Caution Regarding Forward-Looking Statements

From time to time, the Bank (as defined in this document) makes written and/or oral forward-looking statements, including in this document, in other filings with Canadian regulators or the United States (U.S.) Securities and Exchange Commission (SEC), and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media, and others. All such statements are made pursuant to the "safe harbour" provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements made in this document, the Management's Discussion and Analysis ("2017 MD&A") in the Bank's 2017 Annual Report under the heading "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail and Wholesale Banking segments under headings "Business Outlook and Focus for 2018", and for the Corporate segment, "Focus for 2018", and in other statements regarding the Bank's objectives and priorities for 2018 and beyond and strategies to achieve them, the regulatory environment in which the Bank operates, and the Bank's anticipated financial performance. Forward-looking statements are typically identified by words such as "will", "would", "should", "believe", "expect", "anticipate", "intend", "estimate", "plan", "goal", "target", "may", and "could".

By their very nature, these forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the physical, financial, economic, political, and regulatory environments, such risks and uncertainties – many of which are beyond the Bank's control and the effects of which can be difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause, individually or in the aggregate, such differences include: credit, market (including equity, commodity, foreign exchange, interest rate, and credit spreads), liquidity, operational (including technology and infrastructure), reputational, insurance, strategic, regulatory, legal, environmental, capital adequacy, and other risks. Examples of such risk factors include the general business and economic conditions in the regions in which the Bank operates; the ability of the Bank to execute on key priorities, including the successful completion of acquisitions and dispositions, business retention plans, and strategic plans and to attract, develop, and retain key executives; disruptions in or attacks (including cyber-attacks) on the Bank's information technology, internet, network access, or other voice or data communications systems or services; the evolution of various types of fraud or other criminal behaviour to which the Bank is exposed; the failure of third parties to comply with their obligations to the Bank or its affiliates, including relating to the care and control of information; the impact of new and changes to, or application of, current laws and regulations, including without limitation tax laws, capital guidelines and liquidity regulatory guidance and the bank recapitalization "bail-in" regime; exposure related to significant litigation and regulatory matters; increased competition, including through internet and mobile banking and non-traditional competitors; changes to the Bank's credit ratings; changes in currency and interest rates (including the possibility of negative interest rates); increased funding costs and market volatility due to market illiquidity and competition for funding; critical accounting estimates and changes to accounting standards, policies, and methods used by the Bank; existing and potential international debt crises; and the occurrence of natural and unnatural catastrophic events and claims resulting from such events. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank's results. For more detailed information, please refer to the "Risk Factors and Management" section of the 2017 MD&A, as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable) related to any transactions or events discussed under the heading "Significant Events" in the relevant MD&A, which applicable releases may be found on www.td.com. All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements, when making decisions with respect to the Bank and the Bank cautions readers not to place undue reliance on the Bank's forward looking statements. .

Material economic assumptions underlying the forward-looking statements contained in this document are set out in the 2017 MD&A under the headings "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail, and Wholesale Banking segments, "Business Outlook and Focus for 2018", and for the Corporate segment, "Focus for 2018", each as may be updated in subsequently filed quarterly reports to shareholders.

Any forward-looking statements contained in this document represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank's shareholders and analysts in understanding the Bank's financial position, objectives and priorities, and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.

1. The Bank prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as the "reported" results. The Bank also utilizes non-GAAP financial measures referred to as "adjusted" results (i.e. reported results excluding "items of note") to assess each of its businesses and measure overall Bank performance. Adjusted net income, adjusted earnings per share (EPS) and related terms used in this presentation are not defined terms under GAAP and may not be comparable to similar terms used by other issuers. See "How the Bank Reports" in the Bank's Second Quarter 2018 MD&A (td.com/investor) for further explanation, reported basis results, a list of the items of note, and a reconciliation of non-GAAP measures. For further information and a reconciliation, please see slide 16.

