# Caution Regarding Forward-Looking Statements

From time to time, the Bank (as defined in this document) makes written and/or oral forward-looking statements, including in this document, in other filings with Canadian regulators or the United States (U.S.) Securities and Exchange Commission (SEC), and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media, and others. All such statements are made pursuant to the "safe harbour" provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements made in this document, the Management's Discussion and Analysis ("2017 MD&A") under the heading "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail and Wholesale Banking segments under headings "Business Outlook and Focus for 2018", and for the Corporate segment, "Focus for 2018", and in other statements regarding the Bank's objectives and priorities for 2018 and beyond and strategies to achieve them, the regulatory environment in which the Bank operates, and the Bank's anticipated financial performance. Forward-looking statements are typically identified by words such as "will", "would", "should", "believe", "expect", "anticipate", "intend", "estimate", "plan", "goal", "target", "may", and "could".

By their very nature, these forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the physical, financial, economic, political, and regulatory environments, such risks and uncertainties – many of which are beyond the Bank's control and the effects of which can be difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause, individually or in the aggregate, such differences include: credit, market (including equity, commodity, foreign exchange, interest rate, and credit spreads), liquidity, operational (including technology and infrastructure), reputational, insurance, strategic, regulatory, legal, environmental, capital adequacy, and other risks. Examples of such risk factors include the general business and economic conditions in the regions in which the Bank operates; the ability of the Bank to execute on key priorities, including the successful completion of acquisitions and dispositions, business retention plans, and strategic plans and to attract, develop, and retain key executives; disruptions in or attacks (including cyber-attacks) on the Bank's information technology, internet, network access, or other voice or data communications systems or services; the evolution of various types of fraud or other criminal behaviour to which the Bank is exposed; the failure of third parties to comply with their obligations to the Bank or its affiliates, including relating to the care and control of information; the impact of new and changes to, or application of, current laws and regulations, including without limitation tax laws, risk-based capital guidelines and liquidity regulatory guidance and the bank recapitalization "bail-in" regime; exposure related to significant litigation and regulatory matters; increased competition, including through internet and mobile banking and non-traditional competitors; changes to the Bank's credit ratings; changes in currency and interest rates (including the possibility of negative interest rates); increased funding costs and market volatility due to market illiquidity and competition for funding; critical accounting estimates and changes to accounting standards, policies, and methods used by the Bank; existing and potential international debt crises; and the occurrence of natural and unnatural catastrophic events and claims resulting from such events. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank's results. For more detailed information, please refer to the "Risk Factors and Management" section of the 2017 MD&A, as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable) related to any transactions or events discussed under the heading "Significant Events" in the relevant MD&A, which applicable releases may be found on [www.td.com](http://www.td.com). All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements, when making decisions with respect to the Bank and the Bank cautions readers not to place undue reliance on the Bank's forward-looking statements.

Material economic assumptions underlying the forward-looking statements contained in this document are set out in the 2017 MD&A under the headings "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail, and Wholesale Banking segments, "Business Outlook and Focus for 2018", and for the Corporate segment, "Focus for 2018", each as may be updated in subsequently filed quarterly reports to shareholders.

Any forward-looking statements contained in this document represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank's shareholders and analysts in understanding the Bank's financial position, objectives and priorities, and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.

1. The Bank prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as the "reported" results. The Bank also utilizes non-GAAP financial measures to arrive at "adjusted" results (i.e. reported results excluding "items of note") to assess each of its businesses and measure overall Bank performance. Please see "How the Bank Reports" in the Fourth Quarter Earnings News Release and 2017 MD&A for further explanation and a reconciliation of the Bank's non-GAAP measures to reported basis results. Trailing four quarter items of note: Charges associated with Scottrade transaction of \$36 million after-tax, the dilution gain on Scottrade transaction of \$204 million after-tax, the loss on the sale of the Direct Investing business in Europe of \$40 million after-tax, amortization of intangibles of \$232 million after tax, and a loss of \$34 million after tax due to the change in fair value of derivatives hedging the reclassified available-for-sale securities portfolio.

# Risk Management Framework

## Our Risk Appetite

**We take risks required to build our business,  
but only if those risks:**

- Fit our business strategy and can be understood and managed
- Do not expose the enterprise to any significant single loss events; we don't "bet the bank" on any single acquisition, business or product
- Do not risk harming the TD brand

**Proactive and disciplined risk management practices**

# Q4 2017 Segment Results Highlights

## Canadian Retail

- Net income of \$1.7 billion, up 11% YoY, reflecting 5% revenue growth and lower PCL, partially offset by higher insurance claims
- PCL decreased 7% YoY and increased 3% QoQ
- Expenses increased 1% YoY and had positive operating leverage

## U.S. Retail

- In U.S. Dollar terms, U.S. Retail net income up 16% YoY, reflecting 10% revenue growth from a more favourable interest rate environment and continued growth in loan and deposit volumes
- PCL increased 19% QoQ reflects seasonal trends in the credit card and auto
- Expenses increased 7% YoY reflecting higher employee costs and investments in business initiatives. Adjusted expenses rose 5% and operating leverage was strong

## Wholesale Banking

- Net income decreased 3% YoY reflecting lower revenue, partially offset by lower non-interest expenses and lower taxes.
- Revenue decreased 6% reflecting lower trading-related revenue due to weaker capital markets activity
- Expenses decreased 3% reflecting lower variable compensation, partially offset by operating expenses related to the establishment of TD Prime Services in the U.S.
