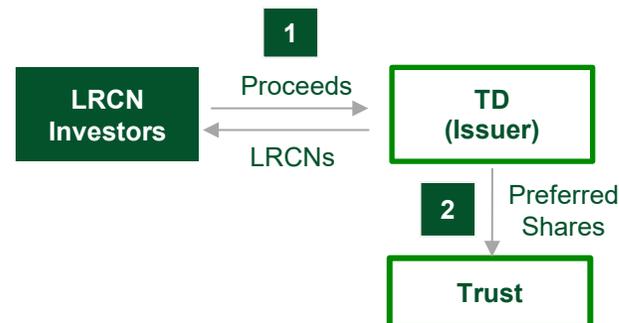

Limited Recourse Capital Notes (LRCNs)

LRCN Overview

- LRCN holders' interests rank equally with other LRCNs and Preferred Shares and are senior to common shares. LRCNs are issued only to institutional investors with no trading restrictions within the U.S. nor, after 4 months, within Canada
- LRCN's qualify as AT1 capital, while being tax deductible for banks. LRCNs are not currently subject to withholding tax and, if it were levied in the future, the Bank would pay additional gross-up amounts to make holders whole (LRCNs only, not on recourse assets), subject to certain exceptions.
- Limited Recourse: Upon a Recourse Event, investors in LRCNs have recourse only to the assets held in the Trust, initially Preferred Shares¹; TD can also exchange the Preferred Shares into AT1 perpetual debt, subject to OSFI approval
- Recourse Events are defined as follows:
 1. Non-payment in cash of interest (5 business day cure right)
 2. Non-payment in cash of the principal on the maturity date
 3. Non-payment of redemption proceeds in cash
 4. Event of Default (bankruptcy, insolvency or liquidation)
 5. A Trigger Event²

LRCN Structure

1 TD (Issuer)

- TD issues LRCNs to investors and receives proceeds in return
- Coupon payments are paid by TD, generated through internal cash flow

2 Limited Recourse Trust (Trust)

- The Trust is established by TD and acquires Non-Cumulative 5-Year NVCC Fixed Rate Reset Preferred Shares from TD ("LRCN Preferred Shares")
- Upon a Recourse Event, the Limited Recourse assets held in the Trust are delivered to investors
- The dividend rate (including reset spread and benchmark reference) and payment frequency on the LRCN Preferred Shares match LRCNs

Non-Viability Contingent Capital (NVCC)

- Credit hierarchy is codified as a principle in regulatory and legislative documents in Canada
- Point of Non-Viability trigger occurs when OSFI determines the bank is no longer viable or if the bank accepts a government capital injection
 - Importantly, liquidity assistance would not automatically constitute a non-viability trigger
- Canadian NVCC notes are well-aligned to familiar features in international comparables:
 - No incentives to redeem permitted (i.e., no step up of coupon rate/spread)
 - Minimum term of at least 5 years; may be callable after 5 years
 - Capital treatment is straight-line amortized in the final 5 years prior to maturity

In March 2023, OSFI issued this statement illustrating regulatory intent of the resolution regime in Canada:

If a deposit-taking bank reaches the point of non-viability, OSFI's capital guidelines require Additional Tier 1 and Tier 2 capital instruments to be converted into common shares in a manner that respects the hierarchy of claims in liquidation. This results in significant dilution to existing common shareholders. Such a conversion ensures that Additional Tier 1 and Tier 2 holders are entitled to a more favorable economic outcome than existing common shareholders who would be the first to suffer losses.¹

NVCC Loss Absorption Jurisdictional Comparison²

::	Canada	Switzerland	EU	UK	US	Australia
Regulator	OSFI	FINMA	SRB & SSM	PRA	FDIC	APRA
Loss absorption trigger	NVCC Trigger Event	CET1 Trigger Event & Non-Viability Event	CET1 Trigger Event & Non-Viability Event	CET1 Trigger Event & Non-Viability Event	-	CET1 & Non-Viability Trigger Event

Net Interest Income Sensitivity (NIIS)

