Caution Regarding Forward-Looking Statements

From time to time, the Bank (as defined in this document) makes written and/or oral forward-looking statements, including in this document, in other filings with Canadian regulators or the United States (U.S.) Securities and Exchange Commission (SEC), and in other communications. In addition, representatives of the Bank may make forward-looking statements orally to analysts, investors, the media and others. All such statements are made pursuant to the "safe harbour" provisions of, and are intended to be forward-looking statements under, applicable Canadian and U.S. securities legislation, including the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements made in this document, the Management's Discussion and Analysis ("2019 MD&A") in the Bank's 2019 Annual Report under the heading "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail, and Wholesale Banking segments under headings "Business Outlook and Focus for 2020", and for the Corporate segment, "Focus for 2020", and in other statements regarding the Bank's objectives and priorities for 2020 and beyond and strategies to achieve them, the regulatory environment in which the Bank operates, and the Bank's anticipated financial performance. Forward-looking statements are typically identified by words such as "will", "would", "should", "believe", "expect", "anticipate", "intend", "estimate", "plan", "goal", "target", "may", and "could".

By their very nature, these forward-looking statements require the Bank to make assumptions and are subject to inherent risks and uncertainties, general and specific. Especially in light of the uncertainty related to the physical, financial, economic, political, and regulatory environments, such risks and uncertainties – many of which are beyond the Bank's control and the effects of which can be difficult to predict – may cause actual results to differ materially from the expectations expressed in the forward-looking statements. Risk factors that could cause, individually or in the aggregate, such differences include: credit, market (including equity, commodity, foreign exchange, interest rate, and credit spreads), liquidity, operational (including technology and infrastructure), model, reputational, insurance, strategic, regulatory, legal, environmental, capital adequacy, and other risks. Examples of such risk factors include the general business and economic conditions in the regions in which the Bank operates; geopolitical risk; the ability of the Bank to execute on long-term strategies and shorter-term key strategic priorities, including the successful completion of acquisitions and dispositions, business retention plans, and strategic plans; the ability of the Bank to attract, develop, and retain key executives; disruptions in or attacks (including cyber-attacks) on the Bank's information technology, internet, network access or other voice or data communications systems or services; fraud or other criminal activity to which the Bank is exposed; the failure of third parties to comply with their obligations to the Bank or its affiliates, including relating to the care and control of information; the impact of new and changes to, or application of, current laws and regulations, including without limitation tax laws, capital guidelines and liquidity regulatory guidance and the bank recapitalization "bail-in" regime; exposure related to significant litigation and regulatory matters; increased competition from incumbents and non-traditional competitors, including Fintech and big technology competitors; changes to the Bank's credit ratings; changes in currency and interest rates (including the possibility of negative interest rates); increased funding costs and market volatility due to market illiquidity and competition for funding; Interbank Offered Rate (IBOR) transition risk; critical accounting estimates and changes to accounting standards, policies, and methods used by the Bank; existing and potential international debt crises; environmental and social risk; and the occurrence of natural and unnatural catastrophic events and claims resulting from such events. The Bank cautions that the preceding list is not exhaustive of all possible risk factors and other factors could also adversely affect the Bank's results. For more detailed information, please refer to the "Risk Factors and Management" section of the 2019 MD&A, as may be updated in subsequently filed quarterly reports to shareholders and news releases (as applicable) related to any events or transactions discussed under the headings "Significant and Subsequent Events in 2019, and Pending Transactions" in the relevant MD&A, which applicable releases may be found on www.td.com. All such factors should be considered carefully, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements, when making decisions with respect to the Bank and the Bank cautions readers not to place undue reliance on the Bank's forward-looking statements.

Material economic assumptions underlying the forward-looking statements contained in this document are set out in the 2019 MD&A under the headings "Economic Summary and Outlook", for the Canadian Retail, U.S. Retail, and Wholesale Banking segments, "Business Outlook and Focus for 2020", and for the Corporate segment, "Focus for 2020", each as may be updated in subsequently filed quarterly reports to shareholders.

