Caution regarding forward-looking statements

From time to time, the Bank makes written and/or oral forward-looking statements, including in this document, in other filings with Canadian regulators or the U.S. Securities and Exchange Commission, and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media and others. All such statements are made pursuant to the "safe harbour" provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements made in this document, the Management's Discussion and Analysis in the Bank's 2012 Annual Report ("2012 MD&A") under the headings "Economic Summary and Outlook", for each business segment "Business Outlook and Focus for 2013" and in other statements regarding the Bank's objectives and priorities for 2013 and beyond and strategies to achieve them, and the Bank's anticipated financial performance. Forward-looking statements are typically identified by words such as "will", "should", "believe", "expect", "anticipate", "intend", "estimate", "plan", "may", and "could".

By their very nature, these forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the physical, financial, economic, political, and regulatory environments, such risks and uncertainties – many of which are beyond the Bank's control and the effects of which can be difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause such differences include: credit, market (including equity, commodity, foreign exchange, and interest rate), liquidity, operational (including technology), reputational, insurance, strategic, regulatory, legal, environmental, capital adequacy, and other risks. Examples of such risk factors include the impact of recent U.S. legislative developments, as discussed under "Significant Events in 2012" in the "Financial Results Overview" section of the 2012 MD&A; changes to and new interpretations of capital and liquidity guidelines and reporting instructions; changes to the Bank's credit ratings; changes in interest rates; increased funding costs for credit due to market illiquidity and competition for funding; the occurrence of natural and unnatural catastrophic events and claims resulting from such events; the failure of third parties to comply with their obligations to the Bank or its affiliates relating to the care and control of information; disruptions in or attacks (including cyber attacks) on the Bank's information technology, internet, network access or other voice or data communications systems or services; and the overall difficult litigation environment, including in the United States. We caution that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank's results. For more detailed information, please see the "Risk Factors and Management" section of the 2012 MD&A, as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable) related the transactions discussed under the heading "Significant Events" in the relevant MD&A, which applicable releases may be found on td.com. All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements, when making decisions with respect to the Bank and we caution readers not to place undue reliance on the Bank's forward-looking statements.

Material economic assumptions underlying the forward-looking statements contained in this document are set out in the 2012 MD&A under the headings "Economic Summary and Outlook", and for each business segment, "Business Outlook and Focus for 2013", each as updated in subsequently filed quarterly reports to shareholders.

Any forward-looking statements contained in this document represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank's shareholders and analysts in understanding the Bank's financial position, objectives and priorities and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.

2. For long term debt (deposits) of The Toronto-Dominion Bank, as at July 31, 2013. Credit ratings are not recommendations to purchase, sell, or hold a financial obligation inasmuch as they do not comment on market price or suitability for a particular investor. Ratings are subject to revision or withdrawal at any time by the rating organization.
3. Based on Q3/13 adjusted earnings. Effective November 1, 2011, the Bank prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as the "reported" results. The Bank also utilizes non-GAAP financial measures to arrive at "adjusted" results (i.e. reported results excluding "items of note", net of income taxes) to assess each of its businesses and measure overall Bank performance. Please see "How the Bank Reports" starting on page 5 of the 3rd Quarter 2013 Earnings News Release for further explanation and a reconciliation of the Bank's non-GAAP measures to reported basis results.
4. Retail includes Canadian Personal & Commercial Banking, Wealth & Insurance, and U.S. Personal & Commercial Banking segments. See slide 8 for more detail.
5. Based on Q3/13 return on risk-weighted assets (RWA), calculated as adjusted net income available to common shareholders divided by average RWA. See footnote 3 above for definition of adjusted results.