Strong deposit base and disciplined ALM management

NIIS impact from 25 bps change in short-term interest rates ¹				
(\$ in CAD MM)	Q1'26		Q4'25	
	+25bps	-25bps	+25bps	-25bps
CAD	\$52	(\$52)	\$54	(\$55)
USD	\$39	(\$40)	\$40	(\$40)
Total	\$91	(\$92)	\$94	(\$95)

▪ For Q1'26, \$190MM increase or \$197MM decrease if across the curve

Canadian Overnight Repo Rate Average (%)

U.S. Secured Overnight Financing Rate (%)

NIIS impact from 100 bps change in interest rates across the curve ¹				
(\$ in CAD MM)	Q1'26		Q4'25	
	+100bps	-100bps	+100bps	-100bps
CAD	\$382	(\$417)	\$400	(\$441)
USD	\$363	(\$398)	\$390	(\$419)
Total	\$745	(\$815)	\$790	(\$860)

CAD 5-Year Swap Rate (%)

U.S. 7-Year Swap Rate (%)

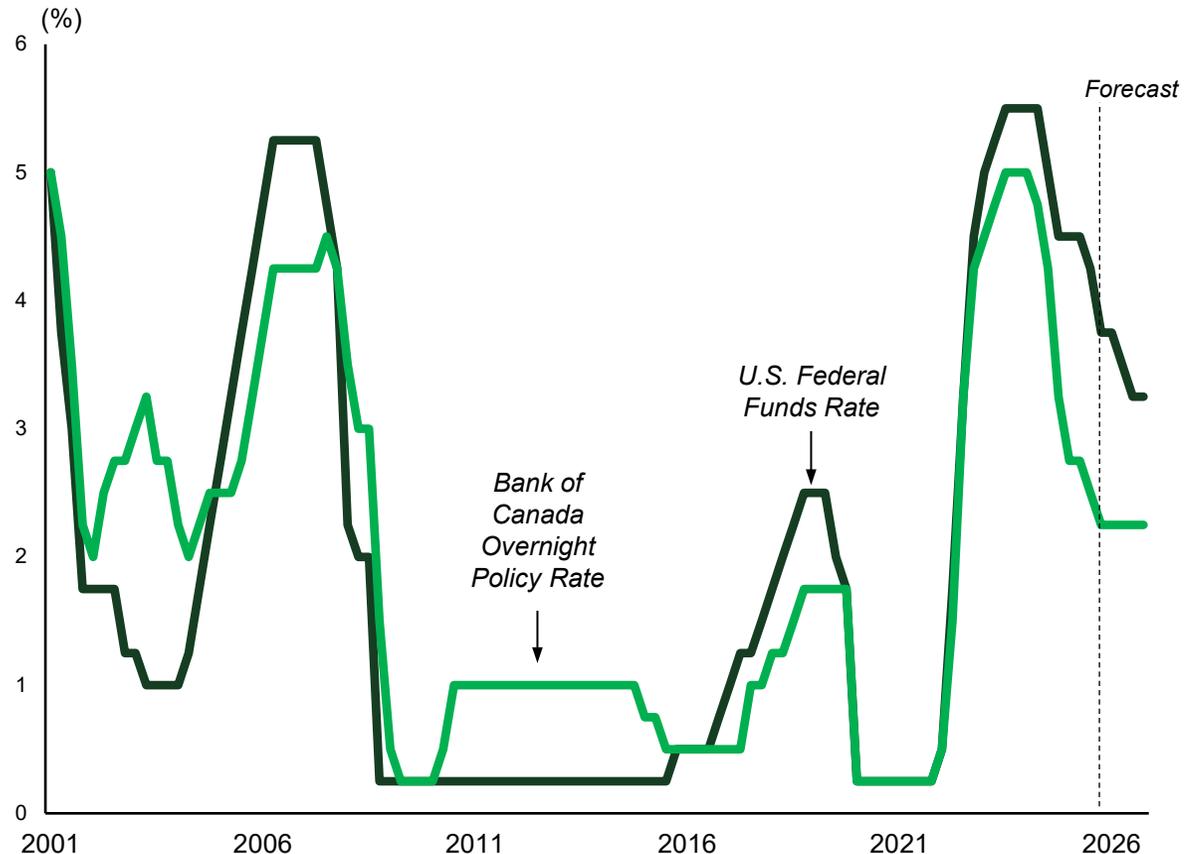

Note: The NIIS impact of the +100bps increase will not move proportionally to the impact of the next +25bps rate hike due to the positive added benefit of longer-term rates increasing, partially offset by other factors, including loan prepayment risk and deposit pricing sensitivity.