1. Adjusted results are defined in footnote 1 on slide 3. For further information and a reconciliation, please see slide 16.
2. Adjusted net income (loss) $113. The reduction of the U.S. federal corporate tax rate enacted by the U.S. Tax Act has resulted in a one-time net charge to earnings of $453 million, comprising a net $48 million pre-tax charge related to the write down of certain tax credit related investments, partially offset by the favourable impact of the Bank's share of TD Ameritrade's remeasurement of its deferred income tax balances and a $405 million income tax expense resulting from the remeasurement of the Bank's deferred tax assets and liabilities to the lower base rate of 21% and other related tax adjustments.

Note: The Corporate segment includes corporate expenses, other items not fully allocated to operating segments, and net treasury and capital management-related activities. See page 18 of the Bank’s Q2 2018 Report to Shareholders for more information. The Bank’s U.S. strategic cards portfolio comprises agreements with certain U.S. retailers pursuant to which TD is the U.S. issuer of private label and co-branded consumer credit cards to their U.S. customers. Under the terms of the individual agreements, the Bank and the retailers share in the profits generated by the relevant portfolios after credit losses. Under IFRS, TD is required to present the gross amount of revenue and provisions for credit losses related to these portfolios in the Bank's Interim Consolidated Statement of Income. At the segment level, the retailer program partners' share of revenues and credit losses is presented in the Corporate segment, with an offsetting amount (representing the partners' net share) recorded in Non-interest expenses, resulting in no impact to Corporate reported Net income (loss). The Net income (loss) included in the U.S. Retail segment includes only the portion of revenue and credit losses attributable to TD under the agreements.

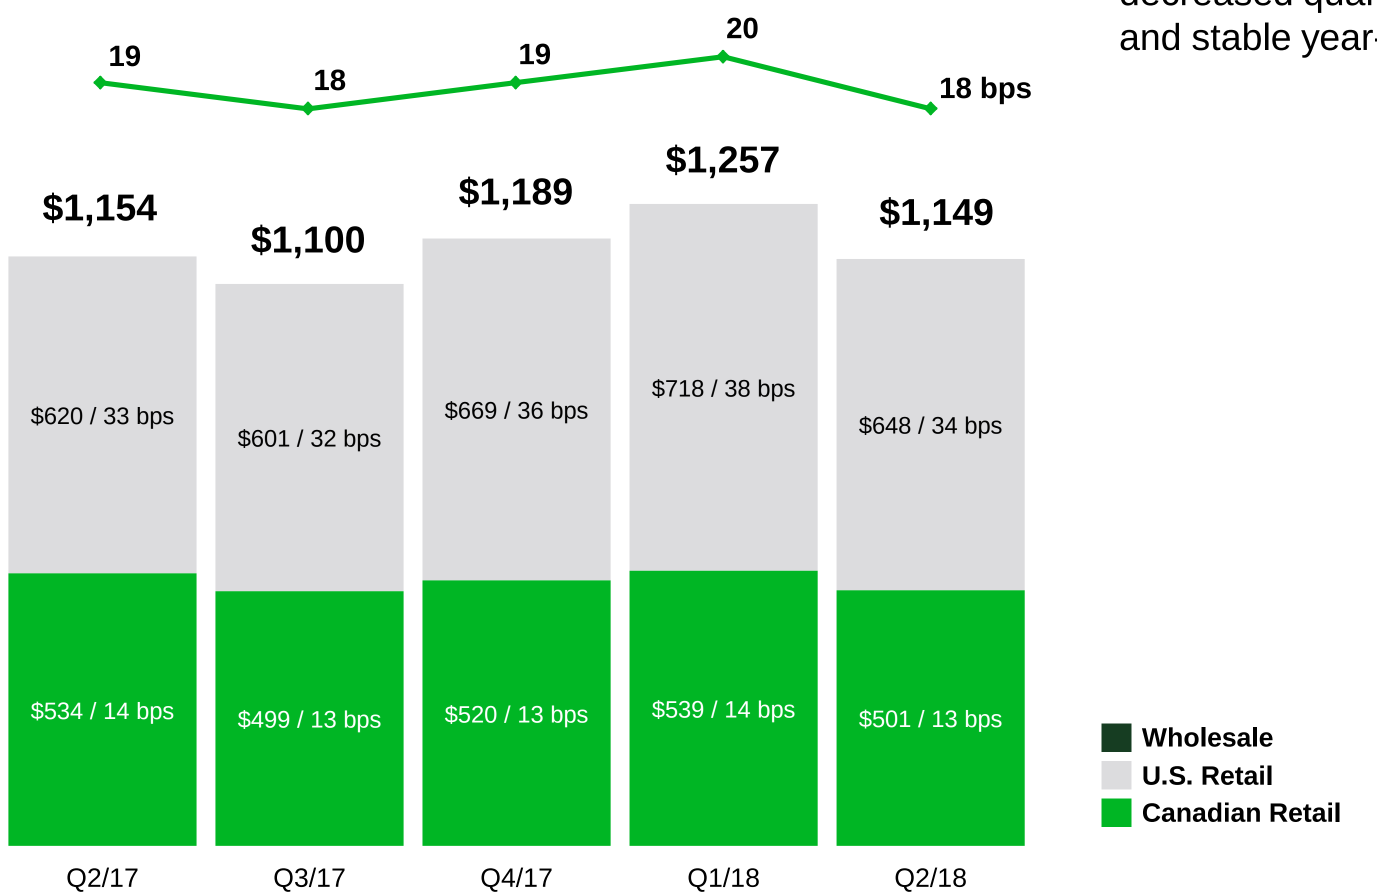
Gross Impaired Loan Formations
By Portfolio

