

Supplemental Financial Information

(Released on January 25, 2018 for the split of the supplemental information package into two separate documents and the adoption of IFRS 9)

For the First Quarter Ended January 31, 2018

For further information, please contact: Investor Relations Department Gillian Manning 416-308-9030 www.td.com/investor

Basis of Presentation

The supplemental information contained in this package is designed to improve the readers' understanding of the financial performance of TD Bank Group ("TD" or the "Bank"). This information is unaudited and should be used in conjunction with the Bank's first quarter 2018 Report to Shareholders, Earnings News Release (ENR), Supplemental Regulatory Capital Disclosure package, and Investor Presentation, as well as the Bank's 2017 Annual Report. For acronyms used in this package, refer to the "Acronyms" page.

How the Bank Reports

The Bank prepares its Consolidated Financial Statements in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB), the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as "reported" results. Certain comparative amounts have been reclassified to conform with the presentation adopted in the current period.

The Bank also utilizes non-GAAP financial measures referred to as "adjusted" results to assess each of its businesses and to measure the Bank's overall performance. To arrive at adjusted results, the Bank removes "items of note", from reported results. The items of note relate to items which management does not believe are indicative of underlying business performance. The Bank believes that adjusted results provide the reader with a better understanding of how management views the Bank's performance. The items of note are disclosed on page 3 of this package.

As explained, adjusted results differ from reported results determined in accordance with IFRS. Adjusted results, items of note, and related terms used in this package are not defined terms under IFRS and, therefore, may not be comparable to similar terms used by other issuers. A reconciliation between the Bank's reported and adjusted results is provided in the "How the Bank Reports" section of the Bank's first guarter 2018 Management's Discussion and Analysis (MD&A) and first guarter 2018 ENR.

Effective November 1, 2017, the Bank adopted IFRS 9, *Financial Instruments* (IFRS 9), which replaces the guidance in IAS 39, *Financial Instruments: Recognition and Measurement* (IAS 39). Accordingly, fiscal 2018 numbers are based on IFRS 9. The Bank did not restate prior periods which continue to be based on IAS 39. For further details, refer to Note 2 of the Bank's first guarter 2018 Interim Consolidated Financial Statements.

Segmented Information

For management reporting purposes, the Bank reports its results under three key business segments: Canadian Retail, which includes the results of the Canadian personal and commercial banking, wealth, and insurance businesses; U.S. Retail, which includes the results of the U.S. personal and business banking operations, wealth management services, and the Bank's investment in TD Ameritrade; and Wholesale Banking. The Bank's other activities are grouped into the Corporate segment. The appendix page has been included to facilitate comparability with the reportable segments of the Bank's Canadian peers.

Where applicable, the Bank measures and evaluates the performance of each segment based on adjusted results and adjusted return on common equity (ROE). Adjusted ROE is adjusted net income available to common shareholders as a percentage of average common equity. Adjusted ROE is a non-GAAP financial measure as it is not a defined term under IFRS and, therefore, may not be comparable to similar terms used by other issuers. The capital allocated to the business segments was based on 9% Common Equity Tier 1 (CET1) Capital in fiscal 2016, 2017, and 2018.

The Bank determines its segments based on the view taken by the Chief Executive Officer to regularly evaluate performance and make key operating decisions, and is not necessarily comparable with other financial services companies. Results of each business segment reflect revenue, expenses, assets, and liabilities generated by the businesses in that segment. Due to the complexity of the Bank, its management reporting model uses various estimates, assumptions, allocations, and risk-based methodologies for funds transfer pricing, inter-segment revenue, income tax rates, capital, indirect expenses, and cost transfers to measure business segment results. Transfer pricing of funds is generally applied at market rates. Inter-segment revenue is negotiated between each business segment and approximates the value provided by the distributing segment. Income tax provision or recovery is generally applied to each segment based on a statutory tax rate and may be adjusted for items and activities unique to each segment.

Net income for the operating business segments is presented before any items of note not attributed to the operating segments. Net interest income within Wholesale Banking is calculated on a taxable equivalent basis (TEB), which means that the value of the non-taxable or tax-exempt income, including dividends, is adjusted to its equivalent before-tax value. Using TEB allows the Bank to measure income from all securities and loans consistently and makes for a more meaningful comparison of net interest income with similar institutions. The TEB increase to net interest income and provision for income taxes reflected in Wholesale Banking's results are reversed in the Corporate segment.

The presentation of the U.S. strategic cards portfolio revenues, provision for credit losses, and expenses in the U.S. Retail segment include only the Bank's agreed portion of the U.S. strategic cards portfolio, while the Corporate segment includes the retailer program partners' share. There was no impact on the net income of the segments or on the presentation of gross and net results in the Bank's Interim Consolidated Statement of Income.

| ¹ Paolo EDC is computed by dividing not income attributable to | | abarabaldara hu tha | | | | | | uted EDC adjustment | | | | | |

Basic EPS is computed by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period. For the calculation of diluted EPS, adjustments are made to the net income attributable to common shareholders to include the effect of dilutive securities. As a result, the sum of the quarterly basic and diluted EPS figures may not equal the year-to-date EPS.

