# Caution Regarding Forward-Looking Statements

From time to time, the Bank (as defined in this document) makes written and/or oral forward-looking statements, including in this document, in other filings with Canadian regulators or the United States (U.S.) Securities and Exchange Commission (SEC), and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media, and others. All such statements are made pursuant to the "safe harbour" provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements made in this document, the Management's Discussion and Analysis ("2017 MD&A") in the Bank's 2017 Annual Report under the heading "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail and Wholesale Banking segments under headings "Business Outlook and Focus for 2018", and for the Corporate segment, "Focus for 2018", and in other statements regarding the Bank's objectives and priorities for 2018 and beyond and strategies to achieve them, the regulatory environment in which the Bank operates, and the Bank's anticipated financial performance. Forward-looking statements are typically identified by words such as "will", "would", "should", "believe", "expect", "anticipate", "intend", "estimate", "plan", "goal", "target", "may", and "could".

By their very nature, these forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the physical, financial, economic, political, and regulatory environments, such risks and uncertainties – many of which are beyond the Bank's control and the effects of which can be difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause, individually or in the aggregate, such differences include: credit, market (including equity, commodity, foreign exchange, interest rate, and credit spreads), liquidity, operational (including technology and infrastructure), reputational, insurance, strategic, regulatory, legal, environmental, capital adequacy, and other risks. Examples of such risk factors include the general business and economic conditions in the regions in which the Bank operates; the ability of the Bank to execute on key priorities, including the successful completion of acquisitions and dispositions, business retention plans, and strategic plans and to attract, develop and retain key executives; disruptions in or attacks (including cyber-attacks) on the Bank's information technology, internet, network access, or other voice or data communications systems or services; the evolution of various types of fraud or other criminal behaviour to which the Bank is exposed; the failure of third parties to comply with their obligations to the Bank or its affiliates, including relating to the care and control of information; the impact of new and changes to, or application of, current laws and regulations, including without limitation tax laws, capital guidelines and liquidity regulatory guidance and the bank recapitalization "bail-in" regime; exposure related to significant litigation and regulatory matters; increased competition, including through internet and mobile banking and non-traditional competitors; changes to the Bank's credit ratings; changes in currency and interest rates (including the possibility of negative interest rates); increased funding costs and market volatility due to market illiquidity and competition for funding; critical accounting estimates and changes to accounting standards, policies, and methods used by the Bank; existing and potential international debt crises; and the occurrence of natural and unnatural catastrophic events and claims resulting from such events. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank's results. For more detailed information, please refer to the "Risk Factors and Management" section of the 2017 MD&A, as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable) related to any events or transactions discussed under the headings "Significant Events" and "Significant Events and Pending Acquisitions" in the relevant MD&A, which applicable releases may be found on [www.td.com](http://www.td.com). All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements, when making decisions with respect to the Bank and the Bank cautions readers not to place undue reliance on the Bank's forward-looking statements.

Material economic assumptions underlying the forward-looking statements contained in this document are set out in the 2017 MD&A under the headings "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail, and Wholesale Banking segments, "Business Outlook and Focus for 2018", and for the Corporate segment, "Focus for 2018", each as may be updated in subsequently filed quarterly reports to shareholders.

Any forward-looking statements contained in this document represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank's shareholders and analysts in understanding the Bank's financial position, objectives and priorities and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.

# Q3 2018 Segment Highlights

## Canadian Retail

- Net income was \$1.9 billion, up 7% YoY, on good revenue growth, partially offset by higher insurance claims and non-interest expenses
- PCL increased by 12% QoQ. PCL-impaired increased \$7 million and PCL-performing increased \$20 million, both reflecting volume growth-
- Expenses increased 8% YoY reflecting investments in client facing advisors across our business and higher spend on strategic initiatives – like end to end customer journeys, and faster processing of consumer transactions – marketing and promotion

## U.S. Retail

- In \$USD, U.S. Retail net income increased 29% YoY (31% adjusted<sup>1</sup>)
- PCL increased 6% QoQ. PCL-performing increased US\$25 million, primarily reflecting a prior quarter benefit due to lower commercial volume growth. PCL-impaired declined US\$16 million, reflecting improved performance in the credit card and auto portfolios
- Expenses increased 5% YoY reflecting higher investments in business initiatives, business volume growth, and higher employee-related costs, partially offset by productivity savings

## Wholesale Banking

- Net income was down 24% YoY, reflecting lower revenue and higher non-interest expenses, partially offset by a net recovery of PCL
- PCL was a net benefit of \$14 million compared to nil PCL in the third quarter last year. PCL-performing decreased by \$38 million QoQ, reflecting credit migration in the prior quarter and a current quarter benefit reflecting a reduction in Stage 2 volumes
- Non-interest expenses rose 3%, reflecting continued investments in client-facing employees supporting the global expansion of Wholesale Banking's U.S. dollar strategy, partially offset by lower variable compensation

# Strong Capital & Liquidity Positions

## Highlights

- Common Equity Tier 1 ratio of 11.7%
- Leverage ratio of 4.1%
- Liquidity coverage ratio of 127%
- Completed purchase of approximately 20 million common shares under NCIB
- Tier 1 and Total Capital ratios were 13.3% and 15.4%, respectively

## Common Equity Tier 1<sup>1</sup>

Q2 2018 CET1 Ratio		<b>11.8%</b>
Internal capital generation		43
Impact of repurchase of common shares		(35)
Organic RWA increase and other		(24)
Q3 2018 CET1 Ratio		<b>11.7%</b>

## Total Capital Ratio<sup>1</sup>

1. Amounts are calculated in accordance with the Basel III regulatory framework, and are presented based on the "all-in" methodology. The CVA capital charge is being phased in until the first quarter of 2019. For fiscal 2017, the scalars for inclusion of CVA for CET1, Tier 1, and Total Capital RWA were 72%, 77%, and 81%, respectively. For fiscal 2018, the corresponding scalars are 80%, 83%, and 86%, respectively.

2. Effective in the second quarter of 2018, OSFI implemented a revised methodology for calculating the regulatory capital floor. The revised floor is based on the Basel II standardized approach, with the floor factor transitioned in over three quarters. The factor increases from 70% in the second quarter of 2018, to 72.5% in the third quarter, and 75% in the fourth quarter. Under the revised methodology, the Bank is no longer constrained by the capital floor.