Appendix

Economic Outlook

Interest Rate Outlook¹

Interest Rates, Canada and U.S.

- The Federal Reserve (Fed) reduced the target for the federal funds rate to 3.5%-3.75% in December 2025 and held it steady in January 2026. We expect the Fed to deliver two more cuts beginning in mid-2026.
- The Bank of Canada (BoC) held the overnight rate steady at 2.25% in December and January. We anticipate the current policy setting to be maintained for the remainder of this year.

By the end of 2026, we expect the Federal Reserve will have reduced its policy rate to 3.25% and the Bank of Canada to hold at 2.25%.

TD Economics Update¹

Global Outlook: Strong start to 2025 followed by slowing growth

- Global growth is expected to slow in 2026, as decelerating cyclical momentum is being reinforced by higher tariffs.
- The slowdown in global growth is largely driven by slowing growth in Asia, especially the fast-growing export-oriented emerging market economies that are affected by U.S. tariffs.
- Past central bank rate cuts will continue to support growth, but that impact is likely to wane for most developed market economies as central banks there are largely done cutting rates, and some are likely to be raising rates this year. A number of major developing market central banks may still be cutting interest rates this year, such as Brazil, India, and Mexico.

U.S. economy to remain strong in 2026

- U.S. economic growth is expected to expand by 2.8% in 2026, an acceleration from 2025's 2.2%.
- The U.S. economy has entered 2026 with considerable momentum, buoyed by a resilient consumer and sustained investments in AI. While headwinds to growth from tariffs and trade uncertainty remain, its effects are likely to be eclipsed by fiscal tailwinds from the One Big Beautiful Bill Act, easier financial conditions, a lighter touch on regulation and further investments in AI.
- With the labour market stabilizing in recent months, and inflationary pressure still elevated, the Federal Reserve is likely to keep the policy rate unchanged at its current target range of 3.5%-3.75% through mid-year. We expect two additional quarter-point rate cuts by year-end.

Canadian economy struggles under high U.S. tariffs

- Trade uncertainty persists and is expected to continue to weigh on the economy. Growth is anticipated to register 1.1% in 2026 and 1.8% in 2027. Strong job gains in recent months have helped push the unemployment rate lower, reaching 6.5% in January. Employment growth is expected to slow, but the unemployment rate is forecast to remain relatively steady due to weak labour force growth.
- Headline consumer price inflation was 2.3% (y/y) in January, while the Bank of Canada's core measures of inflation cooled to an average of 2.5%. With economic uncertainty still high, and inflation on a downward path, we expect the Bank of Canada to leave interest rates unchanged for the remainder of the year.

Endnotes

Endnotes on Slides 3 to 6

Slide 3

1. Deposits based on total of average personal and business deposits during the quarter. U.S. Banking includes Schwab Insured Deposit Accounts (IDAs).
2. Total Loans based on total of average personal and business loans during the quarter.
3. Includes assets under administration (AUA) administered by TD Investment Services Inc., which is part of the Canadian Personal and Commercial Banking segment.
4. For additional information about this metric, refer to the Glossary in the Bank's Q1 2026 MD&A, which is incorporated by reference.
5. For trailing four quarters.
6. Average number of full-time equivalent staff in these segments during the quarter.
7. U.S. Banking customer counts include Consumer Banking, TD Auto Finance, and Wealth Consumer Customers.
8. Total ATMs includes branch, remote and TD Branded ATMs in Canada. Total ATMs includes store, remote, mobile and TD Branded ATMs in the U.S.
9. Users who have logged in via their mobile device at least once in the last 90 days.

