From the Desk of the Asset Allocation Team

A Reflection on Growth:

Celebrating $10 Billion AUM in TD Managed Assets Program (MAP) Exchange-Traded Funds (ETF) Portfolios

The Asset Allocation Team (we, our, the Team) at TD Asset Management Inc., (TDAM) is proud to announce the TD MAP ETF Portfolios have surpassed $10 billion in assets under management (AUM). This milestone is about more than scale. It can reflect a broader shift in how investors are approaching portfolio construction, with an increased focus on simplicity, cost efficiency, and disciplined asset allocation in an evolving environment.

Designed for Simplicity without Compromise

At their core, the TD MAP ETF Portfolios are designed to simplify investing without compromising on sophistication. They combine a disciplined, multi-asset investment process accessing the flexibility and efficiency of ETFs, through a mutual fund wrapper, delivering broad exposure across active, quantitative and passive strategies.

One-Ticket Solution

All-in-one portfolios that combine asset allocation, core exposures enhanced by smart beta and quantitative-driven strategies, and ongoing management

Enhanced Portfolio Construction

Access to a range of asset classes designed for growth and risk management

Professional Management

Led by the Asset Allocation Team at TDAM using a disciplined, research-driven approach

Cost-Conscious Design

Low-cost structure with access to a broad range of ETF strategies

TD MAP ETF Portfolios Continue to Resonate

The growing adoption of MAP ETFs reflects their ability to meet the needs of a wide range of investors, particularly those seeking simplicity and value without sacrificing diversification. This solution can appeal to investors who are:

- **Seeking ETF Exposure** within a structured, managed solution
- **Cost-conscious**, seeking efficient access to enhanced portfolio construction
- **Risk-aware** and comfortable with market-based returns seeking simplified investing experience, with portfolios aligned to their investment objectives

Looking Ahead

Crossing the $10 billion AUM threshold underscores the role that multi-asset ETF portfolios are playing in today's investment landscape. As markets continue to evolve, so will the needs of investors, requiring solutions that are adaptable and grounded in disciplined asset allocation. **TD MAP ETF Portfolios seek to provide a flexible foundation that can evolve with markets, while keeping investors anchored to their investment objectives.**

Reaching $10 billion in AUM is a testament not only to market growth, but to the confidence investors have placed in a simple, disciplined approach to portfolio construction
