Account Performance

The following tables set forth the historical performance of the Accounts for each of the indicated periods. There can be no assurance, however, that the loss and delinquency experience, revenue experience or account holder monthly payment rates for the Accounts in the future will be similar to the historical experience and rates set forth below. The information in the tables has been provided by The Toronto-Dominion Bank.

In response to the COVID-19 pandemic, The Toronto-Dominion Bank has provided certain financial assistance to eligible customers, including deferral of principal and interest payments on term portions of home equity lines of credit (“HELOC”), for up to six months. From March 17, 2020 to May 3, 2020, eligible borrowers were able to defer payment of principal. Beginning on May 4, 2020, eligible borrowers were able to defer payment of both principal and interest. HELOC accounts that are deferred under the deferral program are not considered delinquent. The performance metrics shown in this report reflect the impact of these relief measures.

Loss and Delinquency Experience

The loss and delinquency experience of the Accounts is as follows:

- (2) Percentages are calculated by dividing the sum of (i) the outstanding principal Receivables of delinquent Accounts and (ii) unpaid interest on the Accounts, by the month-end Receivables balance.

Revenue Experience

The revenue experience for the Accounts is dependent upon the prime rate of interest established by TD from time to time because these Accounts are generally subject to an annual variable rate of interest that is a rate based on the TD "prime rate" of interest. The borrower may choose to convert all or part of a non-amortizing account into one or more amortizing portions at rates comparable to conventional mortgages. The Sellers may permit the credit limit to be exceeded, in which event any principal amount owing over the credit limit is unsecured. The following table sets forth the historical revenue experience for the Accounts for the periods indicated.

Account Holder Monthly Payment Rates

Monthly payment rates on the TD Canada Trust LOC accounts may vary due to, among other things, the availability of other sources of credit, general economic conditions, consumer spending and borrowing patterns and the terms of the Accounts (which are subject to change by the Servicer). The following table sets forth the highest and lowest monthly payment rates by account holder for all months during the periods shown, in each case, calculated by dividing total interest and principal payments received in a month by the previous month-end balance.