GIL Formations[1]: $MM and Ratios[2]



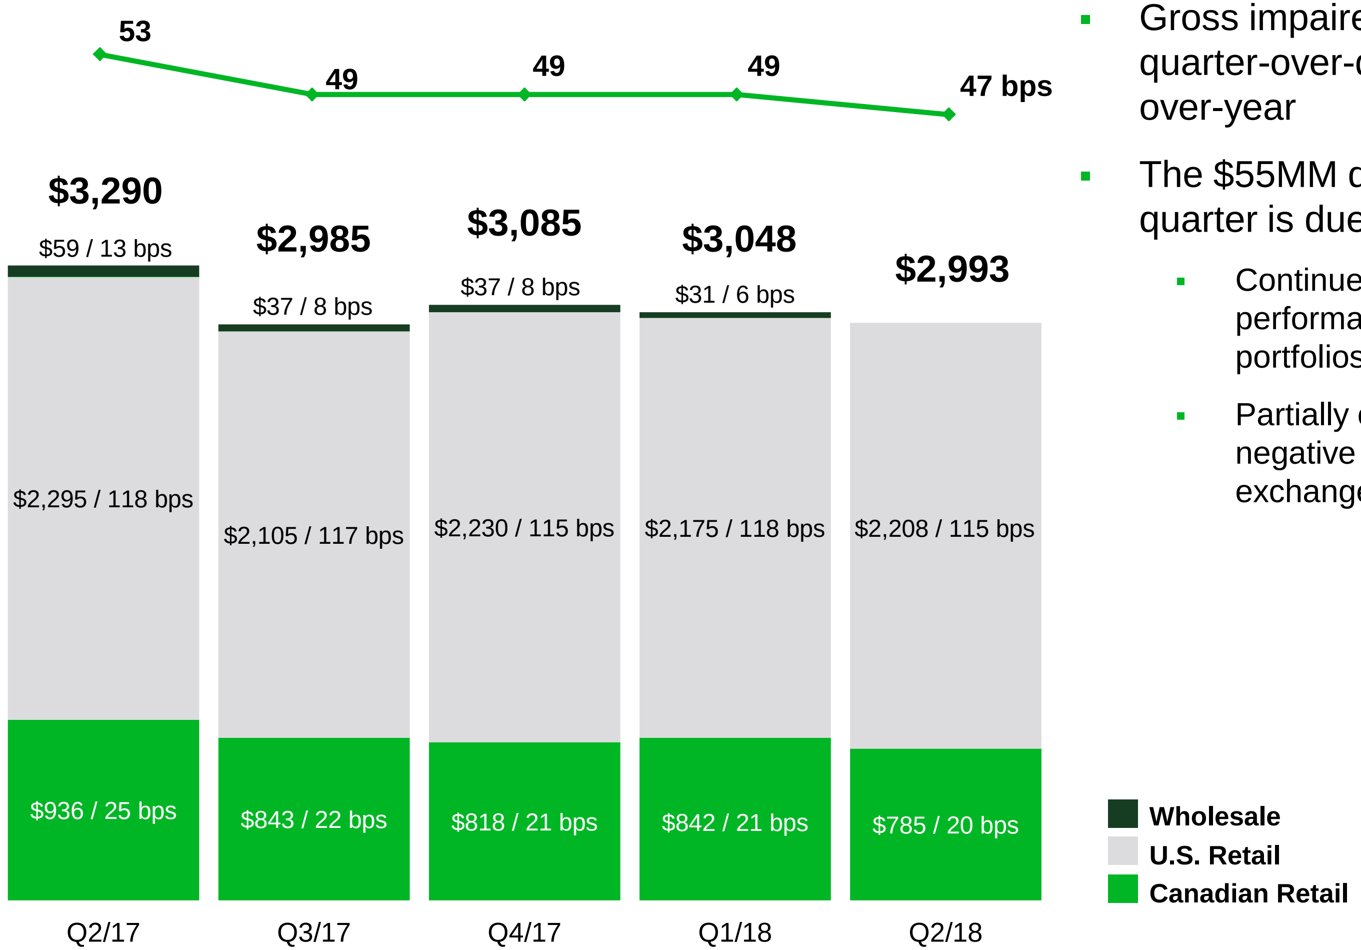
Highlights

- Gross impaired loan formations decreased quarter-over-quarter and stable year-over-year

1. Gross Impaired Loan formations represent additions to Impaired Loans & Acceptances during the quarter; excludes the impact of acquired credit-impaired loans, and prior to November 1, 2017 excludes debt securities classified as loans under IAS 39
2. GIL Formations Ratio – Gross Impaired Loan Formations/Average Gross Loans & Acceptances

Gross Impaired Loans (GIL)
By Portfolio

GIL[1]: $MM and Ratios[2]



Highlights

- Gross impaired loans decreased quarter-over-quarter and year-over-year
- The $55MM decrease in the quarter is due to:
  - Continued strong credit performance across the Bank's portfolios
  - Partially offset by an $81MM negative impact of foreign exchange

1. Gross Impaired Loans (GIL) excludes the impact of acquired credit-impaired loans and prior to November 1, 2017 excludes debt securities classified as loans under IAS39
2. GIL Ratio – Gross Impaired Loans/Gross Loans & Acceptances (both are spot) by portfolio

Total Bank	**35**	**33**	**39**	**45**	**36**

Highlights

- PCL decreased $140MM or 9 basis points quarter-over-quarter driven by:
  - Seasonal trends in the U.S. credit card and indirect auto portfolios
  - Continued strong credit performance in Canadian Retail
- The partners' share of the U.S. strategic credit card losses is booked in the Corporate segment

