Some of these services may be available on your High Interest TFSA Savings Account and, if so, you pay the service fee. Fees and limits are in the currency of the account unless noted below.

Making purchases with your TD Access Card	Fees
Purchases in Canadian dollars Purchases at merchants in Canada and with online stores that accept Canadian dollar payments.	No service fees
Purchases in a foreign currency if your TD Access Card has a <i>Visa</i> Debit logo If you make a purchase in a foreign currency with your TD Access Card, the foreign currency amount is converted to Canadian dollars at the exchange rate set by Visa International in effect on the date the transaction is posted to your account. The amount posted to your account will include a fee equal to 3.5% of the purchase amount after conversion to Canadian dollars. For example: For a US \$10 purchase, where the rate set by Visa International is 1.3 (US \$1.00 costs CA \$1.30) Amount after conversion = US \$10 x 1.3 = CA \$13.00 Fee = CA \$13.00 x 3.5% = CA \$0.46 (rounded up from \$0.455) Total withdrawal amount = CA \$13.00 + CA \$0.46 = CA \$13.46	3.5% of the Canadian dollar amount after conversion of the foreign currency amount at the rate set by Visa International
Purchases in a foreign currency if your TD Access Card does not have a <i>Visa</i> Debit logo (NYCE) If you make a purchase in a foreign currency with your TD Access Card, the foreign currency amount is converted to Canadian dollars at an exchange rate that is calculated by adding 0.035 to the rate set by Interac Corp. in effect on the date the transaction is posted to your account. For example: For a US \$10 purchase, where the rate set by Interac Corp. is 1.3 (US \$1.00 costs CA \$1.30) Exchange rate = 1.3 + 0.035 = 1.335 Total withdrawal amount = US \$10 x 1.335 = CA \$13.35 (includes the fee in the amount of CA \$0.35)	0.035 is added to the exchange rate set by Interac Corp.

Making a cash withdrawal at a non-TD ATM	Fees
In addition to our fees below, most ATM providers charge a fee to use their ATM - the fee is added to the amount you withdraw each time you take money out of your account.	
At non-TD ATMs within Canada:	\$2.00
If you have a TD Unlimited Chequing Account, TD All-Inclusive Banking Plan, TD Wealth Private Banking Account:	No service fees
At non-TD ATMs in USA or Mexico:	\$3.00
At non-TD ATMs in any other foreign country:	\$5.00
If you have a TD All-Inclusive Banking Plan, or TD Wealth Private Banking Account:	No service fees
In addition to the fees above, if you make a foreign currency withdrawal at an ATM outside Canada with your TD Access Card, the amount of <ul style="list-style-type: none"> the foreign currency funds received at the ATM, and any fee charged by the ATM provider is converted to Canadian dollars at the exchange rate set by Visa International in effect on the date the transaction is posted to your account. The amount withdrawn from your account will include a fee equal to 3.5% of the amount of the foreign currency funds received at the ATM plus any fee charged by the ATM provider after conversion to Canadian dollars. For example: For a US \$10 cash withdrawal at an ATM in the United States, where the rate set by Visa International is 1.3 (US \$1.00 costs CA \$1.30): Amount received at ATM = US \$10 US ATM provider fee = US \$2 Amount after conversion = US \$12 x 1.3 = CA \$15.60 Fee = CA \$15.60 x 3.5% = CA \$0.55 Total withdrawal amount = CA \$15.60 + CA \$0.55 = CA \$16.15 If this withdrawal example occurred at a non-TD ATM in the United States, the \$3 non-TD ATM fee described above would also be withdrawn from your account.	3.5% of the Canadian dollar amount after conversion of the foreign currency amount at the rate set by Visa International