Slide 4

1. Canadian Peers defined as other 4 big banks; Royal Bank of Canada (RY), Bank of Montreal (BMO), The Bank of Nova Scotia (BNS) and Canadian Imperial Bank of Commerce (CM).
2. North American Peers – defined as Canadian Peers and U.S. Peers. U.S. Peers defined as Citigroup Inc., Bank of America Corporation, JPMorgan Chase & Co., Wells Fargo & Company and U.S. Bancorp.
3. The Bank prepares its Interim Consolidated Financial Statements in accordance with International Financial Reporting Standards (IFRS), the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as the "reported" results. The Bank also utilizes non-GAAP financial measures such as "adjusted" results (i.e., reported results excluding "items of note") and non-GAAP ratios to assess each of its businesses and to measure overall Bank performance. The Bank believes that non-GAAP financial measures and non-GAAP ratios provide the reader with a better understanding of how management views the Bank's performance. Non-GAAP financial measures and non-GAAP ratios used in this presentation are not defined terms under IFRS and, therefore, may not be comparable to similar terms used by other issuers. Refer to the "Significant Events", "How We Performed" or "How Our Businesses Performed" sections of the Bank's Q1 2026 MD&A (available at <https://www.td.com/investor-relations> and www.sedarplus.ca), which is incorporated by reference, for further explanation, a list of the items of note, and a reconciliation of adjusted to reported results.
4. This measure has been calculated in accordance with OSFI's Capital Adequacy Requirements guideline.

Slide 5

1. For the purpose of calculating contribution by each business segment, earnings from the Corporate segment are excluded. Numbers may not add to 100% due to rounding.

Slide 6

1. Please refer to Slide 3, Endnote 4
2. Please refer to Slide 4, Endnote 3.
3. The Bank's fiscal 2026 and medium-term financial targets are based on forward-looking assumptions that have inherent risks and uncertainties. Results may vary depending on actual economic conditions, including the level of unemployment, interest rates, and economic growth or contraction, the operating environment, including regulatory requirements, political environment, and competitive landscape, and the Bank's assumptions on future business performance, including credit conditions and performance, inclusive of policy and trade uncertainty and borrower or industry specific credit factors and conditions, and foreign exchange impact. These assumptions are subject to inherent uncertainties and may vary based on factors outside the Bank's control, including those set out at the beginning of this presentation. For additional information about risks and uncertainties that may impact the Bank's estimates refer to Slide 1 of this presentation and in the "Risk Factors That May Affect Future Results" section of the Bank's Q1 2026 MD&A.
4. Pre-tax, pre-provision earnings (PTPP) is a non-GAAP financial measure that is typically calculated by subtracting expenses from revenues. At the total Bank level, TD calculates PTPP as the difference between adjusted revenue (for U.S. Banking in US\$) net of insurance service expense (ISE), and adjusted expenses (for U.S. Banking in US\$), grossed up by the retailer program partners' share of PCL for the Bank's U.S. strategic card portfolio. Collectively, these adjustments provide a measure of PTPP that management believes is more reflective of underlying business performance.
5. Operating Leverage is a non-GAAP measure that the Bank calculates as the difference between the percentage change in adjusted revenue (U.S. Banking in US\$) net of insurance service expense, and adjusted expenses (U.S. Banking in US\$) grossed up by the retailer program partners' share of PCL for the Bank's U.S. strategic card portfolio. Collectively, these adjustments provide a measure of operating leverage that management believes is more reflective of underlying business performance.
6. Efficiency ratio (net of ISE) is a non-GAAP ratio. The adjustment of insurance service expense (ISE) provides a measure of efficiency that management believes is more reflective of underlying business performance.
7. TD calculates adjusted organic capital accretion as adjusted net income after-tax less dividends less risk-weighted assets (RWA) growth (excluding Model / Methodology updates and FX), which is converted to basis points (bps) impact to Common Equity Tier 1 (CET1) capital. Capital Accretion measures performance of generating incremental capital.