1. PCL excludes the impact of acquired credit-impaired loans and items of note.
2. PCL Ratio – Provision for Credit Losses on a quarterly annualized basis/Average Net Loans & Acceptances
3. Net U.S. Retail PCL ratio excludes credit losses associated with the retailer program partners' share of the U.S. Strategic Cards Portfolio, which is recorded in the Corporate Segment

1. Includes amortization of intangibles expense of $24MM in Q2 2018, net of tax, for TD Ameritrade Holding Corporation (TD Ameritrade). Amortization of intangibles relates to intangibles acquired as a result of asset acquisitions and business combinations. Although the amortization of software and asset servicing rights is recorded in amortization of intangibles, it is not included for purposes of the items of note.
2. On September 18, 2017, the Bank acquired Scottrade Bank and TD Ameritrade acquired Scottrade. Scottrade Bank merged with TD Bank, N.A. The Bank and TD Ameritrade incurred acquisition related charges including employee severance, contract termination fees, direct transaction costs, and other one-time charges. These amounts have been recorded as an adjustment to net income and include charges associated with the Bank's acquisition of Scottrade Bank and the after tax amounts for the Bank's share of charges associated with TD Ameritrade's acquisition of Scottrade. These amounts are reported in the U.S. Retail segment.
3. Adjusted results are defined in footnote 1 on slide 3.