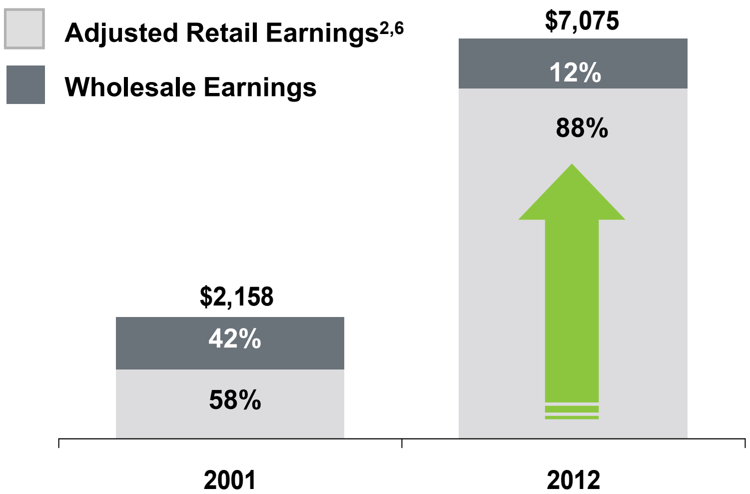
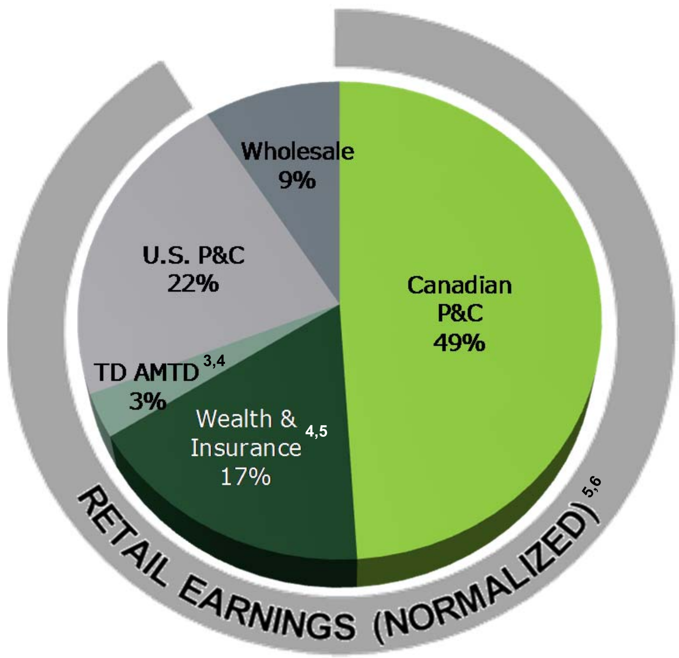
Composition of Earnings

Highlights

- TD is a top 10 bank in North America[1]
- Increasing retail focus
- Strength of retail franchise
- Reliable and steady earnings mix





YTD'13 Normalized Adj. Retail Earnings[2,5,6] = 91%

Retail-focused earnings mix

1. See slide 7.
2. See slide 5, footnote 3, for definition of adjusted results.
3. TD had a reported investment in TD Ameritrade of 42.24% as at July 31, 2013.
4. The "Wealth & Insurance" business segment is comprised of "Wealth & Insurance" and "TD Ameritrade".
5. For the purposes of calculating a YTD normalized earnings mix (i.e. one the Bank considers would be reflective of normal operations), the $418MM after tax charge taken in the Insurance business in Q3/13 has been excluded from this figure, which results in normalized YTD earnings of $997MM for Wealth & Insurance (ex-AMTD). The YTD earnings for Wealth & Insurance (ex-AMTD) is $579MM including the Q3/13 charge of $418MM.
6. For the purpose of calculating contribution by each business segment, adjusted earnings from the Corporate segment are excluded. For a definition of retail earnings, see slide 5, footnote 4.

Risk Management Framework

Our Risk Appetite

We take risks required to build our business, but only if those risks:

- Fit our business strategy and can be understood and managed
- Do not expose the enterprise to any significant single loss events; we don't "bet the bank" on any single acquisition, business or product
- Do not risk harming the TD brand

- Integrated risk monitoring and reporting
  - To senior management and Board of Directors
- Regular review, evaluation and approval of risk framework
  - Structured Risk Appetite governance, from the Business to the Board
  - Executive Committees and Risk Committee of the Board

Proactive and disciplined risk management practices

Solid Financial System in Canada

- Strong retail and commercial banks
  - Conservative lending standards
  - All major wholesale dealers owned by Canadian banks, with stable retail earnings base to absorb any wholesale write-offs

- Responsive government and central bank
  - Proactive policies and programs to ensure adequate liquidity in the system
  - Updated mortgage rules moderate the market and protect consumers

- Judicious regulatory system
  - Principles-based regime, rather than rules-based
  - One single regulator for all major banks
  - Conservative capital rules, requirements above world standards
  - Capital requirements based on risk-weighted assets

Well Developed Residential Mortgage Market in Canada

- Canadian chartered banks account for around 75% of the total mortgage market, including securitizations[1]
- Conservative lending practices
- Strong competition among lenders
- Favorable legal environment supporting foreclosure and other types of legal recourse to recoup losses

Total Residential Mortgages Outstanding[2] ($B)

Canadian Mortgage Market is Different from the U.S.

