1. The Bank prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), the currently accepted accounting principles (GAAP), and refers to results prepared in accordance with GAAP as the "reported" results. The Bank also utilizes non-GAAP financial measures referred to as "adjusted" results (i.e., reported results excluding "items of note") and non-GAAP ratios to assess each of its businesses and measure overall Bank performance. Non-GAAP financial measures and ratios used in this presentation are not defined terms under IFRS and, therefore, may not be comparable to similar terms used by other issuers. See the "How We Performed" in the Bank's Q3 2022 MD&A (available at www.td.com/investor and www.sedar.com), which is incorporated by reference, for further explanation, reported basis results, a list of the items of note, and a reconciliation of adjusted to reported results.
2. For additional information about this metric, refer to the Glossary in the Q3 2022 MD&A, which is incorporated by reference.
3. This measure has been calculated in accordance with the Office of Financial Institutions Canada’s (OSFI’s) Capital Adequacy Requirements guidelines.
4. Average number of full-time equivalent staff.
5. Ratings on senior long-term debt of The Toronto-Dominion Bank as at July 31, 2022. Credit ratings are not recommendations to purchase, sell, or hold a financial obligation in as much as they do not comment on market price or suitability for a particular investor. Ratings are subject to revision or withdrawal at any time by the rating organization.
7. Includes (a) Senior debt issued prior to September 23, 2018 and (b) Senior debt issued on or after September 23, 2018 which is excluded from the bank recapitalization “bail-in” regime, including debt with an original term-to-maturity of less than 400 days and most structured notes.
8. Subject to conversion under the bank recapitalization “bail-in” regime.
Q3 2022 Business Segment Performance
(except as noted, figures are in C$ millions and percentages reflect year-over-year change)

**Canadian Retail**

- **Net Income** for the quarter was $2,253 million, an increase of $128 million, or 6%, compared with the third quarter last year. **Revenue** increased 7%. **Net interest income** increased 13% reflecting volume growth and higher margins. **Net interest margin** increased 2.10%, an increase of 0.04% QoQ, primarily due to higher margins on deposits reflecting the rising interest rate environment, partially offset by lower margin on loans. **Non-interest income** increased 1%, reflecting higher fee-based revenue in the banking business and higher insurance volumes, partially offset by lower transaction and fee-based revenue in the wealth business and a decrease in the fair value of investments supporting claim liabilities which resulted in a similar decrease in insurance claims. **Average loan volumes** increased 9%, reflecting 8% growth in personal loans and 15% growth in business loans. **Average deposit volumes** increased 7%, reflecting 8% growth in personal deposits, 4% growth in business deposits, and 8% growth in wealth deposits. **AUA** decreased 2% and **AUM** decreased 3%, both reflecting market depreciation, partially offset by net asset growth. **Provisions for credit losses (PCL)** was $170 million, an increase of $110 million QoQ. **PCL** – impaired for the quarter was $142 million, a decrease of $21 million, or 13%, QoQ. **PCL** – performing was $26 million, compared with a recovery of $103 million in the prior quarter. The current quarter provision was largely reflected in the consumer lending portfolios. Total **PCL** as an annualized percentage of credit volume was 0.13%, an increase of 0.05% QoQ. **Insurance claims and related expenses** for the quarter were $229 million, a decrease of $7 million, or 1%, reflecting favourable prior years’ claims development and the impact of a higher discount rate which resulted in a similar decrease in fair value of investments supporting claim liabilities reported in non-interest income, partially offset by higher current year claims. **Expenses** increased 9% reflecting higher spend supporting business growth, including technology and employee-related expenses.