² Amounts are calculated in accordance with the Basel III regulatory framework, and are presented based on the "all-in" methodology.
³ The CVA capital charge is being phased in until the first quarter of 2019. For fiscal 2017, the scalars for inclusion of CVA for CET1, Tier 1, and Total Capital RWA were 72%, 77%, and 81%, respectively. For fiscal 2018, the corresponding scalars are 80%, 83%, and 86%, respectively. As the Bank is constrained by the Basel I regulatory floor, the RWA as it relates to the regulatory floor is calculated based on the Basel I risk weights which are the same for all capital ratios.

* The leverage ratio is calculated as Tier 1 Capital, based on the "all-in" methodology, divided by leverage exposures. Refer to page 4 of the Supplemental Regulatory Capital Disclosure Package for further details.

⁶ Effective the first quarter of 2017, OSFI requires Canadian banks to disclose the LCR based on an average of the daily positions during the quarter. The LCR for the quarter end January 31, 2018 was calculated as an average of XX daily data points. For the quarters ended October 31, 2017, July 31, 2017, April 30, 2017, and January 31, 2017, the LCRs were calculated based on an average of the 63, 64, 61, and 62 daily data points, respectively, in the quarter.

⁶ Not applicable.

⁷ This is also referred to as economic value at risk (EVaR), and the amounts represent the difference between the change in present value of the Bank's asset portfolio and the change in present value of the Bank's liability portfolio, including off-balance sheet instruments, resulting from an instantaneous change in interest rates.

⁶ Amounts represent the 12-month net interest exposure to an instantaneous and sustained shift in interest rates.
⁹ Excludes ACI loans and debt securities at amortized cost (under IAS 39, debt securities were classified as loans).

¹ Amounts are calculated in accordance with the Basel III regulatory framework, and are presented based on the "all-in" methodology.
 ² Return is calculated based on share price movement and dividends reinvested over a trailing one year period.
 ³ Dividend yield is calculated as the dividend per common share divided by the daily average closing stock price in the relevant period. Dividend per common share is derived as follows: a) for the quarter – by annualizing the dividend per common share paid during the quarter; b) for the year-to-date – by annualizing the year-to-date dividend per common share paid; and c) for the full year – dividend per common share paid during the year.

¹ The adjustments for items of note are removed from reported results to arrive at adjusted results

² Amortization of intangibles relates to intangibles acquired as a result of asset acquisitions and business combinations, including the after tax amounts for amortization of intangibles relating to the equity in net income of the investment in TD Ameritrade. Although the amortization of software and asset servicing rights are recorded in amortization of intangibles, they are not included for purposes of the items of note.

³ On September 18, 2017, the Bank acquired Scottrade Bank and TD Ameritrade acquired Scottrade. Scottrade Bank merged with TD Bank, N.A. The Bank and TD Ameritrade incurred acquisition related charges including employee severance, contract termination fees, direct transaction costs, and other one-time charges. These amounts have been recorded as an adjustment to net income including \$26 million (\$16 million after tax) relating to the charges associated with the Bank's acquisition of Scottrade Bank and \$20 million after tax amounts relating to the Bank's share of charges associated with TD Ameritrade's acquisition of Scottrade reported in the U.S. Retail segment.

⁴ In connection with TD Ameritrade's acquisition of Scottrade on September 18, 2017, TD Ameritrade issued 38.8 million shares, of which the Bank purchased 11.1 million pursuant to its pre-emptive rights (together with the Bank's acquisition of Scottrade and the Bank's acquisition of Scottrade bank and TD Ameritrade's acquisition of Scottrade, the "Scottrade transaction"). As a result of the share issuances, the Bank's common stock ownership percentage in TD Ameritrade decreased and the Bank realized a dilution gain of \$204 million reported in the Corporate segment.

⁵ On June 2, 2017, the Bank completed the sale of its Direct Investing business in Europe to Interactive Investor PLC. A loss of \$40 million after tax, which remains subject to the final purchase price adjustment, was recorded in the Corporate segment in other income (loss). The loss is not considered to be in the normal course of business for the Bank.

⁶ The Bank changed its trading strategy with respect to certain trading debt securities and reclassified these securities from trading to the available-for-sale category effective August 1, 2008. These debt securities are economically hedged, primarily with credit default swap and interest rate swap contracts which are recorded on a fair value basis with changes in fair value recorded in the period's earnings. As a result the derivatives were accounted for on an accrual basis in Wholesale Banking and the gains and losses related to the derivatives in excess of the accrued amounts were reported in the Corporate segment. Adjusted results of the Bank in prior periods exclude the gains and losses of the derivatives in excess of the accrued amount. Effective February 1, 2017, the total gains and losses as a result of changes in fair value of these derivatives are recorded in Wholesale Banking.