	Canada	U.S.
Product	Conservative product offerings: fixed or variable interest rate option	Outstanding mortgages include earlier exotic products (interest only, options ARMs)
	Default insured mortgages use a 5-year fixed qualifying rate for loans with variable rates or terms less than 5 years	Borrowers often qualified using discounted teaser rates → payment shock on expiry (underwriting standards have since been tightened)
Underwriting	Terms usually 5 years or less, renewable at maturity	30 year term most common
	Maximum amortization is 25 years and maximum loan to value (LTV) to 80% for a refinance	Amortization usually 30 years, can be up to 50 years
	Mortgage insurance mandatory if LTV over 80%, covers full loan amount	Mortgage insurance often used to cover portion of LTV over 80%
Regulation and Taxation	Mortgage interest not tax deductible	Mortgage interest is tax deductible, creating an incentive to borrow
	Lenders have recourse to both borrower and property in most provinces	Lenders have limited recourse in most jurisdictions
Sales Channel	External broker channel originated up to 30%	External broker channel originated up to 70% at peak, now less than 30%

Canadian Housing Market

Highlights

- Housing sales continue to be supported by attractive affordability, demographics and employment stability
- Canadian RESL credit quality remains strong
- General Allowance of $65 million taken for the Alberta flood

Topic	TD Positioning
Canadian RESL Portfolio	▪ $223 billion portfolio (65% insured) ▪ Average Current LTV of 47%
Condo Borrower Exposure	▪ $33 billion portfolio (69% insured) ▪ LTV, credit score and delinquency rate consistent with broader portfolio
Hi-Rise Condo Developer Exposure	▪ Stable portfolio volumes of < 1.5% of the Canadian Commercial portfolio ▪ Exposure limited to experienced borrowers with demonstrated liquidity and long-standing relationship with TD

Mortgage Rule Developments in Canada

2012 Measures Announced by Minister Flaherty (Government of Canada)

- Maximum amortization period lowered from 30 years to 25 years
- Maximum amount that Canadians can borrow when refinancing lowered to 80% from 85%
- Maximum GDS and TDS ratios of 39% and 44% respectively
- Insured mortgages only available on homes with a purchase price of less than $1 million
- Rules only apply to high ratio mortgages (mortgages requiring government insurance)
- Took effect on July 9, 2012 avoiding a rush to beat the new rule (as seen in 2011)

2012 Highlights of Guideline B-20 (OSFI)

- Maximum loan-to-value of 65% for a HELOC (from 80%)
- HELOCs will not amortize, but lenders must expect an ability to fully repay over time
- Qualifying rate for conventional mortgages with variable rates or fixed rate terms less than 5 years will be “the greater of the contractual mortgage rate or the five-year benchmark rate published by the Bank of Canada”
- LTV to be re-calculated upon refinancing and whenever the lender deems prudent
- Federally regulated lenders have until “no later than fiscal year-end 2012” to comply

Sources: OSFI, Veritas, TD Economics

North American Economy
Outlook

- 2013 will be another year of moderate growth for Canada and the U.S.
  - Uncertainty over government policies has somewhat dissipated, but unresolved issues remain in both the U.S. and Europe
- U.S. economy remains a mix of good news and bad news
  - Residential real estate will make a positive contribution to growth in 2013
  - Fiscal consolidation is here, and will likely weigh on growth over the next few years
- Canadian economy closely linked to U.S. fortunes – firming in U.S. private demand helps Canada's prospects
  - Domestic demand will be restrained by high household debt burdens, and cooling housing market

Expect modest growth

Robust Liquidity Management

- Treasury paradigm
  - Contribute to stable and growing earnings
  - “Treasury does not have the authority not to hedge,” within limits
  - No black boxes
- Match terms of assets and liabilities
  - Do not engage in liquidity carry trade
  - Match underlying funding maturities to term of assets
- Disciplined transfer pricing process
  - Credit deposit products for liquidity provided and charge lending products for liquidity consumed
- Global liquidity risk management framework
  - Hold sufficient liquid assets to meet a “Severe Combined Stress” scenario for a minimum 90-day period
  - Each liquidity management unit has its own policy and contingent funding plan
  - Monitor global funding market conditions and potential impacts to funding access

Conservative liquidity policies

Term Funding Strategy

- Large base of stable retail and commercial deposits
  - Customer service business model delivers growing base of "sticky" deposits
  - Reserve assets held for deposit balance that is not considered permanent
- Large user of securitization programs via Canada Mortgage Bond (CMB) and regular MBS issues
  - MBS funding matches underlying asset maturity while offering attractive risk adjusted yield to investor
- Diversification into other secured funding sources
  - Legislative Covered Bonds and asset-backed securitization
- Complemented by wholesale debt capital market issuances
  - Wholesale funding is diversified by geography, currency and maturity
  - US$2.25 billion dual-tranche Senior Unsecured transaction in April 2013
  - US$3 billion 2-year floating rate note in May 2013
  - C$1.5 billion 4-year deposit note in August 2013