**U.S. Retail**

- **Net Income** for the quarter was US$1,122 million, an increase of US$70 million, or 7% YoY. Adjusted** net income was US$1,139 million, up US$87 million or 8% YoY. **U.S. Retail** net income includes contributions from the **U.S. Retail Bank** and the Bank’s investment in Schwab. **U.S. Retail Bank net income** of US$696 million increased US$55 million, or 1%, primarily reflecting higher revenue, partially offset by higher PCL and non-interest expenses including acquisition and integration-related charges for the First Horizon acquisition. Adjusted** net income was US$893 million, an increase of US$22 million, or 2%, primarily reflecting higher revenue, partially offset by higher PCL and non-interest expenses. **Revenue** for the quarter increased 11%. **Net interest income** increased 19%, largely driven by the benefit of higher deposit margins from the rising rate environment and higher business and personal deposit volumes, partially offset by lower income from PPP loan forgiveness and lower margin on loans. **Net interest margin** increased 2.62% with incremental 41bps QoQ as higher margin on deposits reflecting the rising interest rate environment and positive balance sheet mix was partially offset by lower PPP loan forgiveness and lower margin. **Non-interest income** decreased 10%, primarily reflecting higher valuation of certain investments in the prior year. **Average loan volumes** were relatively flat. Personal loans increased 8%, primarily reflecting higher residential mortgage and auto originations, and higher credit card volumes, partially offset by a decline in home equity. Business loans decreased 7%, or 2% excluding PPP loans, primarily reflecting strong originations and new customer growth, higher commercial line utilization and increased customer deposits by PPP loan forgiveness. **Payment volumes** increased 3%, reflecting an 8% increase in personal deposits and a 2% increase in business deposits, partially offset by a 2% decrease in sweep deposits. **PCL** for the quarter was US$83 million compared with a recovery of US$15 million in the prior quarter **PCL** – impaired increased US$30 million, or 24 bps QoQ. **Expenses** increased 8%, primarily reflecting higher employee-related expenses, higher investments in the business, and acquisition and integration-related charges for the First Horizon acquisition, partially offset by productivity savings. The **contribution from Schwab** of US$226 million increased US$65 million, or 40%, primarily reflecting higher net interest income, partially offset by lower trading revenue.

**Wholesale Banking**

- **Net Income** for the quarter was $271 million, a decrease of $59 million, or 18%, reflecting higher non-interest expenses and PCL. **Revenue** for the quarter was $1,076 million, a decrease of $7 million, or 1%, reflecting lower underwriting fees and markdowns in certain asset sales. **Provisions for credit losses (PCL)** was $107 million, an increase of $75 million, or 24%, primarily offset by higher credit provisioning and a recovery in the consumer lending portfolios. **PCL** – impaired for the quarter was $3.56 billion, a decrease of $2 billion, or 36%, reflecting lower credit provisioning and some normalization of credit performance. **PCL** – performing was largely reflected in the commercial lending portfolios. **Expenses** increased 6%, primarily reflecting higher credit losses and higher expenses related to the corporate acquisition and integration-related charges for the First Horizon acquisition, partially offset by productivity savings. The **contribution of WebBroker**, including only the Bank’s share of PCL in the U.S. and Canadian strategic cards portfolio was $261 million, or 62% increased 41bps QoQ as higher net interest income, partially offset by lower margin. **Average loan volumes** increased 13% reflecting volume growth and higher margins. **Average deposit volumes** increased 5%, reflecting 6% increase in personal deposits, 4% growth in business deposits, and 8% growth in wealth deposits. **AUA** decreased 2% and **AUM** decreased 3%, both reflecting market depreciation, partially offset by net asset growth. **Provisions for credit losses (PCL)** was $170 million, an increase of $110 million QoQ. **PCL** – impaired for the quarter was $142 million, a decrease of $21 million, or 13%, QoQ. **PCL** – performing was $26 million, compared with a recovery of $103 million in the prior quarter. The current quarter provision was largely reflected in the consumer lending portfolios. Total **PCL** as an annualized percentage of credit volume was 0.13%, an increase of 0.05% QoQ. **Insurance claims and related expenses** for the quarter were $229 million, a decrease of $7 million, or 1%, reflecting favourable prior years’ claims development and the impact of a higher discount rate which resulted in a similar decrease in fair value of investments supporting claim liabilities reported in non-interest income, partially offset by higher current year claims. **Expenses** increased 9% reflecting higher spend supporting business growth, including technology and employee-related expenses.

9 Refer to footnote 2 on page 1.
10 Net interest margin (NIM) is calculated by dividing net interest income by average interest-earning assets. Average interest-earning assets used in the calculation of NIM is a non-GAAP financial measure. NIM and average interest-earning assets are not defined terms under IFRS and, therefore, may not be comparable to similar terms used by other issuers.
11 Refer to footnote 1 on page 1.
12 U.S. Retail segment net interest income and average interest-earning assets used in the calculation of NIM are non-GAAP financial measures. For additional information about these metrics, refer to Table 12 in the Q3 2022 MD&A, which is incorporated by reference.
13 Based on quarterly dividends of $0.89 declared on May 26, 2022, annualized.
14 Dividend yield is calculated as the annualized dividend per common share divided by the daily average closing stock price for the quarter.
15 For the purpose of calculating contribution by each business segment, earnings from the Corporate segment are excluded. Numbers may not add to 100% due to rounding.
16 Enterprise active digital users include Canadian Personal and Commercial Banking, TD WebBroker, MBNA active users, TD Insurance registered users, and U.S. Retail. Canadian active mobile users based on Canadian Personal and Commercial Banking, U.S. active mobile users based on U.S. Retail and Small Business Banking.
17 Weighed-average number of diluted common shares outstanding.