Any forward-looking statements contained in this document represent the views of management only as of the date hereof and are presented for the purpose of assisting the Bank's shareholders and analysts in understanding the Bank's financial position, objectives and priorities and anticipated financial performance as at and for the periods ended on the dates presented, and may not be appropriate for other purposes. The Bank does not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by or on its behalf, except as required under applicable securities legislation.

1. The Bank prepares its consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), the current generally accepted accounting principles (GAAP), and refers to results prepared in accordance with IFRS as the "reported" results. The Bank also utilizes non-GAAP financial measures referred to as "adjusted" results (i.e. reported results excluding "items of note") to assess each of its businesses and measure overall Bank performance. Adjusted net income, adjusted earnings per share (EPS) and related terms used in this presentation are not defined terms under GAAP and may not be comparable to similar terms used by other issuers. See "How the Bank Reports" in the Bank's Fourth Quarter 2019 Earnings News Release and 2019 MD&A (www.td.com/investor) for further explanation, reported basis results, a list of the items of note, and a reconciliation of non-GAAP measures. For further information and a reconciliation, please see slide 20.

Note: The Corporate segment includes corporate expenses, other items not fully allocated to operating segments, and net treasury and capital management-related activities. See page 26 of the Bank's 2019 MD&A for more information. The Bank's U.S. strategic cards portfolio comprises agreements with certain U.S. retailers pursuant to which TD is the U.S. issuer of private label and co-branded consumer credit cards to their U.S. customers. Under the terms of the individual agreements, the Bank and the retailers share in the profits generated by the relevant portfolios after credit losses. Under IFRS, TD is required to present the gross amount of revenue and provisions for credit losses related to these portfolios in the Bank's Consolidated Statement of Income. At the segment level, the retailer program partners' share of revenues and credit losses is presented in the Corporate segment, with an offsetting amount (representing the partners' net share) recorded in Non-interest expenses, resulting in no impact to Corporate reported Net income (loss). The Net income (loss) included in the U.S. Retail segment includes only the portion of revenue and credit losses attributable to TD under the agreements.

TD Wealth Assets US\$B¹

TD Ameritrade² – Q4 2019

TD's share of TD Ameritrade's net income was US\$219MM, up 25% YoY (13% on an adjusted³ basis) reflecting:

- Higher asset-based revenue and charges associated with Scottrade in the same quarter last year, partially offset by higher operating expenses

TD Ameritrade Q4 2019 results:

- Reported net income was US\$551MM, up 21%YoY
- Adjusted⁴ net income was US\$575MM, up 10% YoY
- Average trades per day were ~837,000, up 5% YoY
- Total clients assets were ~US\$1.3 trillion, up 2% YoY

1. TD Wealth assets includes assets under management (AUM) and assets under administration (AUA).

2. TD's share of net income in US\$ is the corresponding C\$ net income contribution of TD Ameritrade to the U.S. Retail segment included in the Bank's Report to Shareholders (www.td.com/investor) for the relevant quarters, divided by the average FX rate. For additional information, please see TD Ameritrade's press release available at www.amtd.com/newsroom/default.aspx.

3. Adjusted results are defined in footnote 1 on slide 4.

4. Non-GAAP net income is a non-GAAP financial measure as defined by SEC Regulation G. TD Ameritrade defines non-GAAP net income as net income adjusted to remove the after-tax effect of amortization of acquired intangible assets and acquisition-related expenses. TD Ameritrade considers non-GAAP net income as an important measure of TD Ameritrade's financial performance because it excludes certain items that may not be indicative of TD Ameritrade's core operating results and business outlook and may be useful in evaluating the operating performance of the business and facilitating a meaningful comparison of TD Ameritrade's results in the current period to those in prior and future periods. Amortization of acquired intangible assets is excluded because management does not believe it is indicative of TD Ameritrade's underlying business performance. Acquisition-related expenses are excluded as these costs are directly related to TD Ameritrade's acquisition of Scottrade Financial Services, Inc. and are not representative of the costs of running TD Ameritrade's ongoing business. Non-GAAP net income should be considered in addition to, rather than as a substitute for, GAAP net income.

U.S. Retail Digital Metrics¹