Endnotes on Slides 11 to 13

Slide 11

1. Please refer to Slide 4, Endnote 3.
2. Please refer to Slide 3, Endnote 4.
3. Please refer to Slide 6, Endnote 3.
4. In estimating its expense growth expectations, the Bank has assumed that the following three factors on the Bank's fiscal 2026 adjusted expenses will be the same as the Bank's fiscal 2025 adjusted expenses: (i) variable compensation in Wholesale Banking and Wealth Management, (ii) foreign exchange translation, and (iii) gross-up of the retailer program partners' share of PCL for the Bank's U.S. strategic card portfolio. The Bank's assumptions are subject to inherent uncertainties and may vary based on factors both within and outside the Bank's control, including the accuracy of the Bank's employee compensation and benefit expense forecasts, impact of business performance on variable compensation, inflation, the pace of productivity initiatives across the organization, and unexpected expenses such as legal matters. For additional information about risks and uncertainties that may impact the Bank's estimates refer to Slide 1 of this presentation and in the "Risk Factors That May Affect Future Results" section of the Bank's Q1 2026 MD&A.
5. The Bank's estimated PCL range is based on forward-looking assumptions that have inherent risks and uncertainties. Results may vary depending on actual economic or credit conditions and performance, such as the level of unemployment, interest rates, economic growth or contraction, and borrower or industry specific credit factors and conditions, inclusive of policy and trade uncertainty. The Bank's PCL estimate is subject to risks and uncertainties including those set out on Slide 1 of this presentation and in the "Risk Factors That May Affect Future Results" section of the Q1 2026 MD&A.
6. PCL Ratio: Provision for Credit Losses on a quarterly annualized basis/Average Net Loans.

Slide 12

1. The Bank's expectations regarding the restructuring program are subject to inherent uncertainties and are based on the Bank's assumptions regarding certain factors, including rate of natural attrition, talent re-deployment opportunities, years-of-service, execution timing of actions, and foreign exchange impacts. For additional information about risks and uncertainties that may impact the Bank's estimates refer to Slide 1 of this presentation and in the "Risk Factors That May Affect Future Results" section of the Bank's Q1 2026 MD&A.
2. The Bank's expectations regarding cost savings in fiscal 2026 and annualized cost savings over the medium-term are based on the Bank's forward-looking assumptions, including general economic conditions, foreign exchange impact, and the operating environment, including regulatory, legal and political landscape. These assumptions are subject to inherent uncertainties and may vary based on factors outside the Bank's control, including those set out at the beginning of this presentation. Refer to the "Risk Factors That May Affect Future Results" section of the Bank's Q1 2026 MD&A for additional information about risks and uncertainties that may impact the Bank's estimates.

Slide 13

1. As previously disclosed in the Bank's 2024 MD&A, on October 10, 2024, the Bank announced that, following active cooperation and engagement with authorities and regulators, it reached a resolution (the "Global Resolution") of previously disclosed investigations related to its U.S. Bank Secrecy Act ("BSA") and Anti-Money Laundering ("AML") compliance programs (collectively, the "U.S. BSA/AML program"). The Bank and certain of its U.S. subsidiaries consented to orders with the Office of the Comptroller of the Currency (OCC), the Federal Reserve Board (FRB), and the Financial Crimes Enforcement Network (FinCEN) and entered into plea agreements with the Department of Justice (DOJ), Criminal Division, Money Laundering and Asset Recovery Section and the United States Attorney's Office for the District of New Jersey. The Bank is focused on meeting the terms of the consent orders and plea agreements, including meeting its requirements to remediate the Bank's U.S. BSA/AML program. In addition, the Bank is also undertaking remediation of the Bank's enterprise-wide AML/Anti-Terrorist Financing and Sanctions Programs ("Enterprise AML Program"). For additional information on the Global Resolution, the Bank's U.S. BSA/AML program remediation activities, the Bank's Enterprise AML Program improvement activities, and the risks associated with the foregoing, see Slide 1 of this presentation and the "Update on the Remediation of the U.S. BSA/AML Program and Enterprise AML Program" and "Risk Factors That May Affect Future Results – Remediation of the Bank's U.S. BSA/AML Program and Enterprise AML Program" sections of the Bank's 2025 MD&A and "Update on the remediation of the U.S. Bank Secrecy Act (BSA)/Anti-Money Laundering (AML) Program and Enterprise AML Program" section of the Bank's Q1 2026 MD&A.

Endnotes on Slides 31 to 37

Slide 32

1. Capital and liquidity measures are calculated in accordance with OSFI's Capital Adequacy Requirements, Leverage Requirements, and Liquidity Adequacy Requirements guidelines.
2. Please refer to Slide 4, Endnote 3.
3. Numbers may not add due to rounding.

