

Natural Capital Collaboration

In 2014 TD worked with over 750 organizations – large and small – to grow natural capital either through protecting critical forest habitat or enhancing urban green spaces. Here are some examples.

Arbor Day Foundation	Arbor Day administers TD Green Streets in the U.S. This grant program supports innovation in municipal forestry and funds tree planting and urban greening projects in low-to moderate-income neighbourhoods.
Canadian Parks and Wilderness Society (CPAWS)	TD supports CPAWS work to protect woodland caribou and the boreal forest
Forest Stewardship Council (FSC)	TD is supporting FSC's work to apply the values of Free, Prior, Informed Consent to its Forest Management Standards
Ontario College of Art and Design	TD is the lead sponsor of the bi-annual Urban Ecologies conference
Forests Ontario	TD supports Focus on Forests, Canada's leading forest education program that engages youth and educators in learning more about our forests.
Canadian Institute of Forestry (CIF)	TD supports the work of CIF, which promotes competence among forestry professionals and fosters public awareness of Canadian and international forestry issues. TD is sponsoring the CIF's inaugural Prince of Wales Forests Leadership Award
SW Boston Community Development	TD Bank supports Hyde Park Green Team, which provides youth and community training to restore urban wilds
Coopers Ferry Development Association, Camden, N.J.	TD Bank supports Camden SMART Initiative, a collaborative network to develop and implement green infrastructure programs
Tree Canada	TD Green Streets is the flagship program of Tree Canada and the only nationally based municipal forestry innovation program in Canada. Since its inception in 1994, almost 500 Canadian municipalities have received Green Streets funding.
Nature Conservancy of Canada (NCC)	With support from the TD Forests program, NCC works to enlarge areas of protected forest habitat, especially in southern Canada, where forests are most threatened by development.
The Nature Conservancy (TNC)	With funds from the TD Forests program, TNC secures and protects critical forestlands in the United States.
New York Restoration Project (NYRP)	TD Bank has pledged a multi-year commitment of \$1.5 million to the New York Restoration Project (NYRP) to support MillionTreesNYC, a citywide tree planting program. TD Bank's commitment will enable the program to achieve its goal of planting and caring for one million trees across the five boroughs of New York by 2015 – two years earlier than projected.
Toronto Park People	Launched in 2015, TD Park Builders provides programming and capital funding for park and community groups to green shared spaces in "high-needs" neighbourhoods.
Upstate Forever, Greenville, S.C.	Value Your Trees program