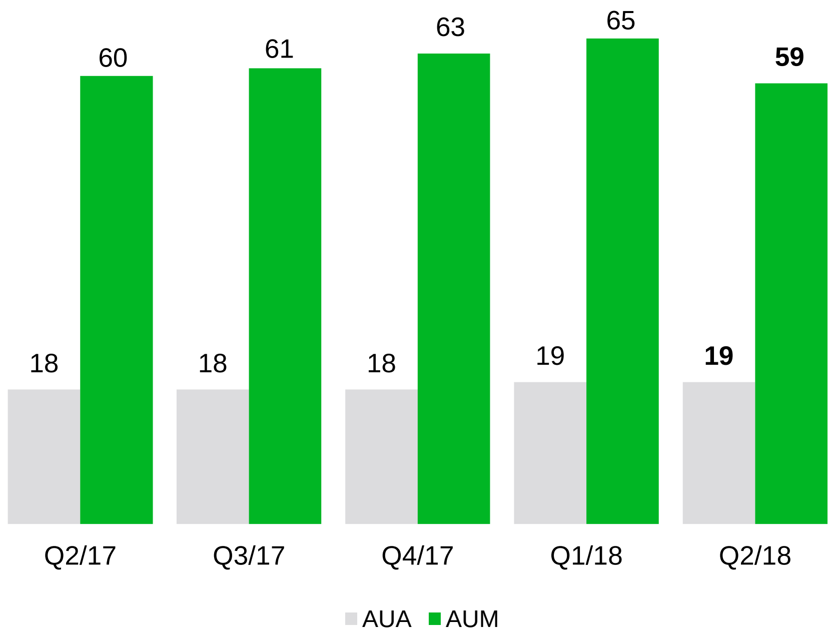
TD Wealth Assets US$B[1]



TD Ameritrade[2] – Q2 2018

TD's share of TD Ameritrade's net income was US$107MM on a reported basis and US$154MM on an adjusted[3] basis, up 88% YoY reflecting:

- Contribution of Scottrade, higher asset-based revenue, increased trading activity, and benefit from tax reform
- Partially offset by higher operating expenses, primarily due to Scottrade

TD Ameritrade Q2 2018 results:

- Adjusted[3] net income was US$414MM in Q2/18, up 79% YoY
- Average trades per day were 943,000, up 82% YoY
- Total clients assets rose to US$1.2 trillion, up 40% YoY

1. TD Wealth assets includes assets under management (AUM) and assets under administration (AUA).
2. TD's share of net income in US$ is the corresponding C$ net income contribution of TD Ameritrade to the U.S. Retail segment included in the Bank's Report to Shareholders(*td.com/investor*) for the relevant quarters, divided by the average FX rate. For additional information, please see TD Ameritrade's press release available at https://www.amtd.com/investor-relations/default.aspx.
3. Adjusted results are defined in footnote 1 on slide 3. For further information and a reconciliation, please see slide 16.
4. Non-GAAP net income is a non-GAAP financial measure as defined by SEC Regulation G. TD Ameritrade defines non-GAAP net income as net income adjusted to remove the after-tax effect of amortization of acquired intangible assets and acquisition-related expenses. TD Ameritrade considers non-GAAP net income as an important measure of TD Ameritrade's financial performance because it excludes certain items that may not be indicative of TD Ameritrade's core operating results and business outlook and will allow for a better evaluation of the operating performance of the business and facilitate a meaningful comparison of TD Ameritrade's results in the current period to those in prior and future periods. Amortization of acquired intangible assets is excluded because management does not believe it is indicative of TD Ameritrade's underlying business performance. Acquisition-related expenses are excluded as these costs are directly related to TD Ameritrade's acquisition of Scottrade Financial Services, Inc. and are not representative of the costs of running TD Ameritrade's ongoing business. Non-GAAP net income should be considered in addition to, rather than as a substitute for, GAAP net income.