Slide 33

1. Please refer to Slide 32, Endnote 1.
2. Reflects debt outstanding as at, and converted at FX rate as at January 31, 2026. Numbers may not add due to rounding.
3. These measures have been calculated in accordance with OSFI's Total Loss Absorbing Capacity (TLAC) guideline.
4. Includes par value of outstanding senior unsecured long-term debt issued on or after September 23, 2018, with a remaining term to maturity of greater than 1 year. Senior unsecured long-term debt with original term to maturity less than 400 days will not be eligible for bail-in and would not qualify as TLAC.

Slide 34

1. Business deposits exclude wholesale funding.
2. As measured by OSFI market share data.
3. Based on total assets. Excludes Goldman Sachs and Morgan Stanley. Source: S&P Global Market Intelligence.
4. Please refer to Slide 3, Endnote 7.
5. Liquidity measures are calculated in accordance with OSFI's Liquidity Adequacy Requirements guidelines.

Slide 35

1. As of January 31, 2026. Credit ratings are not recommendations to purchase, sell, or hold a financial obligation in as much as they do not comment on market price or suitability for a particular investor. Ratings are subject to revision or withdrawal at any time by the rating organization.
2. Subject to conversion under the bank recapitalization "bail-in" regime.
3. Ratings reflect holding company senior unsecured ratings.
4. Please refer to Slide 4, Endnote 1.
5. Please refer to Slide 4, Endnote 2.

Slide 36

1. For wholesale term debt that has bullet maturities.
2. Based on first par redemption date. The timing of an actual redemption is subject to management's view at the time as well as applicable regulatory and corporate governance approvals.
3. Includes Limited Recourse Capital Notes, Preferred Shares and AT1 Perpetual Debt.

Slide 37

1. Excludes certain private placement and structured notes.
2. In Canadian dollars equivalent with exchange rate as at January 31, 2026.
3. Represents mortgage-backed securities issued to external investors only.
4. Includes Limited Recourse Capital Notes, Preferred Shares, Subordinated Debt and AT1 Perpetual Debt. Subordinated debt includes certain private placement notes. These instruments are not considered wholesale funding as they may be raised primarily for capital management purposes.

Endnotes on Slides 39 to 46

Slide 39

1. Current Loan to Value is calculated with the Teranet-National Bank House Price Index and weighted by balance.
2. Calculated based on Canadian dollar equivalents with respective exchange rates as at date of issuance.
3. Please refer to Slide 35, Endnote 1.
4. The Covered Bond Label Foundation and its affiliates are not associated with and do not approve or endorse TD's covered bond products.

Slide 40

1. Any non-NVCC preferred shares and non-NVCC subordinated debt issued on or after September 23, 2018 would also be in scope.
2. In determining the multiplier, CDIC must take into consideration the requirement in the Bank Act for banks to maintain adequate capital and that equally ranking bail-in eligible instruments must be converted in the same proportion and receive the same number of common shares per dollar of claim.

Slide 41

1. Initially, the assets held in the Trust will consist of the series of Preferred Shares issued in connection with each LRCN series. Following the issuance of the LRCNs, the assets held in the Trust may also consist of (i) common shares issued upon a Trigger Event, (ii) cash from the redemption, or the purchase by the Bank for cancellation, of the Preferred Share series, or (iii) any combination thereof, depending on the circumstances.
2. Under the OSFI Guideline for Capital Adequacy Requirements (CAR), Chapter 2 – Definition of Capital, effective November 2024, each of the following constitutes a Trigger Event: (i) the Superintendent publicly announces that the Superintendent is of the opinion that the Bank has ceased, or is about to cease, to be viable and that, after the conversion or write-off, as applicable, of all contingent instruments and taking into account any other factors or circumstances that are considered relevant or appropriate, it is reasonably likely that the viability of the Bank will be restored or maintained; or (ii) the federal or a provincial government in Canada publicly announces that the Bank has accepted or agreed to accept a capital injection, or equivalent support, from the federal government or any provincial government without which the Bank would have been determined by the Superintendent to be non-viable.