⁷ In the second quarter of 2016, the Bank recorded impairment losses on goodwill, certain intangibles, other non-financial assets and deferred tax assets, as well as other charges relating to the Direct Investing business in Europe that has been experiencing continued losses. These amounts are reported in the Corporate segment.

⁸ The impact of the items of note on EPS is calculated by dividing net income available to common shareholders by the weighted-average number of common shares outstanding for the period. As a result, the sum of the quarterly EPS impact may not equal the year-todate EPS impact.

Effective the first quarter of fiscal 2018, the PCL related to the allowances for credit losses for all three stages are recorded within the respective business segment. Under IAS 39 and prior to November 1, 2017, the PCL related to the incurred but not identified allowance for credit losses related to products in the Canadian Retail segment was recorded in the Corporate segment.
 PCL on non-performing financial assets represents Stage 3 PCL under IFRS 9 and counterparty-specific and individually insignificant PCL under IAS 39.
 PCL on performing financial assets represents Stage 2 and Stage 1 PCL under IFRS 9 and incurred but not identified PCL under IAS 39.
 Capital allocated to the business segments was based on 9% CET1 Capital in fiscal 2016, 2017, and 2018.

⁵ Amounts are calculated in accordance with the Basel III regulatory framework, and are presented based on the "all-in" methodology.

Effective the first quarter of 2017, the impact from certain treasury and balance sheet management activities relating to the U.S. Retail segment is recorded in the Corporate segment.

Includes all Federal Deposit Insurance Corporation (FDIC) covered loans and other ACI loans.

PCL on non-performing financial assets represents Stage 3 PCL under IFRS 9 and counterparty-specific and individually insignificant PCL under IAS 39, PCL on performing financial assets represents Stage 2 and Stage 1 PCL under IFRS 9 and incurred but not identified PCL under IAS 39,

4

Items of note relate to the charges associated with the Bank's acquisition of Scottrade Bank. Refer to footnote 3 on page 3.

Includes the net impact of internal management adjustments which are reclassified to other reporting lines in the Corporate segment.

7 Includes the impact of items of note relating to the Bank's share of charges associated with TD Ameritrade's acquisition of Scottrade Financial Services Inc. (Scottrade). Refer to footnote 4 on page 3.

8 Capital allocated to the business segments was based on 9% CET1 Capital in fiscal 2016, 2017, and 2018.

Amounts are calculated in accordance with the Basel III regulatory framework, and are presented based on the "all-in" methodology.

The margin on average earning assets a) includes the value of tax-exempt interest income, adjusted to its equivalent before-tax value, and b) excludes the impact related to the TD Ameritrade insured deposit accounts (IDA). This ratio a) excludes the impact of cash

collateral deposited by affiliates with the U.S. banks, which has been eliminated at the U.S. Retail segment level, and b) the allocation to the IDA has been changed to reflect the Basel III liquidity rules.

¹¹ Includes full service retail banking stores.

¹ The results of the Bank's insurance business within Canadian Retail include both insurance revenue and the changes in fair value from investments that fund policy liabilities which are designated at fair value through profit or loss within the Bank's property and casualty insurance subsidiaries. ² The results of the Bank's economic hedges on loan commitments are included in Other income – Other

³ Includes dilution gain of \$204 million, on the Scottrade transaction, in the fourth quarter of 2017. For further details, refer to footnote 4 on page 3.

¹ <u>Unrealized gain (loss) on securities designated at fair value through profit or loss are included in the income statement.</u>
 ² <u>Unrealized gain (loss) on publicly traded and privately held securities at fair value through other comprehensive income (IAS 39 - available-for-sale (AFS) securities) are included in other comprehensive income (OCI). Under IFRS 9, the gain (loss) on equity securities at fair value through other comprehensive income and realized gain (loss) is reclassified to retained earnings.
</u>

³ Excludes mortgage-backed securities (MBS) in the Canadian Retail segment, coming back on balance sheet as mortgages due to IFRS implementation, as they no longer meet OSFI's definition of AUA.

¹ Excludes loans classified as trading as the Bank intends to sell the loans immediately or in the near term, and loans designated at fair value through profit or loss for which no allowance is recorded.

² Excludes ACI loans and debt securities at amortized cost (under IAS 39, debt securities were classified as loans).

³ Amounts include securitized mortgages that remain on balance sheet under IFRS.

⁴ The year-to-date write-offs, net of recoveries, include write-offs of purchased credit card balances against credit related fair value adjustments, established upon acquisition.

⁵ Under IFRS 9, loans are considered impaired when they meet the definition of default or when there is an objective evidence of impairment. Refer to Note 2 of the Bank's first quarter 2018 Interim Consolidated Financial Statements.

⁶ Includes additional securitized commercial loans.

⁷ Residential mortgages are primarily comprised of loans securitized into mortgage-backed securities through U.S. government-sponsored entities.
